(c) The payment of survivor benefits shall begin as of the month immediately following the death of the member except where the beneficiary has not reached the age required to receive benefits under paragraph (b) hereof, in which event the payment of survivor benefits shall begin as of the month immediately following the month in which the beneficiary reaches the required age.

(d) Limitations on rights of beneficiary are:

1. The person named as beneficiary in paragraph (b) shall, in no event, be entitled to

receive the benefits set out in such paragraph unless the death of the member under whom such beneficiary claims occurs within the period of time after the member has served in Florida as follows:

Minimum number of years of service in Florida	Period after serving in Florida in which death of member occurs
Three to five	Two years
Six to nine	Five years
Ten or more	Ten years

2. Upon the death of a member, the board shall make a determination of the beneficiary or beneficiaries of the deceased member and shall pay survivor benefits to such beneficiary or beneficiaries beginning one month immediately following the death of the member except where the beneficiary has not reached the age required to receive benefits under paragraph (b) hereof, in which event the payment of survivor benefits shall begin as of the month immediately following the month in which the beneficiary reaches the required age. When required by the board of trustees, the beneficiary or beneficiaries shall file an application for survivor benefits upon forms prescribed by the board.

3. The beneficiaries of a member to receive survivor benefits are fixed by this subsection, and a member may not buy or otherwise change such benefits. He may, however, designate the beneficiary to receive the five hundred dollars death benefits. If a member fails to make this designation, the five hundred dollars death benefits shall be paid to his executor or administrator.

4. The beneficiary or beneficiaries of a member whose death occurs while he is in service or while he is receiving a disability allowance under §238.07 (11), shall receive survivor benefits under this subsection determined by the years of service in Florida of the deceased member as set out in paragraph (b) of this subsection. The requirement that the death of a member must occur within a certain period of time after service in Florida as set out in subparagraph 1. of paragraph (d) shall not apply to a member receiving a disability benefit at the time of his death.

(17) Any person who hereafter elects to receive retirement benefits under §112.05, shall not be entitled to the retirement benefits of this chapter except for the refund of his accumulated contributions as provided in subsection (13) of this section; likewise any person who elects to receive retirement benefits under this chapter shall thereby become ineligible to receive retirement benefits under §112.05.

238.08 Optional benefits.—A member may elect to receive his benefits under the terms of this chapter according to the provisions of any one of the following options:

(1) Option one. He may elect to receive his benefits in a retirement allowance payable throughout his life, or

(2) Option two. He may elect to receive on retirement the actuarial equivalent (at that time) of his retirement allowance in a reduced retirement allowance payable throughout life, with the provisions that if he dies before he has received in payment of his annuity the amount of his accumulated contributions, as they were at the time of his retirement, the balance shall be paid to such person, if any, as he shall nominate by written designation duly acknowledged and filed with the board of trustees; otherwise, to his executors or administrators.

(3) Option three. He may elect at any time prior to receipt of his or her first monthly installment of retirement compensation, to receive a reduced retirement compensation with the provision that the surviving spouse shall continue to draw such reduced retirement compensation so long as he or she shall live. The amount of such reduced retirement compensation shall be the actuarial equivalent of the amount of such retirement otherwise payable.

(4) Option four. He may elect at any time prior to receipt of his or her first monthly installment of retirement compensation, to receive a reduced retirement compensation with the provision that the surviving spouse shall continue to draw one half of such reduced retirement compensation so long as he or she shall live. The amount of such reduced retirement compensation shall be the actuarial equivalent of the amount of such retirement otherwise payable.

(5) If a member continues in service beyond the date he is first eligible for service retirement and does not, prior to his death, elect options three or four, his spouse may, at the option of the spouse, receive either the accumulated contributions of the member at date of death or the reduced retirement compensation to which the beneficiary would have been entitled under option three, calculated on the assumption that the member retired on his date of death and died immediately subsequent thereto provided that the spouse of any member who died between July 1, 1955 and June 30, 1957, both dates inclusive, is entitled to full benefits under this subsection and further provided that for all persons who become members of the system on or after July 1, 1963, the amount of such retirement allowance otherwise payable to the member at his date of death shall be determined on the basis of a normal retirement age of sixty-five.

History.—§8, ch. 19014, 1939; CGL 1940 Supp. 892(163); §7, ch. 22858, 1945; (3), (4) n. §4, ch. 28196, 1953; §7, ch. 29942, 1955; (5) §3, ch. 57-357; (5) §8, ch. 63-554.

238.09 Method of financing.—All of the assets of the retirement system shall be credited, according to the purposes for which they are held, to one of four funds; namely: the annuity savings trust fund, the pension accumulation trust fund, the expense trust fund and the survivors' benefit trust fund.

(1) The annuity savings trust fund shall be a fund in which shall be accumulated contributions made from the salaries of members under the provisions of (c) or (f).

Contribution to, payments from, the annuity savings trust fund shall be made as follows:

(a) With respect to plan A, B, C or D, upon the basis of such tables as the board of trustees shall adopt, and regular interest, the actuary of the retirement system shall determine for each member the proportion of earnable compensation which, when deducted from each payment of his prospective earnable annual compensation prior to his minimum service retirement age, and accumulated at regular interest until such age, shall be computed to provide at such age (i) an annuity equal to one one-hundred-fortieth of his average final compensation multiplied by the number of his years of membership in the case of each member electing to retire under the provisions of plan A or B; (ii) an annuity equal to one one-hundred-twentieth of his average final compensation multiplied by the number of his years of membership service in the case of each member electing to retire under the provisions of plan C; (iii) an annuity equal to one one-hundredth of his average final compensation multiplied by the number of his years of membership service in the case of each member electing to retire under the provisions of plan D. In the case of any member who has attained his minimum service retirement age prior to becoming a member, the proportion of salary applicable to such member, with respect to plan A, B, C or D, shall be the proportion computed for the age one year younger than his minimum service retirement age.

(b) A member under plan E shall make contribution to the fund of six per cent of his earnable compensation.

(c) The board of trustees shall certify to each employer the proportion of the earnable compensation of each member who is compensated by the employer, and the employer shall cause to be deducted from the salary of each member on each and every payroll for each and every payroll period an amount equal to the proportion of the member's earnable compensation so computed. With respect to plan A, B, C or D, the employer shall not make any deduction for annuity purposes from the compensation of a member who has attained the age of sixty years, if such member elects not to contribute.

(d) In determining the amount earnable by a member in a payroll period, the board of trustees may consider the rate of compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period, and it may omit deductions from compensation for any period less than a full payroll period if a teacher was not a member on the first day of the payroll period, and to facilitate the making of deductions, it may modify any deduction required of any member by such an amount as shall not exceed one-

tenth of one per cent of the annual salary from which said deduction is to be made.

(e) The deductions provided for herein shall be made, notwithstanding that the minimum compensation provided for by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the deductions made and provided for herein, and shall receipt in full for his salary or compensation; and payment of salary or compensation, less said deductions, shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such person during the period covered by such payment, except as to the benefits provided by this chapter.

(f) In addition to the deduction from salary, as hereinbefore required, any member may, with respect to plan A, B, C or D, subject to the approval of the board of trustees, redeposit in the annuity savings trust fund, by a single payment or by an increased rate of contribution an amount equal to the total amount which he previously withdrew therefrom, as provided in this chapter, or any part thereof; or any member may deposit in the annuity savings trust fund, by a single payment or by an increased rate of contribution, amounts for the purchase of an additional annuity, but such additional payments shall not exceed the amounts computed to provide, with his prospective retirement allowance, a total retirement allowance of one half of his prospective average final compensation at his minimum service retirement age. Such additional amounts so deposited shall become a part of his accumulated contributions, except that in the case of disability retirement they shall be treated as excess contributions returnable to the member in cash or as an annuity of equivalent actuarial value and shall not be considered in computing his pension.

(g) A member who elects to retire under plan E shall pay to the annuity savings trust fund prior to retirement or receive from the annuity savings trust fund, as the case may be, the difference between what his contributions, with accumulated interest, would have been under plan E and the actual contributions of the member with accumulated interest.

(h) The accumulated contributions of a member returned to him upon withdrawal, or paid as provided in this chapter to his designated beneficiary, or to his executors or administrators in the event of his death, shall be paid from the annuity savings trust fund.

(i) Upon the retirement of a member, his accumulated contributions shall be transferred from the annuity savings trust fund to the pension accumulation trust fund.

(2) Should a beneficiary, retired on account of disability, again become a member of the retirement system, his accumulated contributions as of the date of retirement not paid as an annuity, shall be transferred from the pension accumulation trust fund to the annuity savings trust fund and credited to his individual account in the annuity savings trust fund.

(3) The pension accumulation trust fund shall be the fund in which shall be accumulated all reserves for the payment of all annuities or benefits in lieu of annuities on retired members and all pensions and other benefits payable from contributions made by the members and by the employers, from which annuities, pensions and benefits in lieu thereof shall be paid.

Contributions to, and payments from, the pension accumulation trust fund, other than as set forth in subsections (2) and (3) herein, shall be made as follows:

(a) On account of each member there shall be paid annually into the pension accumulation trust fund, as provided for in §238.11, on account of the preceding year a certain percentage of his earnable compensation, to be known as the normal contribution, and an additional percentage of his earnable compensation, to be known as the accrued liability contribution. The rates per cent of earnable compensation of such contributions shall be fixed on the basis of the liabilities of the retirement system, as shown by actuarial valuation.

(b) On the basis of regular interest and of such mortality and other tables as shall be adopted by the board of trustees, the actuary engaged by the board of trustees to make each valuation required by this chapter shall, during the period over which the accrued liability contribution is payable, determine, immediately after making such valuation, the uniform and constant percentage of the earnable compensation of the average new entrant, which, if contributed on the basis of his compensation throughout his entire period of service, would be sufficient to provide for the payment of any pension payable by the state on his account. The rate per cent so determined shall be known as the normal contribution rate. After the accrued liability contribution has ceased to be payable, the normal contribution rate shall be the rate per cent of the earnable compensation of all members, obtained by deducting from the total liabilities of the pension accumulation trust fund the amount of the funds in hand to the credit of that fund and dividing the remainder by one per cent of the present value of the prospective future salaries of all members as computed on the basis of the mortality and service tables adopted by the board of trustees and on the basis of regular interest. The normal rate of contribution shall be determined and certified to the board of trustees by the actuary after each valuation and shall continue in force until a new valuation and certification are made.

(c) Immediately succeeding the first valuation, the actuary engaged by the board of trustees shall compute the rate per cent of the total earnable compensation of all members which is equivalent to four per cent of the amount of the total liability for pensions on account of all members and beneficiaries and not dischargeable by the present assets of the pension accumulation trust fund and by the aforesaid normal contribution if made on account of such members during the remainder of

their active service. The rate per cent, originally so determined, shall be known as the accrued liability contribution rate.

(d) The total amount payable in each year into the pension accumulation trust fund shall be not less than the sum of the rates per cent known as the normal contribution rate and the accrued liability contribution rate, of the total earnable compensation of all members during the preceding year; provided, however that the amount of each annual accrued liability contribution shall be at least three per cent greater than the preceding annual accrued liability contribution; and provided that the aggregate payment into the pension accumulation trust fund shall be sufficient, when combined with the amount then held in the fund, to provide the benefits payable from the fund during the current year.

(e) The accrued liability contribution shall be discontinued as soon as the accumulated reserve in the pension accumulation trust fund shall equal the present value, as actuarially computed and approved by the board of trustees, of the total liability of such fund less the present value, computed on the basis of the normal contribution rate, then in force of the prospective normal contributions to be received on account of persons who are at that time members.

(4) The expense trust fund shall be the fund to which shall be credited all moneys contributed for the administrative expenses of the retirement system and from which shall be paid all expenses incurred in connection with the administration and operation of the retirement system. Contribution to the expense trust fund shall be made by transfer from interest earnings on investments in the annuity savings trust fund, such transfers shall be regulated by the legislature pursuant to budgets filed in accordance with the provisions of chapter 216.

(5) (a) The survivors' benefit fund shall be the fund in which shall be accumulated all reserves for the payment of all survivor benefits provided for in §238.07 (16), except refund of accumulated contributions. There shall be paid into this fund:

1. All contributions by members based on the rate of twenty-five hundredths per cent of their salary as set out in paragraph (b) of this subsection.

2. All contributions by the state to the survivors' benefit trust fund.

3. All transfers from other funds as required by this subsection.

(b) The board of trustees shall annually certify to each employer, at the time it makes the certification to the employer under paragraph (c) of subsection (1) of §238.09, the rate of twenty-five hundredths per cent to be applied by the employer to the salary of each member who is compensated by the employer, and the employer shall cause to be deducted from the salary of each member on each and every payroll for each and every payroll period an amount equal to twenty-five hundredths

per cent of the member's salary paid by the employer and the employer shall remit monthly such deducted amounts to the board of trustees who shall place the same in the survivors' benefit trust fund of the teachers' retirement system of the state. The amount of contributions by a member to the survivors' benefit trust fund shall, in no event, be refundable to the member or his beneficiaries.

(c) Beginning July 1, 1959, there shall be paid annually into the survivor's benefit trust fund by the state on account of the preceding year a sum equal to the total amount paid into such fund by the members of the teachers' retirement system of the state.

(d) A member who makes contributions to the survivors' benefit trust fund shall not thereby obtain, prior to July 1, 1959, any vested interest or right to the benefits under §238.07 (16), and these benefits may be altered, changed or repealed by the legislature at its 1959 session, provided that the beneficiaries of members whose deaths occur prior to July 1, 1959 shall have a vested interest in the benefits accruing to such beneficiaries under §238.07(16), and these rights may not be altered, changed nor repealed by the legislature.

(e) If there is not sufficient money to promptly pay all benefits which become due to each beneficiary during the biennium beginning July 1, 1957 under §238.07(16), the board of trustees shall, from time to time, prorate among all beneficiaries the money available to pay benefits.

238.10 Management of funds.—The board of trustees, annually, shall allow regular interest on the amount for the preceding year to the credit of each of the funds of the retirement system, and to the credit of the individual account therein, if any, with the exception of the expense fund, from the interest and dividends earned from investments.

238.11 Collection of contributions.—

(1) The collection of contributions shall be as follows:

(a) Each employer shall cause to be deducted from each and every payment of salary of a member, for each and every pay roll period, the contribution payable by such member as provided in this chapter. Commencing July 1, 1967, each employer shall also budget and set aside an amount equal to such deductions, which shall be the employer contribution, except with respect to any nonprofit professional association or corporation of teachers for which the employer contribution shall be at least that amount specified in §238.09(3)(a); provided that such amount shall be set aside only if the state makes available to the em-

ployer, except for any nonprofit professional association or corporation, the additional funds necessary for such employer contributions.

(b) Each employer shall transmit monthly to the secretary of the board of trustees a warrant for the total amount of such deductions. Commencing July 1, 1967, each employer shall also transmit monthly to the secretary of the board of trustees a warrant for such employer contribution set aside as provided for in paragraph (a) of this subsection. The secretary of the board of trustees, after making records of all such warrants, shall transmit them to the comptroller who shall deliver them to the treasurer of the state who shall collect them.

(c) The state contribution shall be equal to the excess of the contributions specified under §238.09, over the amounts the state makes available for employer contributions under paragraphs (a) and (b) of this subsection.

(2) The collection of the state contribution shall be made as follows:

(a) The amounts required to be paid by the state into the teachers' retirement system in this chapter shall be provided therefor in the biennial general appropriations act; provided, however, that in the event a sufficient amount is not included in the biennial general appropriations act to meet the full amount needed to pay the retirement compensation provided for in this chapter, the additional amount needed for such retirement compensation is hereby appropriated from the general revenue fund as approved by the budget commission.

(b) The board of trustees shall certify one-fourth of the amount so ascertained for each year to the state comptroller on or before the last day of July, October, January and April of each year. The comptroller shall, on or before the first day of August, November, February and May of each year, draw his warrant or warrants, which shall be countersigned by the governor, on the treasurer of the state for the respective amounts due the several funds of the retirement system. On the receipt of the warrant or warrants of the comptroller, the treasurer shall immediately transfer to the several funds of the retirement system the amounts due.

(3) All collection of contributions of nonprofit professional association or corporation of teachers as referred to in §238.01, (4), (6), shall be made by such association or corporation in the following manner:

(a) On April 1 of each year the board of trustees shall certify to any such nonprofit professional association or corporation of teachers the amounts which will become due and payable during the ensuing fiscal year to each of the funds of the retirement system to which such contributions are payable as set forth in this law.

(b) The board of trustees shall certify one-fourth of the amount so ascertained for each year to the nonprofit professional association or corporation of teachers on or before the last day of July, October, January and April of

each year. The nonprofit professional association or corporation of teachers shall on or before the first day of August, November, February and May of each year draw its check payable to the secretary of the board of trustees of the teachers' retirement system for the respective amounts due the several funds of the retirement system. Upon receipt of the check the secretary shall immediately transfer to the several funds of the retirement system the amounts due, provided, however that the amounts due the several funds of the retirement system from any such association or corporation for creditable service accruing to any such member before July 1, 1947 shall be paid prior to the retirement of any such member.

238.12 Duties of employers.—(1) Each employer shall keep such records and, from time to time, shall furnish such information as the board of trustees may require in the discharge of its duties. Upon the employment of any teacher to whom this chapter may apply, he shall be informed by his employer of his duties and obligations in connection with the retirement system as a condition of his employment. Every teacher accepting employment shall be deemed to consent and agree to any deductions from his compensation required in this chapter and to all other provisions of this chapter.

(2) During September of each year, or at such other time as the board of trustees shall approve, each employer shall certify to the board of trustees the names of all teachers to whom this chapter applies.

(3) Each employer shall, on the first day of each calendar month, or at such less frequent intervals as the board of trustees may approve, notify the board of trustees of the employment of new teachers, removals, withdrawals and changes in salary of members that have occurred during the preceding month, or the period covered since the last notification.

History.—§12, ch. 19014, 1939; CGL 1940 Supp. 892(167).

238.13 Limitation on membership.—

(1) No other provision of law in any other statute which provides wholly or partly at the expense of the state for pensions or for retirement benefits for teachers of the said state, their widows, or other dependents, shall apply to members or beneficiaries of the retirement system established by this chapter, their widows or other dependents. No person who shall become a teacher, as defined herein, after the first day of July, nineteen hundred and thirty-nine, shall be eligible to a pension under any statute heretofore enacted.

(2) No person who is fully covered by a compulsory civil service retirement plan shall be a member of the retirement system under this chapter; provided, however, that any person who is presently a member of the retirement system and is also fully covered by a compulsory civil service retirement plan may continue to be a member of the retirement system or at his option may withdraw from such

retirement system and thereupon be entitled to receive all of his accumulation in the annuity savings trust fund together with the interest thereon.

238.14 Protection against fraud.—Any person who shall knowingly make any false statement, or shall falsify or permit to be falsified any record or records of this retirement system in any attempt to defraud such system as a result of such act, shall be guilty of a misdemeanor and shall be punishable therefor under the laws of the state. Should any change or error in records result in any member or beneficiary receiving from the retirement system more or less than he would have been entitled to receive had the records been correct, then on discovery of any such error the board of trustees shall correct such error, and, as far as practicable, shall adjust the payments in such a manner that the actuarial equivalent of the benefit, to which such member or beneficiary was correctly entitled, shall be paid.

238.17 Employees of nonprofit professional

association or corporation of teachers functioning on a statewide basis; intent.—It is the intent of this section to grant to employees of nonprofit professional association or corporation of teachers who are or become members of the teachers' retirement system all the rights, privileges and benefits therefrom as are or may be granted to all other members of the teachers' retirement system, provided, however, that for other than creditable service as a teacher as defined in §238.01(4) rendered to a state, county, municipality or other taxing district by any such employee, the state shall not make any contributions on account of such service.

History.—§7, ch. 23864, 1947.

238.181 Retired member may be substitute teacher; conditions.—

(1) Any member who has retired may be employed, on a substitute basis only, as a substitute teacher in any of the public free schools of this state, and such employment shall not affect the rights of such retired member under the retirement system, including, without limiting the general terms hereof, his right to receive his retirement allowance; provided that a county board of public instruction may employ as a substitute teacher a member who has retired only if the county board is unable to employ for such substitute teaching position, a qualified teacher who has not retired.

(2) A retired teacher may be employed on a part-time basis and receive compensation for services rendered without reducing or in any way affecting his retirement or pension status but in no case shall the part-time employment exceed two hundred hours in any single calendar year.

(3) Any member who hereafter retires and receives a retirement allowance under the provisions of this chapter shall have his retirement allowance suspended during any period of re-employment in any capacity whatsoever by the state or any political subdivision, department, branch, or agency thereof, except as in this chapter specifically provided.

Fifty of said scholarships are designated Stonewall Jackson memorial scholarships and the state board is directed to so denominate and publicize said scholarships as such. For the purpose of making such scholarship loans effective there shall be included in the biennial general appropriations act sufficient funds for the administration of such scholarship loans.

state board regulations relative to teacher education and certification; and must complete to the satisfaction of the institution the work he is undertaking each year, except that this shall not be construed to prohibit a scholarship recipient from following an approved program of studies leading to a certificate to teach in a public junior college of the state as provided by state board of education regulations. Accordingly, it shall be the responsibility of the scholarship holder and of the college, university or junior college to insure that such scholarship holder will be eligible for a certificate as a teacher in Florida upon graduation.

The state board shall prescribe regulations for the payment of scholarship funds to the institutions and to individual scholarship holders in private institutions for the benefit of such scholarship holders who take additional work during the summer terms in order to complete their college training at an earlier date. (1) The board of control with the approval of the board of education is hereby authorized

to create, as it deems advisable, in the several institutions of the Florida university system, divisions of sponsored research which will serve the function of administration and promotion of the programs of research of the institutions at which they are located.

(2) The board of control shall set such policies to regulate the activities of the divisions of sponsored research as it may consider necessary to effectuate the purposes of this act and to administer the research programs of the several institutions of the Florida university system in a manner which assures efficiency and effectiveness, producing the maximum benefit for the educational programs and maximum service to the state.

(3) A division of sponsored research created under the provisions of this act shall be under the supervision of the president of that institution who is hereby authorized, subject to the policies of the board of control, to appoint a director; to employ full-time and part-time staff, research personnel, and professional services; to employ on a part-time basis personnel of the institution; to employ temporary employees whose salaries are paid entirely from the permanent sponsored research development fund or in combination from that fund and other nonstate sources with such positions being exempt from the requirements of the Florida Statutes relating to salaries, provided that no such appointment shall be made for a total period of longer than one year.

(4) The president of the institution where a division of sponsored research is created is hereby authorized, subject to the policies of the board of control and acting in its behalf, to negotiate, enter into, and execute research contracts; to solicit and accept research grants and donations; to fix and collect fees, other payments and donations that may accrue by reason thereof.

(5) A division of sponsored research shall be financed from the moneys of an institution which are on deposit or received for use in the research or related programs of that particular institution. Such moneys shall be deposited by the institution in a permanent sponsored research development fund in a depository or depositories approved for the deposit of state funds and shall be accounted for and disbursed subject to regular audit by the state auditor.

(6) The fund balance on hand in any existing research trust fund in the respective institution, at the time a division of sponsored research is created, shall be transferred to a permanent sponsored research development fund established for the institution and thereafter the fund balance of said sponsored research development fund at the end of any fiscal period may be used during any succeeding period for the purposes and in the manner authorized by this act.

(7) Moneys deposited in the permanent sponsored research development fund of an institution shall be disbursed in accordance with the terms of the contract, grant, or donation

A copy of such report and budget shall be furnished to the state board of education and to the state budget commission.

(9) All purchases of a division of sponsored research shall be made in accordance with the policies and procedures of the board of control; provided, however, that in compliance with policies and procedures established by the board of control and concurred in by the board of education, whenever a director of sponsored research shall certify to the board of control that, in a particular instance, it is necessary for the efficient or expeditious prosecution of a research project, the purchase of material, supplies, equipment or services for research purposes shall be exempt from the general purchasing requirement of the Florida Statutes.

(10) The board of control may authorize the construction, alteration, or remodeling of buildings when the funds used are derived entirely from the sponsored research development fund of an institution or in combination from that fund and other nonstate sources provided that such construction, alteration, or remodeling is for use exclusively in the area of research; it also may authorize the acquisition of real property when the cost is entirely from said funds. (1) There is hereby established in the state treasury a working capital trust fund at the university of Florida and a working capital trust fund at Florida state university, for the purpose of providing central financing and cost controls for certain general services necessary to the operation of all departments of the respective universities including the auxiliary enterprises.

(2) All costs of work performed and services rendered in providing the said services shall be paid from the working capital trust fund. The departments and enterprises shall be billed periodically, at least once each month or as nearly so as is reasonably practical, for services rendered at actual cost including reasonable overhead and depreciation charges, and payments by the departments and enterprises shall be deposited into the working capital trust fund to be available for financing other work and services as required.

(3) There is hereby appropriated from any surplus in the incidental trust fund of the Florida state university the sum of two hundred thousand dollars and from any surplus in the incidental trust fund of the university of Florida the sum of three hundred and fifty thousand dollars which may accrue in these funds, for transfer to the working capital trust fund of the respective institutions in order to provide the initial cash working capital.

(4) The said working capital trust funds shall consist of the amounts appropriated in subsection (3), the equipment and materials on hand at June 30, 1955, and such accounts receivable and payable as may be outstanding on June 30, 1955, in the present general services operation; provided, however, that the amount of equipment, materials, and the accounts receivable and payable shall be determined by the state auditor as of the close of business on June 30, 1955; provided further that the board of control is authorized to add such general service operations, as may be approved by the state budget commission, to the working capital trust funds; and the assets, as determined by the state auditor, of the activities so added shall be transferred to the working capital trust funds. The sum total of the assets in the respective working capital trust funds shall not exceed the maximum sum total

approved by the state auditor as of the close of business on June 30, 1955, plus the additional assets provided in this subsection.

(5) The state auditor shall audit these funds in conjunction with his regular audits of the respective institutions. Upon a determination by the state auditor that a surplus exists in the working capital trust fund, over and above the maximum total approved as provided in subsection (4) above, he shall require an immediate transfer of the said surplus from the working capital trust fund of the institution affected to the general revenue fund as unallocated receipts.

(4) Expenditure of funds appropriated in this section shall be pursuant to budgets approved by the state board of control and the state budget commission.

(5) The board of control shall exercise effective controls over the development of programs of nuclear studies and research so that the program of each university shall contribute to a coordinated and complementary program of the state university system, and so that unnecessary duplication will be avoided.

(6) It is the will of the legislature that: the controlling objective of the program of basic nuclear studies and research in the state university system be the training of scientists; basic nuclear research be developed to a point that is reasonably necessary for appropriate advanced instructional programs; the areas of strength developed in one institution be complemented rather than duplicated by areas of strength in the other institutions; the controlling objectives of applied programs be the

development of industry and welfare of Florida and the advancement of necessary and appropriate instructional programs; while it is recognized that basic research must of necessity be carried on at both universities, it is the intent of the legislature that the nuclear program at the Florida state university concentrate in basic research and at the university of Florida in applied research; provided however, that the board of control may permit such applied research programs at Florida state university as may not necessitate additional equipment and will not constitute unnecessary duplication of applied research conducted at the university of Florida, and that the program

CHAPTER 244

REGIONAL EDUCATION

244.01 Regional education; state policy.
244.02 Regional compact.

244.03 Copies to other states approving.

244.01 Regional education; state policy.—It is hereby declared to be the policy of the state to promote the development and maintenance of regional education services and facilities in the Southern States in the professional, technological, scientific, literary and other fields so as to provide greater educational advantages for the citizens of the state and the citizens in the several states in said region; and it is found and determined by the legislature of the state that greater educational advantages and facilities for the citizens of the state in certain phases of the professional, technological, scientific, literary and other fields in education can best be accomplished by the development and maintenance of regional educational services and facilities, under the plan embodied in "The Regional Pact" hereinafter adopted; and this law shall be liberally construed to accomplish such purposes.

History.—§1, ch. 25017, 1949.

244.02 Regional compact.—The compact entered into by the state and other Southern States by and through their respective governors on February 8, 1948, as amended, relative to the development and maintenance of regional education services and schools in the Southern States in the professional, technological, scientific, literary and other fields so as to promote greater educational facilities for the citizens of the several states who reside in said region, a copy of said compact, as amended, being as follows:

THE REGIONAL COMPACT
(as amended)

WHEREAS, The States who are parties hereto have during the past several years conducted careful investigation looking toward the establishment and maintenance of jointly owned and operated regional educational institutions in the Southern States in the professional, technological, scientific, literary, and other fields, so as to provide greater educational advantages and facilities for the citizens of the several states who reside within such region; and

WHEREAS, Meharry Medical College of Nashville, Tennessee, has proposed that its lands, buildings, equipment, and the net income from its endowment be turned over to the Southern States, or to an agency acting in their behalf, to be operated as a regional institution for medical, dental and nursing education upon terms and conditions to be hereafter agreed upon between the Southern States and Meharry Medical College, which proposal, because of the present financial condition of the institution, has been approved by the said states who are parties hereto; and

WHEREAS, the said states desire to enter into a compact with each other providing for the planning and establishment of regional educational facilities;

NOW, THEREFORE, in consideration of the mutual agreements, covenants and obligations assumed by the respective states who are parties hereto (hereinafter referred to as "states"), the said several states do hereby form a geographical district or region consisting of the areas lying within the boundaries of the contracting states which, for the purposes of this compact, shall constitute an area for regional education supported by public funds derived from taxation by the constituent states and derived from other sources for the establishment, acquisition, operation and maintenance of regional educational schools and institutions for the benefit of citizens of the respective states residing within the region so established as may be determined from time to time in accordance with the terms and provisions of this compact.

The states do further hereby establish and create a joint agency which shall be known as the Board of Control for Southern Regional Education (hereinafter referred to as the "board"), the members of which board shall consist of the governor of each state, *ex officio*, and four additional citizens of each state to be appointed by the governor thereof, at least one of whom shall be selected from the field of education, and at least one of whom shall be a member of the legislature of that state. The governor shall continue as a member of the board during his tenure of office as governor of the state, but the members of the board appointed by the governor shall hold office for a period of four years except that in the original appointments one board member so appointed by the governor shall be designated at the time of his appointment to serve an initial term of two years, one board member to serve an initial term of three years, and the remaining board member to serve the full term of four years, but thereafter the successor of each appointed board member shall serve the full term of four years. Vacancies on the board caused by death, resignation, refusal or inability to serve, shall be filled by appointment by the governor for the unexpired portion of the term. The officers of the board shall be a chairman, a vice-chairman, a secretary, a treasurer, and such additional officers as may be created by the board from time to time. The board shall meet annually and officers shall be elected to hold office until the next annual meeting. The board shall have the right to formulate and establish by-laws not inconsistent with the provisions of this compact to govern its own actions in the performance of the duties delegated to it including the right to create and appoint an executive committee and a finance committee with such powers and authority as the board may delegate to them from time to time. The board may, within its discretion, elect as its chairman a person who is not

a member of the board, provided such person resides within a signatory state, and upon such election such person shall become a member of the board with all the rights and privileges of such membership. This paragraph as amended in 1957 shall be effective when eight or more of the states party to the compact have given legislative approval to the amendment.

It shall be the duty of the board to submit plans and recommendations to the states from time to time for their approval and adoption by appropriate legislative action for the development, establishment, acquisition, operation and maintenance of educational schools and institutions within the geographical limits of the regional area of the states, of such character and type and for such educational purposes, professional, technological, scientific, literary, or otherwise, as they may deem and determine to be proper, necessary or advisable. Title to all such educational institutions when so established by appropriate legislative actions of the states and to all properties and facilities used in connection therewith shall be vested in said board as the agency of and for the use and benefit of the said states and the citizens thereof, and all such educational institutions shall be operated, maintained and financed in the manner herein set out, subject to any provisions or limitations which may be contained in the legislative acts of the states authorizing the creation, establishment and operation of such educational institutions.

In addition to the power and authority heretofore granted, the board shall have the power to enter into such agreements or arrangements with any of the states and with educational institutions or agencies, as may be required in the judgment of the board, to provide adequate services and facilities for the graduate, professional, and technical education for the benefit of the citizens of the respective states residing within the region, and such additional and general power and authority as may be vested in the board from time to time by legislative enactment of the said states.

Any two or more states who are parties of this compact shall have the right to enter into supplemental agreements providing for the establishment, financing and operation of regional educational institutions for the benefit of citizens residing within an area which constitutes a portion of the general region herein created, such institutions to be financed exclusively by such states and to be controlled exclusively by the members of the board representing such states provided such agreement is submitted to and approved by the board prior to the establishment of such institutions.

Each state agrees that, when authorized by the legislature, it will from time to time make available and pay over to said board such funds as may be required for the establishment, acquisition, operation and maintenance of such regional educational institutions as may be authorized by the states under the terms of this compact, the contribution of each state at all times to be in the proportion that its population

bears to the total combined population of the states who are parties hereto as shown from time to time by the most recent official published report of the bureau of the census of the United States of America; or upon such other basis as may be agreed upon.

This compact shall not take effect or be binding upon any state unless and until it shall be approved by proper legislative action of as many as six or more of the states whose governors have subscribed hereto within a period of eighteen months from the date hereof. When and if six or more states shall have given legislative approval to this compact within said eighteen months period, it shall be and become binding upon such six or more states sixty days after the date of legislative approval by the sixth state and the governors of such six or more states shall forthwith name the members of the board from their states as hereinabove set out, and the board shall then meet on call of the governor of any state approving this compact, at which time the board shall elect officers, adopt by-laws, appoint committees and otherwise fully organize. Other states whose names are subscribed hereto shall thereafter become parties hereto upon approval of this compact by legislative action within two years from the date hereof, upon such conditions as may be agreed upon at the time. Provided, however, that with respect to any state whose constitution may require amendment in order to permit legislative approval of the compact, such state or states shall become parties hereto upon approval of this compact by legislative action within seven years from the date hereof, upon such conditions as may be agreed upon at the time.

After becoming effective this compact shall thereafter continue without limitation of time; provided, however, that it may be terminated at any time by unanimous action of the states and provided further that any state may withdraw from this compact if such withdrawal is approved by its legislature, such withdrawal to become effective two years after written notice thereof to the board accompanied by a certified copy of the requisite legislative action, but such withdrawal shall not relieve the withdrawing state from its obligations hereunder accruing up to the effective date of such withdrawal. Any state so withdrawing shall ipso facto cease to have any claim to or ownership of any of the property held or vested in the board or to any of the funds of the board held under the terms of this compact.

If any state shall at any time become in default in the performance of any of its obligations assumed herein or with respect to any obligation imposed upon said state as authorized by and in compliance with the terms and provisions of this compact, all rights, privileges and benefits of such defaulting state, its members on the board and its citizens shall ipso facto be and become suspended from and after the date of such default. Unless such default shall be remedied and made good within a period of one year immediately following the date of such default this compact may be

terminated with respect to such defaulting state by an affirmative vote of three-fourths of the members of the board (exclusive of the members representing the state in default), from and after which time such state shall cease to be a party to this compact and shall have no further claim to or ownership of any of the property held by or vested in the board or to any of the funds of the board held under the terms of this compact, but such termination shall in no manner release such defaulting state from any accrued obligation or otherwise affect this compact or the rights, duties, privileges or obligations of the remaining states thereunder.

IN WITNESS WHEREOF this compact has been approved and signed by governors of the several states, subject to the approval of their respective legislatures in the manner hereinabove set out, as of the 8th day of February, 1948.

250.40 Armory board; armories, how obtained.—

(1) The armory board of the state shall consist of the governor, the adjutant general, the state quartermaster, the general officers of the line, regimental commanders, group commander, and senior air commander in the active national guard of the state. This board is charged with the supervision and control of all military buildings and real property within the state applied to military uses.

(2) The term of each member of the armory board shall be the period during which he possesses the qualifications for such membership under the provisions of subsection (1) of this section.

(3) The members of the armory board shall perform the duties imposed upon them by the provisions of this chapter without any special compensation for their services; members of the armory board shall be reimbursed for traveling expenses as provided in §112.061, and be paid from the appropriation for the expenses of the Florida national guard.

(4) It shall be the duty of the armory board to consider and approve the plans for or of all armories and other buildings before such buildings shall be rented, constructed or otherwise acquired for military uses by the state.

(5) Since our national military policy as enunciated in the national defense act recognized the national guard as an important and necessary component of the army of the United States, and as the defense of the country is a joint responsibility of all political divisions and sub-divisions thereof, and since the national guard is a citizen force by reason of its militia status, it is considered equitable that the expense of the maintenance of the national guard be not only shared by the state with the federal government, but that it should properly be shared also by the counties, cities and other sub-divisions of the state. As the federal government is providing liberally for the equipment and training of the national guard and the state for its administration and management, an equitable division of the responsibility of maintenance would leave with the communities in which units of the national guard are established the duty of supplying the necessary personnel and adequate housing for the organization.

(6) In order to provide for the cooperative support of the national guard, and that armories may be provided which will furnish suitable training facilities and adequate storage accommodations for all arms, equipment

and other military property, the armory board shall have authority to receive from counties, municipalities and other sources, donations of land and contributions of money to aid in providing, improving and maintaining an arsenal, armories, camp site, target ranges, and other facilities, throughout the state, and any property so donated, shall be held as other property for the use of the state and such counties and municipalities are hereby authorized and empowered to make such donations of lands by deed or long term leases and contributions of moneys for the purposes herein set forth, and to issue bonds or certificates of indebtedness to provide funds for such purposes; and boards of county commissioners are hereby authorized to levy taxes, not to exceed one mill, to provide funds for the construction of armories or for the retirement of such bonds or certificates of indebtedness issued to provide funds for the construction of armories.

(7) Counties and municipalities are hereby authorized to construct armories upon state owned land which may be made available for such purpose by action of the armory board.

(8) Counties and municipalities are also authorized to grant to the state armory board, for military uses, by deed or long-term leases, property that may have been acquired, or buildings that may have been constructed by them, for use as armories and rifle ranges.

(9) Whenever it may become necessary in the public interest to acquire private property in order to provide necessary land for camp grounds, rifle ranges or armories for the organized militia of the state, and the same cannot be acquired by agreement satisfactory to the armory board and the parties interested in, or the owners of such private property, the armory board is hereby authorized and empowered to exercise the right of eminent domain, and to proceed to condemn such property in the manner provided by law. Any suit or action brought by the armory board to condemn property, as provided for under this section, shall be brought in the name of the armory board, and it shall be the duty of the attorney general of the state to conduct the proceedings for and to act as the counsel of the said board in such matters.

(10) The county commissioners, or municipal authorities, may, in their discretion, appropriate a sufficient sum not otherwise appropriated, to pay the necessary expenses of any unit of the organized militia of the state located in their respective counties or municipalities, to be accounted for to the adjutant general by the organization receiving such appropriation as other military funds.

250.41 Armory defined; control and management of state military properties; annual report of armory board.—

(1) The term "armory," as used in this chapter, shall be understood to mean a building

used primarily for the housing and training of troops, and no building will be used for those purposes, or for storing of arms and other military property, that is not under full control and supervision of the properly constituted military authorities.

(2) The armory board shall also constitute a board for the general management and control of all armories when established, and may adopt and prescribe rules for their government and management. All United States and state military property must be kept therein, and the commanders of troops using the armories will be held responsible for the safe keeping and proper care of such property and its protection against misappropriation or loss. Armories, while occupied and in use by troops, shall be considered military posts, and be under exclusive control and jurisdiction of the officer commanding the post.

(3) The armory board shall also be charged with the supervision and management of any permanent camp site, target range or ranges, which are now or may hereafter become the property of the state; or which, being the property of the United States, may be provided to the state to be used for military purposes; such board may provide for the maintenance and proper equipment of the same from any funds which may be available for that purpose. Any and all moneys accruing to the armory board from the operation and management of properties hereinabove mentioned are hereby appropriated for the maintenance of state properties under control of the armory board.

(4) The armory board shall make a report annually of the proceedings incident to the location and management of armories, respectively, and also as to the management of other property entrusted to its care, and with a detailed account of all disbursements; which report shall be filed in the office of the adjutant general, and shall be printed in the report of his department.

(1) In lieu of paying taxes on lands owned by it in Clay county, the state armory board shall pay to the Clay county development authority on or before August 15 of each year the sum of twenty thousand dollars.

(2) This section shall not be construed as affecting in any way the vesting of said property or any portion thereof in the United States in the event of a national emergency as provided by public law 493, 83d congress or any other provision or condition of said public law.

253.12 Title to tidal lands vested in state.—

(1) Except submerged lands heretofore conveyed by deed or statute, and submerged lands in navigable fresh water lakes, rivers and streams, the title to all sovereignty tidal and submerged bottom lands, including all islands, sandbars, shallow banks and small islands made by the process of dredging of any channel by the United States government and similar or other islands, sandbars and shallow banks located in the navigable waters, which shall include all coastal and intracoastal waters, of the state, is vested in the trustees of the internal improvement trust fund. The trustees of the internal improvement trust fund may sell and convey such islands and submerged lands if not determined by the trustees to be contrary to the public interest upon such prices, terms and conditions as they see fit. After receiving application in compliance with such form as they may require to show clearly what is intended to be accomplished in any proposed development of said lands and after giving notice by publication in a newspaper published in the county in which islands or submerged lands are located not less than once a week for three consecutive weeks and mailing copies of such notice by certified or registered mail to each riparian owner of upland lying within one thousand feet of the island or submerged land proposed to be conveyed addressed to such owner as his name and address appears upon the latest county tax assessment roll, in order that any persons who have objections to the sale may have opportunity to present the same; and if no objections are filed within thirty days after the date of the first publication of the aforesaid notice, the trustees have authority to consummate such sale, provided, however, that failure to mail the notice herein provided to such riparian upland owners within one thousand feet or any of them shall not invalidate such sale nor the title conveyed by the trustees pursuant thereto. If objections are filed, the trustees shall hear and consider the same, and if it appears that the sale of such islands and submerged lands and their ownership by private persons would interfere with the lawful rights granted riparian owners, the conservation of natural resources, or would be a serious impediment to navigation, or for other reasons would be contrary to the public interest, the trustees shall withdraw the said lands

from sale; provided, however, anything in this section to the contrary notwithstanding, lands defined herein lying between the ordinary high water line and any bulkhead line, established hereunder shall be sold only to the upland riparian owner and to no other person, firm or corporation; and such sale to said upland riparian owner shall be made pursuant to the provisions herein.

When any state agency, county, city or other political subdivision extends or adds to existing lands or islands bordering on or being in the navigable waters as defined in this section of the state by filling in or causing to be filled in or by draining or causing to be drained such waters the trustees of the internal improvement trust fund may, upon application therefor, convey to the riparian owner or owners of the upland so extended or added to, without consideration, so much of such extended or added land as is not required exclusively for a municipal, county, state or public purpose. The trustees may, however, require a deposit to accompany such application of a sum sufficient to cover the actual cost and expenses of processing such application and preparing instruments of conveyance.

When any person, state agency, county, city or other political subdivision has heretofore extended or added to existing lands or islands bordering on or being in the navigable waters as defined in this section by filling in or causing to be filled in such lands the trustees of the internal improvement trust fund shall upon application therefor convey said land so filled to the riparian owner or owners of the upland so extended or added to. The consideration for such conveyance shall be the appraised value of said lands as they existed prior to such filling.

(2) All conveyances of sovereignty lands heretofore made by the trustees of the internal improvement trust fund of Florida subsequent to the enactment of chapter 6451, acts of 1913, and chapter 7304, acts of 1917, are hereby ratified, confirmed, and validated in all respects.

253.121 Conveyances of such lands heretofore made, ratified, confirmed and validated.—All conveyances of sovereignty lands heretofore made by the trustees of the internal improvement trust fund subsequent to the enactment of chapter 6451 (June 5, 1913), 6960 (June 2, 1915) and 7304 (May 21, 1917), acts of 1913, 1915 and 1917, respectively, where advertisement therefor was published in the county of sale but not in the county seat, are hereby ratified, confirmed and validated in all respects, including all defects subject to ratification, confirmation and validation by the legislature. Said conveyances shall be deemed valid notwithstanding defects in the publication of newspaper notices and the publication of such newspaper notices in newspapers not published at the county seat of the county in which the lands are located.

History.—§1, ch. 29763, 1955; §2, ch. 61-119.

253.122 Power to fix bulkheads.—

(1) Subject to the formal approval of the trustees of the internal improvement trust fund, the board of county commissioners of each county or governing body of any municipality, after public hearing of which at least thirty days prior notice has been given by publication of such hearing for three consecutive weeks in a newspaper having general circulation in the county, are hereby authorized on their own initiative to locate and fix a bulkhead line or lines offshore from any existing lands or islands bordering on or being in the navigable waters of the county, as defined in §253.12, within all or part of the territorial area of the county as the board of county commissioners in its discretion may determine, provided however that where any bulkhead line has been located and fixed by any municipality pursuant to statutory authority, such bulkhead line shall be accepted and adopted by the county commissioners of the county wherein such municipality is located as its bulkhead line within the territorial area of such municipality subject to the provisions of this chapter. Any bulkhead line when so fixed or ascertained and established shall represent the line beyond which a further extension creating or filling of land or islands outward into the waters of the county shall be deemed an interference with the servitude in favor of commerce and navigation with which the navigable waters of this state are inalienably impressed.

(2) Upon the written application of any riparian owner addressed either to the board of county commissioners or the governing body of any municipality wherein the land lies, the board or governing body is directed to locate and fix a bulkhead line or lines within the area and vicinity of the land owned by such applicant in the event a bulkhead line or lines has not been established by the board pursuant to subsection (1) above.

(3) In the event the board of county commissioners and the governing body of any municipality, for a period of sixty days next and after the receipt of the written application by such upland owner, fails, neglects or refuses to locate and fix a bulkhead line or lines pursuant to subsection (2) above, for the area and in vicinity of the land of any such riparian upland owner, then and in that event such upland and riparian owner of land may file his application for the establishment of a bulkhead line with the trustees of the internal improvement trust fund, who are hereby authorized and directed to proceed to locate and fix a bulkhead line or lines within the area or vicinity of the riparian uplands of such owner and when such bulkhead line or lines shall have been located and fixed by the said trustees of the internal improvement trust fund, the same shall have the force and effect as though such line or lines had been located and fixed by the board of county commissioners or governing body of any municipality, to whom such original application had first been made.

(4) Upon the establishment and approval of any bulkhead line or lines in the manner herein provided for, a drawing showing the location of such bulkhead line or lines shall be promptly filed in the public records of the county where the same may be located and recorded in the book of plats of said county. Upon the establishment of any bulkhead line or lines as herein contemplated, any proposal thereafter made to change said line or lines shall be published once each week for three consecutive weeks in a newspaper of general circulation published in the county where such change in said bulkhead line or lines is proposed, copies of such notice by certified or registered mail shall be sent to each riparian owner of upland lying within one thousand feet of the island or submerged land proposed to be conveyed addressed to such owner as his name and address appears upon the latest county tax assessment roll, and the publication of such proposal shall, for all purposes, be deemed to be a public notice of a hearing before the authority initially establishing said bulkhead line or lines and the publication of such proposal shall include therein the time, date and place for such hearing. Any change in such bulkhead line or lines when made and approved shall be evidenced as provided by this chapter.

(5) Any person, natural or artificial (including riparian owners), aggrieved by any decision of the board of county commissioners or governing body of any municipality or trustees of internal improvement trust fund establishing a bulkhead line may, within the time provided by the Florida appellate rules, have the decision reviewed by the appropriate circuit court by filing therewith a petition for issuance of a writ of certiorari and it shall be the duty of such board or the trustees, as the case may be, to cause to be prepared and certified, at the cost of appellant, a transcript of all proceedings including the evidence introduced at such hearing, and the court shall hear and determine the cause on the record without indulging any presumption in favor of the decision of such board or the trustees. In event the decision is not sustained the court shall tax the cost of preparing the transcript against the agency making the decision. The right of review hereunder is not exclusive, and any person asserting any rights adversely affected may institute and prosecute any proceeding authorized by law (including without limitation extraordinary remedies and writs) or in equity. However, any appellant shall not be required to pay more than two hundred dollars for or toward the cost of a transcript that may be desired if an appeal is taken as in this section provided for.

pumping sand, rock or earth from such waters or by any other means without first complying with §253.122 provided nothing herein contained shall relate to artificially created navigable waters. This section shall not apply to lands the owners of which have heretofore purchased or are purchasing under contract from the trustees of internal improvement trust fund and who, on June 11, 1957, have permits issued by the United States corps of engineers, and approved by the trustees of internal improvement trust fund to fill said lands.

In each instance the written application herein provided for shall be accompanied by a plan or drawing showing the proposed construction and shall also show the area from which any fill material is to be dredged if the proposed construction is intended to be created from dredged material. In the event such application be found by the board of county commissioners or other authorized body not to be violative of any statute, zoning law, ordinance, or other restriction which may be applicable thereto, or that no harmful obstruction to or alteration of the natural flow of the navigable water as defined in §253.12, within such area will arise from the proposed construction, or that no harmful or increased erosion, shoaling of channels or stagnant areas of water will be created thereby, or that no material injury or monetary damage to adjoining land will accrue therefrom, the same shall be granted to the applicant, subject to the formal approval of the trustees of the internal improvement trust fund. No construction permit shall be issued unless the proposed work is to be completed within two years next after the date of issuance of such permit. Such time may be extended for good cause, upon showing that all due efforts and diligence toward completion of said work have been made. The construction permit hereby provided for may be revoked for a noncompliance with or for a violation of its terms after notice of intention so to do has been furnished to the holder thereof by the board of county commissioners or other authorized body and an opportunity for a hearing afforded the holder. In the event a permit

is refused the applicant therefor may have the order refusing the permit reviewed upon filing a petition for the issuance of a writ of certiorari with the appropriate circuit court in the manner and within the time prescribed by the Florida appellate rules.

license may contain provisions to the effect that such structures and facilities shall be so constructed as not to obstruct the channel of the stream or river or unreasonably interfere with navigation, commerce or fishing thereon.

(2) For the purposes of this section, the term "riparian owners" shall include the owners of uplands bounded by either the high or low water mark of any stream or river and shall include lessees and licensees of any such owners or grantees in easements from such owners of such uplands or river bottoms. Each item of property which it is practicable to identify by marking shall be marked in the manner required by the state auditor. Each custodian shall maintain an adequate record of property in his custody, which record shall contain such information as shall be required by the state auditor. Once each year, on July 1 or as soon thereafter as shall be practicable, and whenever there is a change of custodians, each custodian shall take an inventory of property in his custody. If whenever acquiring property, the custodian may best serve the interests of the state by outright sale of property rather than by exchange as a trade-in, he may make the sale in the manner prescribed in this act for the disposal of surplus property, and the receipts from the sale are hereby appropriated and may be applied to the cost of the property acquired, except that the value of the property sold shall not exceed the approximate

History.—§4, ch. 57-277.

273.05 Surplus property.—The custodian shall have discretion to classify as surplus any property in his custody that is obsolete or the continued use of which is uneconomical or inefficient, or which serves no useful function as to any activity or location under his supervision. History.—§6, ch. 57-277.

273.07 Other disposal of surplus property.—Having consideration for the best interests of the state, property which its custodian has certified as surplus and which is not otherwise lawfully disposed of may be disposed of for value to any person, or the property may be disposed of for value without bids to any custodian or political subdivision as defined in §1.01(10), or if the property is without commercial value it may be donated, destroyed, or abandoned. Prior approval of the state budget commission shall be required for the disposal of property the estimated value of which is five thousand dollars or more. Property the value of which is estimated to be between one hundred dollars and two hundred dollars shall be sold only to the highest responsible bidder after a request for at least three bids, or by public auction. Any sale of property the value of which is estimated to be two hundred dollars or more shall be sold only to the highest responsible bidder, or by public auction, after publication of notice not less than one week nor more than three weeks prior to sale in a newspaper having a general circulation in the county where the property is to be sold, and in additional newspapers if the custodian thinks the best interests of the state will better be served by the additional notices.

274.02 Record and inventory of certain property.—The word "property" as used in this section means fixtures and other tangible personal property of a nonconsumable nature the value of which is twenty-five dollars or more, and the normal expected life of which is one year or more. Each item of property which it is practicable to identify by marking shall be marked in the manner required by the state auditor. Each governmental unit shall maintain an adequate record of its property, which record shall contain such information as shall be required by the state auditor. Each governmental unit shall take an inventory of its property in the custody of a custodian whenever there is a change in such custodian. A complete physical inventory of all property shall be taken annually, and the date inventoried shall be entered on the property record. If whenever acquiring property, the governmental unit may best serve the interests of the county or district by outright sale of the property to be replaced, rather than by exchange as a trade-in, it may make the sale in a manner otherwise prescribed in this act for the disposal of property. The receipts from the sale may be treated as a current refund if the property to be acquired shall be contracted for within the same fiscal year of the governmental unit in which the property sold is disposed of.

History.—§4, ch. 59-163.

274.05 Surplus property.—A governmental unit shall have discretion to classify as surplus any of its property, which property is not otherwise lawfully disposed of, that is obsolete or the continued use of which is uneconomical or inefficient, or which serves no useful function. Within the reasonable exercise of its discretion and having consideration for the best interests of the county or district, the value and condition of property classified as surplus, and the probability of such property's being desired by the prospective bidder to whom offered, the governmental unit first shall offer surplus property to other governmental units in the county or district; and, second, if no acceptable bid is received within a reasonable time, shall offer such property to such other governmental units as shall be determined by the governmental unit on the basis of the foregoing criteria. Such offer shall disclose the value and condition of the property. The best bid shall be accepted by the governmental unit offering such surplus property. The cost of transferring the property shall be paid by the governmental unit that made the successful bid.

History.—§5, ch. 59-163.

274.06 Alternative procedure.—Having consideration for the best interests of the county or district, a governmental unit's property that is obsolete or the continued use of which is uneconomical or inefficient, or which serves no useful function, which property is not other-

The determination of property to be disposed of by a governmental unit pursuant to this section instead of pursuant to other provisions of law shall be at the election of such governmental unit in the reasonable exercise of its discretion. Property, the value of which the governmental unit estimates to be between one hundred dollars and two hundred dollars, shall be sold only to the highest responsible bidder after a request for at least three bids, or by public auction. Any sale of property the value of which the governmental unit estimates to be two hundred dollars or more shall be sold only to the highest responsible bidder, or by public auction, after publication of notice not less than one week nor more than two weeks prior to sale in a newspaper having a general circulation in the county or district in which is located the official office of the governmental unit, and in additional newspapers if in the judgment of the governmental unit the best interests of the county or district will better be served by the additional notices; provided that nothing herein contained shall be construed to require the sheriff of a county to advertise the sale of miscellaneous contraband of an estimated value of less than two hundred dollars.

284.11 Premium rate after reduction of hazard.—The state treasurer shall, after the installation of such equipment, apparatus, facilities and improvements, continue to charge and collect premiums with respect to such buildings at a rate based upon the condition of said buildings without such equipment, apparatus, facilities and improvements. (1) When such coverage is placed in the state fire insurance trust fund, the premium for such coverage shall be paid by such board or agency out of funds available for such purposes within the provisions of the resolution authorizing issuance of said bonds or certificates.

(2) If any such resolution shall permit, said board or agency shall request that additional coverage required for any such building with respect to the mentioned risks be procured through the state fire insurance trust fund, and in such event the state treasurer shall place such additional coverage with any fire insurer possessed of a certificate of authority to engage in business in this state; and such board or agency shall pay to the state treasurer the premiums required for such additional coverage out of funds available for such purpose as provided in any such resolution, and the state treasurer is authorized to pay any such premiums so received by him to the proper insurer.

In no case shall any such bonds, notes or certificates mature later than thirty years

from date of issue, or bear interest at a rate greater than six per cent per annum, or be sold at such price that the net interest cost to the commission shall exceed six per cent to the respective maturities thereof. Provided, however, that the commission shall not borrow money for the purposes specified herein and issue and sell its bonds, notes or certificates except after public competitive bidding and sale thereof to the highest bidder; and after approval by the state board of administration as to legal and fiscal sufficiency.

(b) The bonds, notes or certificates authorized under this chapter shall be issued by resolution approved by at least six of the members of the commission; they shall be executed and signed by its chairman or vice-chairman and attested by its secretary or assistant-secretary, or such other officer as may be designated by resolution of the commission, under the seal of said commission and such execution and attestation may be with an engraved, imprinted, lithographed, or otherwise reproduced facsimile signature of such chairman or vice-chairman and secretary, or assistant-secretary, or such other officer as may be designated by resolution of the commission; provided, however, that at least one signature required to be placed thereon shall be manually subscribed. The provisions of this law shall constitute an irrevocable contract between the commission and the holders of any bonds, notes or certificates issued pursuant to the provisions hereof. Under no circumstances shall any bonds, notes or certificates issued under this chapter or any other indebtedness created by the commission be construed as an obligation of the state, nor shall the state under any theory be bound therefor. They shall be solely and only the obligations of the commission in its corporate and representative capacity and shall be secured only by such revenues as shall be pledged as security for the payment thereof.

(12) It is the intention of this statute that maturities shall be adjusted to the anticipated

revenue so that the same may be promptly paid when they mature. In the event said commission should be unable to pay any obligation at its maturity it is hereby authorized to issue refunding bonds, notes or certificates with extended maturities which will enable it to pay them from future revenues or such refunding bonds, notes or certificates may be issued to refinance outstanding bonds, notes or certificates which are to be surrendered pursuant to redemption provisions or with consent of the holder or holders thereof. The rentals, tolls or charges for any project acquired and financed hereunder through the issuance of bonds, notes or certificates which are payable from the revenues of such project shall be fixed charges and collected so that such revenues will be sufficient to pay cost not otherwise provided for operating and maintaining said project and paying the interest on and principal of such bonds, notes or certificates as the same become due, and if in any year the net revenue from any project be in excess of the amount provided to be set apart in such year to pay such principal and interest, such excess shall serve as a basis for the future reduction in such rentals, tolls or charges and may be used for the purchase or retirement of the bonds, notes or certificates issued for account of said project, the cost of improvements and extensions to such project or if and to the extent specified in the proceedings for the issuance of said bonds, notes or certificates such balance, if any, may be applied unpledged to pay the currently due amounts or maturities and interest of any other project for the same institution, board or agency. Provided, however, that if there be no additional project for the same institution, board or agency such surplus shall be applied towards calling any or all outstanding bonds, notes or certificates if they be callable, or if not callable, shall be applied towards the purchase of said bonds at the best price obtainable. The net income of said commission from each project shall be held separate and shall not be used for the payment of principal or interest of bonds, notes or certificates issued against any other project except as provided in this section.

(13) It is expressly provided (a) that nothing in this chapter shall be construed as vesting in said commission the power, right or privilege to engage in private enterprise or business for profit; and (b) that nothing in this chapter shall authorize the purchase, condemnation or other acquisition by the commission of the properties or securities of privately owned utilities or any part of same.

(14) The commission is hereby authorized and directed to proceed with the acquisition of land and buildings thereon now needed or to be needed for use in whole or in part by any agency, board, bureau or commission of the state, such acquisition to be within the area defined by the board of commissioners of state institutions for the long range development of the proposed capitol center; and (a) to con-

Pending the payment of the principal of and interest on any such outstanding bonds, notes or certificates which mature after the date of issuance of such new bonds, notes or certificates, a sufficient amount of the proceeds of such new bonds, notes or certificates shall be held irrevocably in trust and used only for the payment of the principal and interest of, and redemption premiums, if any, on said outstanding bonds, notes or certificates at or prior to the maturity or first call date thereof. In the event an offer of an issue of Florida development commission bonds, notes or certificates at public sale produces no bid, or in the event all bids received contain excessive interest rates or other terms which, in the judgment of the commission, jeopardize the successful financing of the project and are therefore rejected, the commission is authorized to negotiate for the sale of such bonds, notes or certificates under such rates and terms as are acceptable, or to transfer or dispose of them in payment of any indebtedness, work, material, service or other expense incurred in acquiring, constructing and supplying the project, facility or facilities for which the bonds, notes or certificates were authorized; provided, however, that no such bonds, notes or certificates shall be so sold or delivered on terms less favorable to the commission than the terms contained in any bids rejected at the public sale thereof, or the terms contained in the notice of public sale if no bids were received at such public sale.

(1) **POLICY AND PURPOSE.**—The party states recognize that the proper employment of nuclear energy, facilities, materials and products can assist substantially in the industrialization of the south and the development of a balanced economy for the region. They also recognize that optimum benefit from an acquisition of nuclear resources and facilities requires systematic encouragement, guidance and assistance from the party states on a cooperative basis. It is the policy of the party states to undertake such cooperation on a continuing basis; it is the purpose of this compact to provide the instruments and framework for such a cooperative effort to improve the economy of the south and contribute to the individual and community well-being of the people of this region.

(2) **BOARD.**—

(a) There is hereby created an agency of the party states to be known as the southern interstate nuclear board (hereinafter called the board). The board shall be composed of one member from each party state designated or appointed in accordance with the law of the state which he represents and serving and subject to removal in accordance with such law. Any member of the board may provide for the discharge of his duties and the performance of

his functions thereon (either for the duration of his membership or for any less period of time) by a deputy or assistant, if the laws of his state make specific provision therefor. The federal government may be represented without vote if provision is made by federal law for such representation.

(b) The board members of the party state shall each be entitled to one vote on the board. No action of the board shall be binding unless taken at a meeting at which a majority of all members representing the party states are present and unless a majority of the total number of votes are cast in favor thereof.

(c) The board shall have a seal.

(d) The board shall elect annually, from among its members, a chairman, a vice chairman, and a treasurer. The board shall appoint an executive director who shall serve at its pleasure and who shall also act as secretary, and who, together with the treasurer, shall be bonded in such amounts as the board may require.

(f) The board may establish and maintain, independently or in conjunction with any one or more of the party states, a suitable retirement system for its full-time employees. Employees of the board shall be eligible for social security coverage in respect of old age and survivors' insurance, provided that the board takes such steps as may be necessary pursuant to federal law to participate in such program of insurance as a governmental agency or unit. The board may establish and maintain or participate in such additional programs of employee benefits as may be appropriate.

(g) The board may borrow, accept or contract for the services of personnel from any state or the United States or any subdivision or agency thereof, from any interstate agency, or from any institution, person, firm or corporation.

(h) The board may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services (conditional or otherwise) from any state or the United States or from any institution, person, firm or corporation, and may receive, utilize and dispose of the same.

The board may issue such additional reports as it may deem desirable.

(3) FINANCES.—

(a) The board shall submit to the executive head or designated officer or officers of each state a budget of its estimated expenditures for such period as may be required by the laws of that jurisdiction for presentation to the legislature thereof.

(b) Each of the board's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. One half of the total amount of each budget of estimated expenditures shall be apportioned among the party states in equal shares; one quarter of each such budget shall be apportioned among the party states in accordance with the ratio of their populations to the total population of the entire group of party states based on the latest official decennial census; and one quarter of each such budget shall be apportioned among the party states on the basis of the relative average per capita income of the inhabitants in each of the party states based on the latest computations published by the federal census-taking agency. Subject to appropriation by their respective legislatures, the board shall be provided with such funds by each of the party states as are necessary to provide the means of establishing and maintaining facilities, a staff of personnel, and such activities as may be necessary to fulfill the powers and duties imposed upon and entrusted to the board.

(c) The board may meet any of its obligations in whole or in part with funds available to it under subsection (2)(h), provided that the board takes specific action setting aside such funds prior to the incurring of any obligation to be met in whole or in part in this manner. Except where the board makes use of funds available to it under subsection (2)(h), the board shall not incur any obligation prior to the allotment of funds by the party jurisdiction adequate to meet the same.

(d) Any expenses and any other costs for each member of the board in attending board meetings shall be met by the board.

cf.—ch. 295, Veterans in general.

293.02 Definitions.—As used in this chapter:

"Person" includes a partnership, corporation or an association.

"Bureau" means the United States veterans' bureau or its successor.

"Estate" and "income" shall include only moneys received by the guardian from the bureau and all earnings, interest and profits derived therefrom.

"Benefits" shall mean all moneys payable by the United States through the bureau.

"Director" means the director of the United States veterans' bureau or his successor.

"Ward" means a beneficiary of the bureau.

"Guardian" as used herein shall mean any person acting as a fiduciary for a ward.

History.—§1, ch. 14579, 1929; CGL 1936 Supp. 2146(2).

293.03 Appointment of guardian for ward authorized.—Whenever, pursuant to any law of the United States or regulation of the bureau, the director requires, prior to payment of benefits, that a guardian be appointed for a ward, such appointment shall be made in the manner hereinafter provided.

History.—§2, ch. 14579, 1929; CGL 1936 Supp. 2146(3).

293.04 Number wards for whom one guardian may act.—Except as hereinafter provided, it is unlawful for any person to accept appointment as guardian of any ward if such proposed guardian shall at that time be acting as guardian for five wards. In any case, upon presentation of a petition by an attorney of the bureau, under this section, alleging that a guard-

ian is acting in a fiduciary capacity for more than five wards and requesting his discharge for that reason, the court, upon proof substantiating the petition, shall require a final accounting forthwith from such guardian and shall discharge such guardian in said case.

The limitations of this section shall not apply where the guardian is a bank or trust company acting for the wards' estates only. An individual may be guardian of more than five wards if they are all members of the same family.

History.—§3, ch. 14579, 1929; CGL 1936 Supp. 2146(4).

293.05 Petition for appointment of guardian.—A petition for the appointment of a guardian may be filed in any court of competent jurisdiction by or on behalf of any person who under existing law is entitled to priority of appointment. If there be no person so entitled, or if the person so entitled shall neglect or refuse, to file such a petition within thirty days after mailing of notice by the bureau to the last known address of such person, indicating the necessity for the same, a petition for such appointment may be filed in any court of competent jurisdiction by or on behalf of any responsible person residing in this state.

The petition for appointment shall set forth the name, age, place of residence of the ward, the names and places of residence of the nearest relative, if known, and the fact that such ward is entitled to receive moneys payable by or through the bureau and shall set forth the amount of moneys then due and the amount of probable future payments.

The petition shall also set forth the name and address of the person or institution, if any, having actual custody of the ward.

In the case of a mentally incompetent ward, the petition shall show that such ward has been rated incompetent on examination by the

bureau, in accordance with the laws and regulations governing the bureau.

History.—§4, ch. 14579, 1929; CGL 1936 Supp. 2146(5).
cf.—§294.02 Appointment of guardians.
§744.06 Jurisdiction.

293.06 Appointment of guardian of minor ward; certificate setting forth age and necessity.—Where a petition is filed for the appointment of a guardian of a minor ward, a certificate of the director, or his representative, setting forth the age of such minor, as shown by the records of the bureau, and the fact that the appointment of a guardian is a condition precedent to the payment of any moneys due the minor by the bureau, shall be prima facie evidence of the necessity for such appointment.

History.—§5, ch. 14579, 1929; CGL 1936 Supp. 2146(6)

293.07 Appointment of guardian of mentally incompetent ward; certificate setting forth incompetence rating and necessity for appointment.—Where a petition is filed for the appointment of a guardian of a mentally incompetent ward, a certificate of the director, or his representative, setting forth the fact that such person has been rated incompetent by the bureau, on examination in accordance with the laws and regulations governing such bureau; and that the appointment of a guardian is a condition precedent to the payment of any moneys due such person by the bureau, shall be prima facie evidence of the necessity for such appointment.

History.—§6, ch. 14579, 1929; CGL 1936 Supp. 2146(7).

293.08 Notice by court of petition filed for appointment of guardian.—Upon the filing of a petition for the appointment of a guardian, under the provisions of this chapter, the court shall cause such notice to be given as provided by law.

History.—§7, ch. 14579, 1929; CGL 1936 Supp. 2146(8).

293.09 Guardian's bond.—Before making an appointment under the provisions of this chapter, the court shall be satisfied that the guardian whose appointment is sought is a fit and proper person to be appointed. Upon the appointment being made, the guardian shall execute and file a bond to be approved by the court in an amount not less than the sum due and estimated to become payable during the ensuing year. The said bond shall be in the form and be conditioned as required of guardians appointed under the guardianship laws of this state. The court shall have power, from time to time, to require the guardian to file an additional bond.

Where a bond is tendered by a guardian with personal sureties, such sureties shall file with the court a certificate under oath that shall describe the property owned, both real and personal, and that they are each worth the sum named in the bond as the penalty thereof, over and above all their debts and liabilities and exclusive of property exempt from execution.

History.—§8, ch. 14579, 1929; CGL 1936 Supp. 2146(9).

293.10 Guardian required annually to file with court full and accurate accounts; certi-

fied copy of accounts to bureau; hearing on accounts and notice thereof.—Every guardian, who shall receive on account of his ward any moneys from the bureau, shall file with the court, annually, on the anniversary date of the appointment, in addition to such other accounts as may be required by the court, a full, true, and accurate account under oath of all moneys so received by him, of all disbursements thereof, and showing the balance thereof in his hands at the date of such account and how invested. A certified copy of each of such accounts filed with the court shall be sent by the guardian to the office of the bureau having jurisdiction over the area in which such court is located. The court shall fix a time and place for the hearing on such account not less than fifteen days nor more than thirty days from the date of filing same and notice thereof shall be given by the court to the aforesaid bureau office not less than fifteen days prior to the date fixed for the hearing. Notice of such hearing shall in like manner be given to the guardian.

History.—§9, ch. 14579, 1929; CGL 1936 Supp. 2146(10).
cf.—§294.08, 294.09, Procedure at hearing.

293.11 Failure of guardian to file accounts is grounds for removal.—If any guardian shall fail to file any account of the moneys received by him from the bureau on account of his ward within thirty days after such account is required by either the court or the bureau, or shall fail to furnish the bureau a copy of his accounts as required by this chapter, such failure shall be grounds for removal.

History.—§10, ch. 14579, 1929; CGL 1936 Supp. 2146(11).

293.12 Guardian's compensation; bond premiums.—Compensation payable to guardian shall not exceed five per cent of the income of the ward during any year. In the event of extraordinary services rendered by such guardian, the court may, upon petition and after hearing thereon, authorize additional compensation therefor, payable from the estate of the ward. Notice of such petition and hearing shall be given the proper office of the bureau in the manner provided in §293.10. No compensation shall be allowed on the corpus of an estate received from a preceding guardian. The guardian may be allowed from the estate of his ward reasonable premiums paid by him to any corporate surety upon his bond.

History.—§11, ch. 1479, 1929; CGL 1936 Supp. 2146(12).

293.14 Guardian's application of estate funds for support and maintenance of person other than ward.—A guardian shall not apply any portion of the estate of his ward for the support and maintenance of any person other than his ward, except upon order of the court

after a hearing, notice of which has been given the proper office of the bureau in the manner provided in §293.10.

History.—§13, ch. 14579, 1929; CGL 1936 Supp. 2146(14).

293.15 Certified copies of public records made available.—Wherever a copy of any public record is required by the bureau to be used in determining the eligibility of any person to participate in benefits made available by such bureau, the official charged with the custody of such public record shall, without charge, provide the applicant for such benefits, or any person acting on his behalf, or the representative of such bureau, with a certified copy of such record. For each and every certified copy so furnished by the official the said official shall be paid by the board of county commissioners the fee provided by law for copies.

293.16 Procedure for commitment of veteran to United States veterans' bureau hospital; powers and custody; notice required.—

(1) Whenever, in any proceeding under the laws of this state for the commitment of a person alleged to be of unsound mind or otherwise in need of confinement in a hospital or other institution for his proper care, it is determined after such adjudication of the status of such person as may be required by law that commitment to a hospital for mental disease or other institution is necessary for safekeeping or treatment and it appears that such person is eligible for care or treatment by the veterans' administration or other agency of the United States government, the court, upon receipt of a certificate from the veterans' administration or such other agency showing that facilities are available and that such person is eligible for care or treatment therein, may commit such person to said veterans' administration or other agency. The person whose commitment is sought shall be personally served with notice of the pending commitment proceeding in the manner as provided by the law of this state; and nothing in this act shall affect his right to appear and be heard in the proceedings. Upon commitment, such person, when admitted to any facility operated by any such agency within or without this state shall be subject to the rules and regulations of the veterans' administration or other agency. The chief officer of any facility of the veterans' administration or institution operated by any other agency of the United States to which the person is so committed shall with respect to such person be vested with the same powers as superintendents of state hospitals for mental diseases within this state with respect to retention of custody, transfer, parole or discharge. Jurisdiction is retained in the committing or other appropriate court of this state at any time to inquire into the mental condition of the person so committed, and to determine the necessity for continuance of his restraint, and all commitments pursuant to this act are so conditioned.

(2) The judgment or order of commitment

by a court of competent jurisdiction of another state or of the District of Columbia, committing a person to the veterans' administration, or other agency of the United States government for care or treatment shall have the same force and effect as to the committed person while in this state as in the jurisdiction in which is situated the court entering the judgment or making the order; and the courts of the committing state, or of the District of Columbia, shall be deemed to have retained jurisdiction of the person so committed for the purpose of inquiring into the mental condition of such person, and of determining the necessity for continuance of his restraint, as is provided in subsection (1) of this section with respect to persons committed by the courts of this state. Consent is hereby given to the application of the law of the committing state or district in respect to the authority of the chief officer of any facility of the veterans' administration, or of any institution operated in this state by any other agency of the United States to retain custody, or transfer, parole or discharge the committed person.

(3) Upon receipt of a certificate of the veterans' administration or such other agency of the United States that facilities are available for the care or treatment of any person heretofore committed to any hospital for the insane or other institution for the care or treatment of persons similarly afflicted and that such person is eligible for care or treatment, the superintendent of the institution may cause the transfer of such person to the veterans' administration or other agency of the United States for care or treatment. Upon effecting any such transfer, the committing court or proper officer thereof shall be notified thereof by the transferring agency. No person shall be transferred to the veterans' administration or other agency of the United States if he be confined pursuant to conviction of any felony or misdemeanor or if he has been acquitted of the charge solely on the ground of insanity, unless prior to transfer the court or other authority originally committing such person shall enter an order for such transfer after appropriate motion and hearing.

(4) Any person transferred as provided in this section shall be deemed to be committed to the veterans' administration or other agency of the United States pursuant to the original commitment.

History.—§16, ch. 14579, 1929; CGL 1936 Supp. 2146(17).

293.18 Construction and application of chapter.—This chapter shall be construed liberally to secure the beneficial intents and purposes thereof and shall apply only to beneficiaries of the bureau. It shall be so interpreted and construed as to effectuate its general purpose to make uniform the law of those states which enact it.

History.—§§17, 19, ch. 14579, 1929; CGL 1936 Supp. 2146 (18).

293.19 Court costs in small estates.—Guardians who are holding funds received from, or who are currently in receipt of funds from, the veterans' administration for the ward, and where the amount so received during the accounting year does not exceed the sum of five hundred dollars, and where the funds on hand at the end of the accounting year do not exceed the sum of five hundred dollars, the court costs in such cases for docketing, indexing, filing, auditing, recording, and passing by order or oth-

erwise of annual reports shall not exceed the sum of two dollars.

History.—§2, ch. 21795, 1943.

Failure on the part of the guardian to conform to the requirements of this section shall be grounds for discharge of the guardian, in which case the guardian shall forfeit all commissions.

294.07 Notice of appointment of general guardian filed; veterans' guardianship closed; responsibilities and penalties transferred to general guardian.—When the appointment of a general guardian is made in the proper court and such guardian has qualified and taken charge of the other property of the ward, such general guardian shall file notice of such appointment in the court where the guardianship under chapter 293 is pending and have this guardianship settled up and closed so that the general guardian may take charge of the money referred to and described in chapters 293 and 294. When the appointment of a general guardian for such person, whether incompetent or minor children, or other beneficiaries entitled to the benefits of the "World War veterans' act of 1924" as amended, and the "War risk insurance act" as amended, has

Proper evidence shall be required in support of vouchers or items of the account that may appear to the court not to be just and proper, such evidence to be taken by affidavit or by any other legal mode. If any voucher be rejected, the item or items covered by said disapproval of any voucher or vouchers shall be taxed against the guardian personally. After such examination, the court shall render a decree upon said account which shall be entered on record and the account and vouchers shall be filed. Such partial settlement shall be taken and presumed as correct on final settlement of guardianship.

Such authority shall not be granted unless the guardian shall have given previous notice,

published once a week for four successive weeks in a newspaper published in the county where the application is made, of his intention to make application to such judge for authority to sell the same, setting forth in said notice the time and place and to what judge said application will be made. If the lands lie in more than one county, application shall be made in each county. Failure on the part of the guardian to comply with the provisions of this section shall make him and his bondsmen individually responsible for any loss that may accrue to the estate of the ward involved, and shall be ground for the immediate removal of such guardian as to his functions, but not discharge him as to his liability or discharge the liabilities of his sureties.

Such objections, if any there be, shall be heard by the court in a summary manner, without unnecessary delay, on a day to be named by the court or judge thereof, upon application of the petitioners or any of those signing the said petition. Upon the hearing, which may be adjourned, from time to time, for good cause shown, of the said objections, if any have been filed, if the court shall be of the opinion that the establishment of the said drainage district and the improvements to be made thereunder will be for the advantage of the owners of the real property therein or that the same would be in the interest of the public health, convenience or welfare, he shall overrule said objections; and, in case all such objections are overruled, or in case no such objections have been filed, the court thereupon shall, by its order duly entered of record, declare and decree said drainage district a public corporation of this state, for a term not exceeding the time mentioned in said petition; provided, that no drainage district shall be established or consolidated under any provisions of this chapter until there shall have been first obtained the written approval or consent of the owner or owners of a majority in acreage of the lands within said district. If the court finds that the lands set out in said petition should not be incorporated into a drainage district, it shall dismiss said proceedings and adjudge the costs against the said petitioners in proportion to the acreage represented by each. Any person having signed the petition shall have no right to have such proceedings dismissed as to him without the written consent of the other owners of a majority in acreage who signed said petition. The petition may be amended as any other pleading. Immediately after the said district has been declared a corporation by the court, the clerk thereof shall transmit to the secretary of state a certified copy of the findings and decree of the court incorporating said district, and the same shall be filed in the office of the secretary of state. A copy of said finding and decree, together with a plat of the district, shall also be filed in the office of the clerk of the circuit court in each of the counties having land in said district, where the same shall become a permanent record, and

each such clerk shall receive a fee of one dollar for filing and preserving the same.

If the judge of such court is disqualified or is charged by any person interested in the formation of said district with being disqualified, for any of the reasons stated in the statutes, said judge shall call in a judge from some other judicial circuit of this state to sit and hear the proceedings and render his decree and judgment, the same as the regular judge could have. Such judge shall retain jurisdiction in such reclamation proceedings only until the disqualification of the regular judge of the circuit court shall have been removed. Said judge so called shall receive for his services mileage and compensation as now provided by law under similar conditions.

298.06 Dissolution of district in certain cases.—If, after determining the objections made to the commissioners' report, the court shall find that the estimated costs of works and improvements as reported by the board of commissioners, or as amended by the court, exceed the estimated benefits, the court shall then render its decree, declaring the incorporation of the district to be dissolved as soon as all costs incurred, which shall include court costs and all obligations and expenses incurred in behalf of the district by the board of supervisors, shall have been paid, and if the uniform tax levied under the provisions of §298.29 be found insufficient to pay all such costs the board of supervisors shall make such additional uniform tax levies as will be necessary to pay such deficiency; provided, that in estimating the cost of constructing the works and im-

If such petition asks the court's permission to change "the plan of reclamation," or that the boundary lines of such district be in any manner changed, it shall also ask the court to appoint three commissioners, as provided for under the provisions of §298.30, to appraise the land that shall be taken for right of ways, holding basins, or other work, or assess the benefits and damages to any or all lands, public highways, railroad and other property already in the district, or that may be annexed to the district by the proposed amendments, and changes to "the plan of reclamation" or the proposed change in the boundary lines of said district. As soon as said petition shall have been filed, the clerk of the court shall give notice in the manner and for the time provided for in §298.02, said notice to be substantially in the following form:

The clerk of said court shall, within ten days after the granting of such decree, transmit a certified copy of the petition to the secretary of the board of supervisors and also shall transmit a copy of the same to each of the clerks of the circuit courts of the counties having land in the district and to the secretary of state. Each such clerk shall file and preserve the same in his office, and for such filing and preserving he shall receive a fee of one dollar. If said decree of the court provides that "the plan of reclamation," may be amended, changed or corrected or the boundary lines of the district extended, the court shall appoint three commissioners, possessing the same qualifications as the commissioners appointed under the provisions of §298.30, to appraise property to be taken, assess benefits and damages and estimate the cost of improvements, the same as is required of commissioners acting under the provisions of §298.32. When said petition has been filed, the clerk of said circuit court shall give notice of such filing in the manner provided for giving notice in §298.02, said notice to state substantially the contents of said petition and the objects sought and the term of court at which said matter is to be heard. Any person owning land in either of said districts, on or before the first day of said court, may file objections to the regularity or sufficiency of any of the proceedings had in the premises, and if such objections are overruled, or if no objections are made, the court shall make an order that any two or more of the several districts so asking to be united shall be united and consolidated as one district, under some appropriate designation, with all the rights, powers and privileges of such districts organized under this chapter; the lands so included in the new district shall be subject to all lien, liabilities and obligations of the original districts, and a new board of supervisors shall be elected, as is now provided in case of election of supervisors; all orders made in regard to extension of time, boundaries or uniting districts shall be spread on the records of the circuit court, and a certified copy thereof shall be filed with the clerk of the circuit court of each county in which any of such lands is located, and also with the secretary of state, and said clerk shall receive a fee of one dollar for filing and preserving such certificates.

Such meeting shall be conducted in the same manner as is provided in §298.11 for the election of supervisors, except that one member of the board of supervisors shall act as chairman of such meeting and the secretary of the board, or his deputy, shall act as clerk; and, if a majority of the acreage represented at

Said board of supervisors also may develop, hold and control all water power created by the construction of works of said district, and may construct and maintain hydro-electric power plants for the purpose of developing such power for the use of said district, use any funds in the treasury of said district not otherwise appropriated for the construction and maintenance of such power plants; and the said board of supervisors may lease any surplus power in excess of that required for the uses of said district, and the proceeds of such leases shall be paid into the treasury of said district. Said board also may condemn or acquire, by purchase or grant, for the use of the district, any land or property within or without said district not acquired or condemned by the court on the report of the commissioners assessing benefits and damages, and shall follow the procedure set out in chapter 73.

History.—§26, ch. 6458, 1913; §1, ch. 7897, 1919; RGS 1123; CGL 1476; §1, ch. 14714, 1931.

298.23 Supervisors given power to take land for right of ways, etc.; payment, etc.—The board of supervisors of drainage districts organized under this chapter shall not have the right to enter upon, or appropriate, any land for right of ways, holding basins or other works of the districts, until the prices awarded to the owners of such land shall have been paid to such owners, or into the hands of the clerks of the circuit courts organizing such districts for the use of such owners; and if the sums awarded be not so paid within five years from the date of filing the commissioner's reports, all proceedings as to the taking of such property for right of ways, holding basins and other works, not so paid for, shall abate at the cost of said district. Whenever any land is acquired by any district under the provisions of this chapter and the price of such property has been paid the owner by the district, the title, use, possession and enjoyment of such property shall pass from the owner and be vested in the district, and subject to its use, profit, employment and final disposition. The price awarded for all lands acquired by any district for right of ways, holding basins, or other works, and the amount of damage assessed by the board of commissioners and confirmed by the court to any tract or parcel of land or other property in the district, shall be paid in cash to the owner thereof or to the clerk of the court for the use of such owner, and that portion of any tract or parcel of land not taken for use of the district shall be assessed for the benefits accruing in accordance with the provisions in this chapter.

History.—§29, ch. 6458, 1913; RGS 1126; CGL 1479.

298.24 Bridges to be built in compliance with plans approved by engineer, etc.; requiring construction of bridges; constructing ditches across highways, etc.—All bridges contemplated by this chapter and all enlargements

of bridges already in existence shall be built and enlarged according to and in compliance with the plans, specifications and orders made or approved by the chief engineer of the district. If any such bridge shall belong to any corporation, or be needed over a public highway or right of way of any corporation, the secretary of said board of supervisors shall give such corporation notice by delivering to its agent or officer, in any county wherein said district is situate, a copy of the order of the board of supervisors of said district declaring the necessity for the construction or enlargement of said bridge. A failure to construct or enlarge such bridge, within the time specified in such order, shall be taken as a refusal to do said work by said corporation, and thereupon the said board of supervisors shall proceed to let the work of constructing or enlarging the same at the expense of the corporation for the cost thereof, which costs shall be collected by said board of supervisors from said corporation, by suit therefor, if necessary. But before said board of supervisors shall let such work, it shall give some agent or officer of said corporation, authorized by the laws of this state to accept service of summons, or upon whom service of summons for said corporation might be made, at least twenty days' actual notice of the time and place of letting such work. Any owner of land, within or without the district, may, at his own expense, and in compliance with the terms and provisions of this chapter, construct a bridge across any drain, ditch, canal or excavation in or out of said district. All drainage districts shall have full authority to construct and maintain any ditch or lateral provided in its "plan of reclamation," across any of the public highways of this state, without proceedings for the condemnation of the same, or being liable for damages therefor. Within ten days after a dredge boat or any other excavating machine shall have completed a ditch across any public highway, a bridge shall be constructed and maintained over such drainage ditch where the same crosses such highway; provided, however, the word corporation as used in this section shall not apply to counties.

History.—§30, ch. 6458, 1913; RGS 1127; CGL 1480.

298.25 Type of bridges over drains in large counties.—Whenever any drainage district cuts or digs a drain, canal or ditch across any public highway, in counties having a population of not less than one hundred thirty thousand, according to the last preceding state census, the style, type and character of such bridge shall be determined by the engineer of the county and the chief engineer of the drainage district, and approved by a majority of the board of county commissioners as soon as the plan of reclamation, locating such canals, drains or ditches, is filed in the office of the clerk of the circuit court of the county or counties in which the lands within the drainage district are located; and the cost of the same, as estimated by the chief engineer of the drainage district, shall be included by the commissioners of the drain-

age districts in the assessment for the construction of the plan of reclamation.

History.—§§1, 2, ch. 11344, 1925; CGL 1481, 1482.

298.26 Chief engineer to make annual reports to supervisors; approval of reports "plan of reclamation."—The chief engineer shall make a report in writing to the board of supervisors once every twelve months, and oftener if said board shall so require. Upon receipt of the final report of said engineer, concerning the surveys made of the lands contained in the district organized and the lands adjacent thereto and for reclaiming the same, the board of supervisors shall adopt such report, or any modification thereof, approved by the chief engineer, after consulting with him or some one representing him; and thereafter such adopted report shall be the plan for draining or reclaiming such lands from overflow or damage by water, and it shall, after such adoption be known and designated as "the plan of reclamation," which plan shall be filed with the secretary of the board of supervisors and by him copied into the records of the district.

History.—§9, ch. 6458, 1913; RGS 1106; CGL 1459.

298.27 When plan insufficient, supervisors have power to make new plans; additional levy; may issue bonds; procedure.—Where the works set out in "the plan of reclamation" of any drainage district is found insufficient to reclaim, in whole or in part, any or all of the lands of the district, the board of supervisors shall have the right to formulate new or amended plans, containing new canals, ditches, levees or other works, and additional assessments may be made in conformity with the provisions of §298.32, the same to be made in proportion to the increased benefits accruing to the lands because of the additional works. If it should be found at any time that the amount of total tax levied under the provisions of §298.36, or that the funds derived from the sale of bonds under the provisions of §§298.47-298.50, are insufficient to pay the cost of works set out in "the plan of reclamation," the board of supervisors may make an additional levy to provide funds to complete the work and, in addition thereto, ten per cent of said total amount for emergencies; and, if in their judgment it seems best, may issue bonds not to exceed the amount of said additional levy. If it should be found, at any time, that the plan of reclamation as adopted requires modification by widening, lowering or deepening the canals or ditches, or widening or raising the levees, or enlarging or improving the other works authorized by the plan of reclamation, or the construction of additional canals, ditches or levees, and that the amount of the total tax levied under the provisions of §298.36, or that the funds derived from the sale of bonds under the provisions of §§298.47-298.50, are not sufficient to carry out the plan of reclamation with such modification, the board of supervisors may file its petition in the office of the clerk of the court organizing said district, praying the court's permission to change

the plan of reclamation and asking the court to appoint three commissioners, as provided for under the provisions of §298.30, to appraise the land that shall be taken for such enlarged or improved works and assess the benefits and damages to any or all lands, public highways, railroads or other property in the district by the proposed amendments and changes to the plan of reclamation. Notice of the filing of such petition shall be given, and a hearing shall be held, and commissioners shall be appointed in the same manner as provided in §298.07, possessing the same qualifications as commissioners appointed under the provisions of §298.30; who shall appraise the property to be taken, assess benefits and damages and estimate the cost of improvement; and who shall proceed in the manner provided in §298.32; provided, however, that said commissioners may, in a proper case, confirm any previous assessment made under the provisions of this chapter. Said commissioners shall make report in writing, and file the same with the circuit court clerk, after which the same shall be proceeded with in the same manner as is now provided for in the case of an original incorporation and assessment.

After the lists of lands with the assessed benefits and the decree and judgment of court have been filed in the office of the clerk of the circuit court, as provided in §298.34, then the board shall have power to levy an additional tax of such portion of said benefits on all lands in the district to which benefits have been assessed, as may be found necessary by the board of supervisors to pay the increased cost of the completion of the proposed works and improvements, as shown in said "plan of reclamation," as amended, including the cost of superintending the same, and all incidental expenses in connection therewith; and, in addition thereto, ten per cent of said total amount for emergencies; and, if in their judgment it seems best, may issue bonds not to exceed the amount of said additional levy. The additional taxes authorized to be levied under the provisions of this section shall be levied and collected in the same manner as taxes levied under the provisions of §298.36. Bonds issued under the provisions of this section shall draw interest at a rate not to exceed six per cent per annum, payable semiannually, and shall be made payable at such time and at such place as the board of supervisors may determine. Any additional tax authorized to be levied under the provisions of this section shall be apportioned to, and levied upon, each tract of land in said district in proportion to the benefits assessed and not in excess thereof, and in case bonds are issued as herein provided, then the amount of the interest (as estimated by said board of supervisors), which will accrue on such bonds, shall be included and added to the said additional levy; but the interest to accrue on said bonds shall not be included as part of the cost of construction, in determining whether or not the expenses and costs of making the improvements shown in

the plan of reclamation are equal to, or in excess of the benefits assessed.

History.—§46, ch. 6458, 1913; §1, ch. 7309, 1917; RGS 1143; CGL 1500.

298.28 Water courses to be connected with drainage of district; connecting drains after completion of plan of drainage.—At the time of the construction, in any district incorporated under this chapter, of "the plan of reclamation", all canals, ditches or systems of drainage already constructed in said district and all water courses shall, if necessary to the drainage of any lands in said district, be connected with and made a part of the works and improvements of the plan of drainage of said district, but no canals, ditches, drains, or systems of drainage constructed in said district, after the completion of the aforesaid plan of drainage of said district, shall be connected therewith, unless the consent of the board of supervisors shall be first had and obtained; which consent shall be in writing and shall particularly describe the method, terms and conditions of such connection, and shall be approved by the chief engineer. Said connection, if made, shall be in strict accord with the method, terms and conditions laid down in said consent. If the land owners wishing to make such connection are refused by the board of supervisors, or decline to accept the consent granted, the said land owners may file a petition for such connection in the circuit court having jurisdiction in said district, and the matter in dispute shall in a summary manner be decided by said court, which decision shall be final and binding on the district and land owners. No connection with the works or improvements of said plan of drainage of said district, or with any canal, ditch, drain or artificial drainage, wholly within said district, shall be made, caused or affected by any land owners, company or corporation, municipal or private, by means of, or with, any ditch, drain, cut, fill, roadbed, levee, embankment or artificial drainage, wholly without the limits of said district, unless such connection is consented to by the board of supervisors, or in the manner provided for in this chapter.

History.—§48, ch. 6458, 1913; RGS 1145; CGL 1502.

298.29 Levy of taxes; collection of taxes; supervisors may borrow money and issue negotiable papers.—The board of supervisors of any drainage district organized under the provisions of this chapter shall, as soon as they have organized, as provided under §298.14, levy a uniform tax, of not exceeding fifty cents per acre, upon each acre of land within such drainage district, as defined in the petition and decree incorporating said district; to be used for the purpose of paying expenses incurred, or to be incurred, in organizing said district, making surveys of the same and assessing benefits and damages, and to pay other expenses necessarily incurred, as may be estimated by said board and chief engineer; before said board may, by provisions of this chapter, provide funds to pay the total costs of works and improvements of the dis-

tract. In case the boundary lines of the district be extended, under the provisions of this chapter, so as to include lands not described and contained in the petition, the same uniform assessment shall be made on such other lands as soon as same shall have been annexed and included in the district. Such shall be due and payable as soon as assessed and become delinquent ninety days thereafter. It shall become a lien upon the land against which it is assessed from the date of assessment, and shall be collected in the same manner as the annual installment of tax. In case the sum received for such assessment exceed the total cost of items for which the same has been levied the surplus shall be placed in the general fund of the district and used to pay cost of construction; provided, that if the corporation of the district be dissolved, as provided in this chapter, the amount of surplus, if there be any, shall be prorated and refunded to the landowners paying such assessment; provided, that if it shall appear as necessary to obtain funds to pay any expense incurred or to be incurred, in organizing said district before a sufficient sum can be obtained by the collection of said uniform tax, the board of supervisors may borrow a sufficient amount of money to meet emergencies at a rate of interest not exceeding eight per cent per annum, and may issue negotiable notes or bonds therefor, signed by the members of the board, and may pledge any and all assessments made under the provisions of this section for the repayment thereof; provided, however, that §6 of Article IX of the constitution of Florida shall be complied with as to all bonds within its purview. Said board of supervisors may issue, to any person performing work or service, or furnishing anything of value in the organization of said district, negotiable evidence of debts, bearing interest at not exceeding six per cent. In the event any installment of taxes has been levied for the payment of any obligation of any district, or in the event of the levy of a maintenance tax, the board of supervisors may issue notes bearing a rate of interest not exceeding eight per cent per annum, which notes shall be payable out of said installment of taxes or maintenance tax so levied, and shall not be in excess of seventy-five per cent of said levy or liens; the proceeds derived from such notes shall be used only for the purpose of meeting such maturing obligations of said district, or for any other purpose for which said installment and maintenance taxes have been levied.

History.—§10, ch. 6458, 1913; RGS 1107; §1, ch. 9129, 1923; CGL 1460.

298.30 Appraisal of lands for right of ways, etc.—Within twenty days after the adoption of "the plan of reclamation," the secretary of the board of supervisors shall prepare and transmit a certified copy thereof to the clerk of the circuit court organizing said drainage district; and at the same time, a board of supervisors shall file with said clerk a petition asking the judge of said court to appoint

three commissioners to appraise the lands within and without said district to be acquired for rights-of-way, holding basins and other drainage works of the district, and to assess benefits and damages accruing to all lands in the district by reason of the execution of "the plan of reclamation." Immediately after the filing of such petition, the judge of said court shall, by an order, appoint three commissioners, who shall be freeholders residing within the state, and who shall not be landowners in said district, nor of kin within the fourth degree of consanguinity to any person owning land in said district. A majority of said commissioners shall constitute a quorum and shall control the action of the board on all questions.

History.—§11, ch. 6458, 1913; RGS 1108; CGL 1461; §22, ch. 29737, 1955.

298.31 Clerk to notify commissioners of appointment; meeting of commissioners; duties of clerk; organization of commissioners.—The clerk of the circuit court, upon the filing of said order of appointment, shall notify each of said commissioners of his appointment by written or printed notice, and in the same he shall state the time and place for the first meeting of said commissioners; the secretary of the board of supervisors, or his deputy, shall attend such meeting, and shall furnish to said commissioners a complete list of lands, described in the petition or adjacent thereto, that will be affected by carrying out and putting into effect "the plan of reclamation," and the names of the owners of such lands, as shown in the petition and the decree of the court incorporating the district. Said secretary shall also furnish to said commissioners a copy of "the plan of reclamation," with maps and profiles in his office. The commissioners at said meeting, or within ten days thereafter, shall each take and subscribe to an oath that they will faithfully and impartially discharge their duties as such commissioners and make a true report of the work done by them. The said commissioners shall, also, at said meeting, elect one of their own number chairman, and the secretary of the board of supervisors, or his deputy, shall be ex officio secretary of said board of commissioners during their continuance in office.

History.—§12, ch. 6458, 1913; RGS 1109; CGL 1462.

298.32 Proceedings of commissioners; duties of district attorney and chief engineer; assessment; change of plan; property assessable; compensation; assessment of lands outside district.—Immediately after qualifying, as provided in §298.31, the commissioners shall begin their duties; they may, at any time, call upon the attorney of the district for legal advice and information relative to their duties, and the chief engineer or one of his assistants shall accompany said commissioners when engaged in the discharge of their duties and shall render his opinion in writing when called for. Said commissioners shall proceed to view the premises and determine the value of all lands, within or without the district, to be acquired

and used for right of way, holding basins or other works set out in "the plan of reclamation;" they shall assess the amount of benefits, and the amount of damages also, if any, that will accrue to each governmental lot, forty-acre tract, or other subdivision of land (according to ownership), public highways, railroads and other right of ways, not traversed by such works and improvements, from carrying out and putting into effect "the plan of reclamation" theretofore adopted. The commissioners, in assessing the benefits to lands, public highways, railroad and other right of ways, not traversed by such works and improvements, as provided for in "the plan of reclamation," shall not consider what benefits will be derived by such property after other ditches, improvements or other plans for reclamation shall have been constructed, but they shall assess only such benefits as will be derived from the construction of the works and improvements set out in "the plan of reclamation", or as the same may afford an outlet for drainage or protection from overflow of such property. The commissioners shall give due consideration and credit to any other canal, drain, ditch, dike, levee, or other systems of reclamation which may have already been constructed and which affords partial or complete protection to any tract or parcel of land in the new district. The public highways, railroads and other right of ways, shall be assessed according to the increased physical efficiency and decreased maintenance cost of roadways, by reason of the protection to be derived from the proposed works and improvements. The commissioners shall have no power to change "the plan of reclamation" provided for in this chapter. The board of commissioners shall prepare a report of their findings, which shall be arranged in tabular form, the columns of which shall be headed as follows: column one, "owner of property assessed"; column two, "description of property assessed"; column three, "number of acres assessed"; column four, "amount of benefits assessed"; column five, "amount of damages assessed"; column six, "number of acres to be taken for right of ways, holding basins, etc."; column seven, "value of property to be taken." They shall also, by and with the advice of the engineer of the district, estimate the cost of the works set out in "the plan of reclamation," which estimate shall include the cost of property required for right of ways, holding basins and other works and damages, and the probable expense of organization and administration, as estimated by the board of supervisors, and shall tabulate the same. Said report shall be signed by at least a majority of the commissioners and filed in the office of the clerk of the circuit court organizing such drainage district. The secretary of the board of supervisors, or his deputy, shall accompany said commissioners while engaged in their duties, and shall perform all clerical work for said board; he shall also, under the advice, supervision and direction of the attorney for the district, pre-

pare their report. Said board of commissioners shall report to the board of supervisors the number of days each has been employed and the actual expenses incurred. Each commissioner shall be paid five dollars per day for his services, and reimbursed for traveling expenses as provided in §112.061. In case the report of said commissioners shall contain assessments of benefits and damages to lands not included in the original petition as signed and filed, the board of supervisors shall file in the office of said clerk a petition praying that the court grant permission for the extension of the boundary lines of said district, so as to embrace all lands that will be benefited, as shown by the report of said commissioners, after such petition has been filed, the same shall be proceeded with in accordance with the provisions of this chapter, governing the extension of boundary lines of districts.

History.—§13, ch. 6458, 1913; RGS 1110; CGL 1463; §19, ch. 63-400.

298.33 Form of notice of filing of commissioners' report; publication of notice.—Upon the filing of the report of the commissioners, the clerk of said circuit court shall give notice thereof, by causing publication to be made once a week for two consecutive weeks in some newspaper published in each county in the district, the last publication to be made at least ten days before a return date of said circuit court, to be named in such notice, on which exceptions may be filed. It shall not be necessary for the clerk to name the parties interested, but it shall be sufficient to say:

"Notice of filing Commissioners' Report for _____ Drainage District

Notice is hereby given to all persons interested in the following described land and property in _____ county (or counties), in the State of Florida, viz.: (Here describe land and property) included within "_____ Drainage District" that the commissioners heretofore appointed to assess benefits and damages to the property and lands situate in said drainage district and to appraise the cash value of the land necessary to be taken for right of ways, holding basins and other works of said district, within or without the limits of said district, filed their report in this office on the _____ day of _____, 19____, and you and each of you are hereby notified that you may examine said report and file exception to all, or any part thereof, on or before the first Monday in _____, 19____.

First publication _____, 19____.

Clerk of the Circuit Court,
_____ County, Florida."

Provided, that where lands in different counties are contained in said report, the said notice shall be published in some newspaper in each county in which such lands so affected are situate, and it shall not be necessary to publish a list of all said lands in each county, but only that part of same situated in the respective counties.

History.—§14, ch. 6458, 1913; RGS 1111; CGL 1464; §2, ch. 29737, 1955.

298.34 Filing exceptions to report; hearing; determination by court, etc.—The board of drainage commissioners, the drainage district, or any owner of land or other property to be affected by said report, may file exception to any part, or all, of the report of said commissioners within the time specified in §298.33. All exceptions shall be heard and determined by the court in a summary manner so as to carry out liberally the purposes and needs of the district. If no exceptions are filed, or if it is shown, upon the hearing of all of said exceptions, that the estimated cost of construction of improvements contemplated in the plan for reclamation is less than the benefits assessed against the lands in said district, the court shall approve and confirm said commissioners' report; but, if the court, upon hearing the objections filed, finds that any or all such objections should be sustained, it shall order the report changed to conform with such findings, and when so changed the court shall approve and confirm such report and enter its decree accordingly. The court shall adjudge and apportion the costs incurred by the exceptions filed, and shall condemn any land or other property, within or without the boundary lines of the district, that is shown by the report of the commissioners to be needed for rights of way, holding basins or other works, or that may be needed for material to be used in constructing said works, following the procedure provided in chapters 73 and 74; provided however, that any property owner may accept the assessment of damages in his favor made by the commissioners, or acquiesce in their failure to assess damages in his favor, and shall be construed to have done so, unless he gives the supervisors of the district, on or before the time shall have expired for filing exceptions, as provided in this chapter, notice in writing that he demands an assessment of his damages by a jury; in which event the supervisors of the district shall institute in the circuit court of the proper county an action to condemn the lands and other property that must be taken or damaged in the making of such improvements, with the right and privilege of paying into court a sum to be fixed by the circuit court or judge, and proceeding with the work, before the assessment by the jury; provided, any person or party interested may prosecute an appeal to the appropriate district court of appeal in the manner and within the time provided by the Florida appellate rules. If it shall be ascertained and determined that any tract or lot of land, or parts thereof upon which the uniform tax authorized and levied as provided in §298.29, has been paid, will not be benefited by or received any benefit from, the completion of the plan for improvement, then the uniform tax so paid upon such tract, lot or part thereof, shall be refunded and paid to the person paying same.

The clerk of said circuit court shall transmit a certified copy of the court decree and copy of the commissioners' report, as confirmed or amended by the court, to the secretary of

the board of supervisors of the district; and the clerk of said circuit court shall also transmit a certified copy of the said decree and that part of the said report affecting land in each county to the clerk of the circuit court of each county having lands in the district, or affected by the said report, where the same shall be filed and become a permanent record, and each such clerk shall receive a fee of one dollar for receiving, filing and preserving same.

History.—§15, ch. 6458, 1913; RGS 1112; CGL 1465; §22, ch. 63-559.

298.35 Powers of supervisors to carry out "the plan of reclamation"; engineer to be superintendent of works.—The board of supervisors of the drainage district shall have full power and authority to build, construct, excavate and complete any and all works and improvements which may be needed to carry out, maintain, and protect "the plan of reclamation." To accomplish that end the said board of supervisors may employ men and teams and purchase machinery, employ men to operate same, and directly have charge of and construct the works and improvements in such manner, or by use of other or more efficient means than provided for in the plans adopted. They may, at their discretion, let the contract for such works and improvements, either as a whole or in sections, and when such contracts are let they shall be advertised and let to the lowest and best bidder, who shall give a good and approved bond, with ample security, conditioned that he will well and promptly carry out the contract for such work and improvements; which contract shall be in writing and to which shall be attached and made a part thereof, complete plans and specifications of the work to be done and improvements to be made under such contract, which plans and specifications shall be prepared by the chief engineer and shall be incorporated in, and attached to, the contract; such contract shall be prepared by the attorney for the district and approved by the board of supervisors and signed by its president and the contractor, and executed in duplicate. The chief engineer shall be the superintendent of all the works and improvements, and shall, at least once each year and when required, make a full report to said board of all work done and improvements made, and make suggestions and recommendations to the board as he may deem proper.

History.—§16, ch. 6458, 1913; RGS 1113; CGL 1466.

298.36 Assessing land for reclamation; apportionment of tax; lands belonging to state assessed; drainage tax record.—After the lists of lands, with the assessed benefits and the decree and judgment of court, have been filed in the office of the clerk of the circuit court as provided in §298.34, then the board of supervisors shall, without any unnecessary delay, levy a tax of such portion of said benefits, on all lands in the district to which benefits have been assessed, as may be found necessary by the board of supervisors to pay the costs of the completion of the proposed works and im-

provements, as shown in said "plan of reclamation" and in carrying out the objects of said district; and, in addition thereto, ten per cent of said total amount for emergencies. The said tax shall be apportioned to, and levied on, each tract of land in said district in proportion to the benefits assessed, and not in excess thereof; and in case bonds are issued, as provided in this chapter, a tax shall be levied in a sum not less than an amount, ninety per cent of which shall be equal to the principal of said bonds. The amount of bonds to be issued for paying the cost of the works as set forth in the plan of reclamation shall be ascertained and determined by the board of supervisors; provided, however, that the total amount of all bonds to be issued by the district shall in no case exceed ninety per cent of the benefits assessed upon the lands of the district. The amount of the interest (as estimated by said board of supervisors), which will accrue on such bonds, shall be included and added to the said tax, but the interest to accrue on account of the issuing of said bonds shall not be construed as a part of the costs of construction in determining whether or not the expenses and costs of making said improvements are equal to, or in excess of, the benefits assessed. The benefits, and all lands in said district belonging to the state, shall be assessed to, and the taxes thereon shall be paid by, the state out of funds on hand, or which may hereafter be obtained, derived from the sale of lands belonging to the state; this provision shall apply to all taxes in any drainage district including maintenance and ad valorem taxes, either levied under this or any other law, and to taxes assessed for preliminary work and expenses, as provided in §298.29, as well as to the taxes provided for in this section. The secretary of the board of supervisors, as soon as said total tax is levied, shall, at the expense of the district, prepare a list of all taxes levied, in the form of a well bound book, which book shall be endorsed and named "DRAINAGE TAX RECORD OF _____ DRAINAGE DISTRICT COUNTY, FLORIDA," which endorsement shall be printed or written at the top of each page in said book, and shall be signed and certified by the president and secretary of the board of supervisors, attested by the seal of the district, and the same shall thereafter become a permanent record in the office of said secretary.

298.37 Board to levy amount of annual installments; certificate to collectors.—The board of supervisors shall, each year thereafter, determine, order and levy the amount of the annual installments of the total taxes levied under §298.36, which shall become due and be collected during said year at the same time that state and county taxes are due and collected, which said annual installment and levy

shall be evidenced and certified by the said board, not later than November 1st of each year, to the collector of each county in which lands and other property of said district are situated. The certificate of such installment tax shall be substantially in the following form:

298.38 Collectors to collect drainage tax; bond of tax collector to supervisors.—The collector of each county in which lands of any drainage district, organized under this chapter, are situated, shall receive the "drainage tax book" each year and he shall promptly and faithfully collect the tax therein set out and exercise all due diligence in so doing. He is further directed and ordered to demand and collect such taxes at the same time that he demands and collects state and county taxes due on the same lands. Where any tract or part thereof has been divided and sold or transferred, the collector shall receive taxes on any part of any tract, piece or parcel of land, charged with such taxes and give his receipt accordingly. The above and foregoing "drainage tax book" shall be the warrant and authority of the collector for making such demand and collection. The said collector shall make due return of all "drainage tax books", immediately after the first Monday in April of each year, to the secretary of the board of supervisors of the aforesaid drainage district, and shall pay over and account for all moneys collected thereon, each year, to the treasurer of said district at the same time when he pays over state and county taxes. Said collector shall, in said "drainage tax book", verify by affidavit his return. The secretary shall, each year, within ten days after the return of said collector is delivered to him, prepare and certify to said collector a "drainage back tax book" containing the list of lands so returned by the collector as delinquent; deliver the same to him and take his receipt therefor; and said collector shall proceed to collect such delinquent drainage taxes and demand payment therefor in the manner as provided for the collection of current drainage taxes. Before receiving the aforesaid "drainage tax book" the collector of each county in which lands of the drainage district are located, shall execute, to the board of supervisors of the district, a bond with at least two good and sufficient sureties, or some surety or bonding company approved by said board, in a sum that is double the probable amount of any annual installment of said tax to be collected by him during any one year, conditioned that said collector shall pay over and account for all taxes so collected by him

according to law. Said bond, after approval by the board of supervisors, shall be deposited with the secretary of the board of supervisors, who shall be custodian thereof and who shall produce same for inspection and use as evidence whenever and wherever lawfully requested so to do.

298.39 When unpaid taxes delinquent; penalty.—All taxes, provided for in this chapter, remaining unpaid, after the first Monday in April of the year for which said taxes were levied, shall become delinquent and bear a penalty of two per cent per month on the amount of said taxes from date of delinquency until paid. In computing said penalty each fractional part of a month shall be counted as a full month.

History.—§20, ch. 6458, 1913; RGS 1117; CGL 1470.

298.40 Penalty for failure of collector to promptly remit taxes collected; compensation of collector.—If any county collector refuses, fails or neglects to make prompt payment of the tax, or any part thereof, collected under this chapter to the treasurer of the district, then he shall pay a penalty of ten per cent on the amount of his delinquency; such penalty shall at once become due and payable and both he and his securities shall be liable therefor on his bond. The collector shall retain for his services one per cent on the amount he collects on current taxes and two per cent of the amount he collects on delinquent taxes.

The tax collectors of each county containing lands within the district shall be paid an amount equal to one per centum of the total of taxes of the district by each collected, and one per cent upon delinquent taxes when collected. The above payments shall apply to the taxes assessed and collected for the year 1948 and subsequent years.

(2) The services of the tax assessors and tax collectors in assessing and collecting such drainage district taxes are hereby declared to be special services performed directly for these districts and any payment therefor shall not be considered a part of the general income of the official's office, nor come under the provisions of §§116.03 and 145.10. The personnel required to do said special work shall be paid for such special services from the receipts provided in subsection (1), above.

(3) All commissions or fees paid by such

drainage districts prior to January 1, 1948, and included in the reports of income and expenses by the assessors and collectors for 1947 and prior years shall be considered closed accounts and not subject to any adjustments or refunds to such districts. All payments for services received by the assessors and collectors from such districts subsequent to January 1, 1948, for current or prior tax rolls shall be considered to have been paid under the provisions of subsection (2), above. None of such payments shall be credited against services to be performed in the future.

(4) The provisions of this section shall not apply, repeal or affect any local law or general law of local application heretofore passed, fixing and establishing the compensation of county tax assessors or tax collectors.

History.—§§1-4, ch. 25196, 1949.

Such lien for drainage taxes shall be evidenced by certificate substantially in the following form, to-wit:

The said book shall be prepared by the secretary of the board of supervisors at the expense of the drainage district, shall be designated as the "drainage tax record," and each recorder shall receive a fee of one dollar for filing and preserving said book.

History.—§22, ch. 6458, 1913; RGS 1119; §1, ch. 9129, 1923; §2, ch. 12040, 1927; CGL 1472.

298.42 Owners of land assessed for construction of canals, etc., may pay taxes in advance.—Any person owning lands assessed for the construction of any canal, ditch or other improvement, under the provisions of this chapter, shall have the right and privilege of paying such tax assessment, notice of which right and privilege shall be given by publication in a newspaper of general circulation in the county or counties where the lands are situated for not less than two weeks prior to the time fixed, to the treasurer of the board of supervisors of the district, at any time on or before a date to be fixed by resolution of the board of supervisors; and the amount to be paid shall be the full amount of the tax levied, less any amount added thereto to meet interest. When such tax assessment has been paid, the secretary of the board of supervisors shall enter upon the drainage tax record, oppo-

298.43 Drainage district bonds and obligations may be accepted in payment of drainage taxes, etc.—The governing board or commission, of each drainage or sub-drainage district in this state, shall have the right to provide by resolution that bonds or other obligations of such drainage or sub-drainage district, including matured interest coupons, shall be receivable at par in the redemption of lands, within such drainage or sub-drainage district, from tax sale certificates which are held by, or in trust for, the governing board or commission of such drainage or sub-drainage district, and in the purchase of lands, the title to which has vested in such drainage or sub-drainage district, or the governing board thereof, by virtue of tax sales.

When, in pursuance of a resolution of the governing board or commission of any drainage or sub-drainage district, bonds or other obligations, including matured interest coupons, of such drainage or sub-drainage district, shall be used for the purpose of redeeming any lands from the effect of tax sales, as herein provided, the fees and costs allowed and fixed by law in connection with such redemption shall be paid in cash.

History.—§§1, 2, ch. 14712, 1931; CGL 1936 Supp. 1474(1), 1474(2).

298.44 Payment of drainage taxes with bonds and matured interest coupons.—

(1) Bonds, matured interest coupons, or other obligations of any drainage or sub-drainage district within this state, shall be received at par and in lieu of money in the payment of all taxes and assessments, or installments of taxes or assessments, levied or assessed by any such drainage or sub-drainage district, except that so much, or any part, of any such tax or assessment as is applicable under the law primarily or solely to maintenance of the works and improvements of the drainage or sub-drainage district, or to the administration of its affairs, shall be payable solely in cash.

(2) If any tax collector, receiver or other officer charged with the duty of collecting drainage district or sub-drainage district taxes, shall not be able, from the records of his office, to determine what amount or proportion of any tax or assessment, or installment of a total tax, is applicable primarily or solely to the maintenance of the works and improvements of the district or sub-district, or to the administration of its affairs, such tax collector, receiver or other officer, shall accept the certificate of the secretary or other authorized officer of such district or sub-district as to

that fact; and shall, also, accept the certificate of the secretary or other authorized officer of such district or sub-district to the effect that so much of any such tax or assessment, or installment of a total tax, as is shown by such certificate not to be applicable primarily or solely to the maintenance of the works and improvements of the district or sub-district, or to the administration of its affairs, has been paid by the delivery to such secretary, or other authorized officer, of bonds or matured interest coupons, or other obligations of such district or sub-district, as provided by this section; and upon the payment to such tax collector, receiver or other officer, of the remaining amount of such tax or assessment, or installment of total tax, he shall issue tax receipt in full. Such tax collector, receiver or other officer shall be entitled to compensation as if the amount paid had been in cash.

History.—§§1-3, ch. 14713, 1931; §§1, 2, ch. 16256, 1933; CGL 1936 Supp. 1474(3)-1474(5), 1474(9), 1474(10).

298.45 Drainage tax book evidence of matters contained; suits to enforce liens; sales of land; notice of suit; form; proceeds of sale.—

(1) The "drainage tax book" of the district, as returned by the collector to the secretary of the board of supervisors of the drainage district shall be prima facie evidence in all courts of all matters therein contained. The liens established and declared in this chapter may, and shall be enforced by an action on delinquent tax bills, made and certified by the tax collector, which action shall be instituted in the circuit court without regard to the amount of the claim forthwith when any tax becomes delinquent. The board shall, within twelve months after April 1st of each year, institute a suit in chancery in the corporate name of the district against the land or lands upon which such drainage tax has not been paid, in the county in which the property is situated; except, when the tract or property sued upon be in more than one county, in which event the suit may be brought on the whole tract, in any county in which any portion thereof may be situated. The pleadings, process, proceedings, practice and sales, in cases arising under this chapter shall, except as herein provided, be the same as in an action for the enforcement of mortgages upon real estate. Service of process upon all non-residents shall be made in like manner as provided by the laws of Florida relative to the publication of process against non-resident and unknown defendants. All sales of lands made under this section shall be by a master appointed by the court.

(2) In case said district shall fail to commence suit within ninety days after the taxes have become delinquent, the holder of any bond or bonds, or note or notes, issued by the district shall have the right to bring suit for the collections of the delinquent taxes, in which event said district shall be included as a defendant; and the proceedings in such suit brought by any noteholder or bondholder shall, in all respects, be governed by the provisions ap-

plicable to suits by the said district. In the event such proceedings are brought by any noteholder or bondholder and lands are bought in the name of the district, the board of supervisors shall pay in cash into the court all costs and the attorney's fees allowed by the court before any certificate shall be issued to said district. Any judgment or decree that may be rendered in any such suit shall be enforceable only against such lands. All suits for the enforcement of the lien on lands for such delinquent taxes, whether by the district or a noteholder or bondholder, shall be in chancery, and said proceedings and any judgment or decree that may be rendered therein, shall be in the nature of proceedings in rem, and it shall not be material that the ownership of said lands be correctly alleged in said proceeding and the judgment or decree rendered shall be enforced wholly against such lands.

(3) All, or any part, of said delinquent lands situated in one county may be included in one suit for said county, instituted for the collection of said delinquent taxes; and notice of the pendency of such suit shall be filed and recorded as in other suits of foreclosure of liens in this state.

(4) The title acquired through any sale of lands under the aforesaid proceedings shall be subject to the lien of all subsequent annual installments of drainage tax and of interest on unpaid installments upon the same. In all suits for the collection of delinquent taxes, the judgment for said delinquent taxes and penalty shall also include all costs of suit and a reasonable attorney's fee to be fixed by the court, recoverable the same as the delinquent tax in the same suit, and shall bear interest at the rate of ten per cent per annum, until redemption of the same. The proceeds of sale made under and by virtue of this chapter shall be paid at once to the aforesaid treasurer and shall be accounted for by him the same as the drainage taxes; any surplus that may remain after payment of said delinquent taxes, penalties, costs and attorney fees, shall be paid over to, or held subject to, the order of the defendants, or as may be ordered in the judgment or decree of sale.

History.—§23, ch. 6458, 1913; RGS 1120; §1, ch. 8561, 1921; §1, ch. 9129, 1923; CGL 1473.

298.46 Trial of suits; order of sale; time for redemption; evidence and pleadings; bidding in land for district; provisos, etc.—

(1) All suits instituted under §298.45 shall stand for trial as other equitable actions, unless a continuance be granted for good cause shown within the discretion of the court; and such continuance, for good cause shown, may be granted as to a part of said lands or defendants, without affecting the duty of the court to dispose finally of the others as to whom no continuance may be granted; and in all cases where no answer has been filed on or before the time for filing same, or if answer is filed and the cause shall be decided for plaintiff, the court by its decree shall grant the relief prayed for; and it shall direct the

master to sell the lands described in the complaint as is done in all cases involving a foreclosure of mortgage; and it shall direct the master of the court to sell the lands described in the complaint to the highest and best bidder, for cash in hand at public outcry, at the courthouse door of the county wherein the suit is pending, after having first advertised such sale (such advertisement may include all the lands described in the decree and ordered sold), once each week for two consecutive weeks in some newspaper published in the county; and, if all the lands so advertised for sale be not sold on the day as advertised, such sale shall continue from day to day until completed; and said master shall deliver to the purchaser or purchasers at said sale or to the board of supervisors in case said property be bid in in the name of said district, as hereinafter provided, a certificate showing such purchase; and said certificate shall show on its face that the same is subject to redemption within one year; and said master shall make a report of such sale or sales to the court from time to time.

(2) The title to said land so sold shall thereupon become vested in such purchaser, subject, however, to the liens for all subsequent annual installments of drainage taxes, and interest thereon, and saving to infants and insane persons having no guardian the rights they now have by law, and subject, further, to the right of the owner or any person holding any lien or interest in said lands or any part of them, to redeem the same by the payment within one year from the date of sale into the hands of the clerk of said court of a sum of money sufficient to pay the past due annual installments and state and county taxes paid by the district, if any, costs, interests, including interest on the judgment at the rate of ten per cent per annum, and attorney's fees charged against the same. Upon such redemption of any property, the cancellation of the certificate shall be entered of record. The court shall retain jurisdiction of such foreclosure suit until after the expiration of said period of redemption, and shall thereupon, upon proper application by the purchaser or holder of such certificate or certificates, make an order of confirmation, confirming the sales so made by the master in all cases where there has been no redemption as above provided, and the same shall thereby become the owners in fee simple of the lands respectively bought by them, and the master shall execute deeds to holders of such certificates and such deeds so executed and delivered pursuant thereto shall have the same probative force as deeds executed under judgments and decrees in other civil actions.

(3) All such suits may be disposed of on oral testimony and this law shall be liberally construed, so as to give to said lien for said drainage tax and interest upon the same, the effect of a bona fide mortgage for a valuable consideration and a first lien upon all said lands as against all persons having an interest therein. In such suits it shall be sufficient to

allege generally and briefly the organization of the district, and the levy, and nonpayment of the taxes, setting forth the descriptions of the lands proceeded against, and the amount chargeable to each tract; provided, that no informality or irregularity in holding any of the meetings provided herein, or valuation or assessment of the lands, or in the name of the owners, or the number of acres therein shall be a valid defense.

(4) Provided further, that in any case where the lands are offered for sale by the master, and the sum of the tax due, together with interest, costs and penalty, is not bid for the same, said board shall bid the whole amount due thereon, as aforesaid, in the name of the district, and the master shall sell same to such district, and such lands so bid in the name of the district shall, if subsequently confirmed in accordance with the above provision, become the property of the district in fee simple and shall be held and disposed of by the board of supervisors at such price and on such terms as in the discretion of the board may be for the best interest of said district; and in the sale or disposition of such lands, the board of supervisors may, in their discretion, accept in payment or part payment therefor, any bonds or interest coupons of the district, which are past due, at their face value with accrued interest.

(5) Provided further, that in all judgments, decrees and orders of sale of delinquent lands, the court shall make proper and equitable provisions for ascertaining the amount and for the payment of all unpaid state and county taxes with the penalties and costs thereon against the lands ordered sold to be paid either by the purchaser or purchasers or out of the proceeds of the sale thereof, or the court may order and direct said lands to be sold subject to such state and county taxes without regard to the amount thereof.

History.—§24, ch. 6458, 1913; RGS 1121; §1, ch. 9129, 1923; CGL 1474; §7, ch. 22858, 1945; §2, ch. 29737, 1955.

298.47 Supervisors may issue bonds.—The Board of Supervisors may, if in their judgment it seems best, issue bonds not to exceed ninety per cent of the total amount of the taxes, exclusive of the amount for interest, levied under the provisions of §298.36, in denominations of not less than one hundred dollars, bearing interest from date at rate not to exceed six per cent per annum, payable semiannually, to mature at annual intervals within thirty years, commencing after a period of years not later than ten years, to be determined by the board of supervisors, both principal and interest payable at some convenient banking house or trust company's office to be named in said bonds, which said bonds shall be signed by the president of the board of supervisors, attested with the seal of said district and by the signature of the secretary of the said board; provided, that §6 of article IX of the Florida constitution shall be complied with as to all such bonds as are within its purview. All of said bonds shall be executed

and delivered to the treasurer of said district, who shall sell the same in such quantities and at such dates as the board of supervisors may deem necessary to meet the payments for the works and improvements in the district. Said treasurer shall, at the time of the receipt by him of said bonds, execute and deliver to the president of the board of said district, a bond with good and sufficient sureties to be approved by the said board of supervisors, conditioned that he shall account for and pay over, as required by law and as ordered to do by said board of supervisors, any and all money received by him on the sale of such bonds, or any of them, and that he will only sell and deliver such bonds to the purchaser or purchasers thereof, under and according to the terms herein prescribed, and that he will return, duly canceled, any and all bonds not sold to the board of supervisors when ordered by said board so to do, which said surety bond shall remain in the custody of the said president of said board of supervisors, who shall produce the same for inspection or for use as evidence whenever and wherever legally requested so to do.

The aforesaid bond of said treasurer may, if the said board shall so direct, be furnished by a surety or bonding company, which may be approved by said board of supervisors; provided, if it should be deemed more expedient to the board of supervisors, as to money derived from the sale of bonds issued, said board may, by resolution, select some suitable bank or banks, or other depository, as temporary treasurer or treasurers, to hold and disburse said moneys on the orders of the board as the work progresses, until such fund is exhausted or transferred to the treasurer by order of the said board of supervisors.

No bonds shall be issued under this chapter, except with the approval of the board of drainage commissioners of the State of Florida, and said board may, prior to such approval, require any or all plans of drainage or reclamation therein, and any or all contracts for the work or for the sale of bonds, to be submitted to and approved by it.

cf.—Ch. 75, Validation of bonds, procedure.

298.48 Sale of bonds and disposition of proceeds.—The bonds shall not be sold for less than ninety five cents on the dollar, with accrued interest, shall show on their face the purpose for which they are issued, and shall be payable out of money derived from the aforesaid taxes. The said treasurer shall promptly report all sales of bonds to the board of supervisors, which board shall at reasonable times thereafter, prepare and issue warrants in substantially the forms provided in §298.17 for the payment of the maturing bonds so sold and the interest payments coming due on all bonds sold. Each of said warrants shall specify what bonds and accruing interest it is to pay, and the said treasurer shall place sufficient funds at the place of payment to pay

the maturing bonds and coupons when due, as well as a reasonable compensation to the bank or trust company for paying same. The successor in office of any such treasurer shall not be entitled to said bonds or the proceeds thereof until he shall have complied with all the foregoing provisions applicable to his predecessor in office. The funds derived from the sale of said bonds or any of them shall be used for the purpose of paying the cost of the drainage works and improvements and such costs, expenses, fees and salaries as may be authorized by law and used for no other purpose.

298.49 Interest upon matured bonds, etc.—All bonds and coupons not paid at maturity shall bear interest at the rate of six per cent per annum from maturity until paid, or until sufficient funds have been deposited at the place of payment, and the said interest shall be appropriated by the board of supervisors out of the penalties and interest collected on delinquent taxes or any other available funds of the district. Any expense incurred in paying said bonds and interest thereon, and a reasonable compensation to the bank or trust company for paying same, shall be paid out of other funds in the hands of the treasurer and collected for the purpose of meeting the expenses of administration.

298.50 Levy of tax to pay bonds, sinking fund.—The board of supervisors in making the annual tax levy, as provided in this chapter, shall take into account the maturing bonds and interest on all bonds, and make provisions in advance for the payment thereof. In case the proceeds of the original tax levy made under the provisions of §298.36 are not sufficient to pay the principal and interest on all bonds issued, then the board of supervisors shall make such additional levies upon the benefits assessed as are necessary for this purpose, and under no circumstances shall any tax levies be made that will in any manner or to any extent impair the security of said bonds or the fund available for the payment of the principal and interest of the same.

A sufficient amount of the drainage tax shall be appropriated by the board of supervisors for the purpose of paying the principal and interest of the said bonds and the same shall, when collected, be preserved in a separate fund for that purpose and no other. Should said drainage tax prove insufficient for the payment of any bonds issued subsequent to June 1st, 1927, additional taxes apportioned to the amounts of said drainage tax may be levied in such amounts as may be necessary for such purposes.

298.51 Defaults, receivership for district, etc.—If any bond or interest coupon on any bond issued by said district is not paid within

sixty days after its maturity, a court of competent jurisdiction, on the application of any holder of such bond or interest coupon so overdue, may appoint a receiver for the district; said receiver shall be a resident of the state or some corporation organized under the laws of Florida and authorized by such laws to act as receiver; such appointment by such court shall not be made except upon reasonable notice of such application for such appointment having been given to the board of supervisors of said district; and the proceeds of taxes collected by the receiver shall be applied after payment of costs, first to overdue interest, and then to payment pro rata of all bonds issued by the said district which are then due and payable; and the said receiver may be directed to foreclose, by suit, as provided in this chapter, the lien of said taxes of said lands, and said suits so brought by the receiver shall be conducted as, and governed by, the provisions applicable to suits by the said district as provided, and with like effect; and the decrees, deeds and all other acts herein shall have the same presumptions in their favor; provided, however, that when all costs, overdue interest and bonds which are then due and payable, as provided in this chapter have been paid, the receiver shall be discharged and the affairs of the district conducted by a board of supervisors of said district as provided by law.

History.—§41, ch. 6458, 1913; RGS 1138; §1, ch. 9129, 1923; §3, ch. 12040, 1927; CGL 1493.

298.52 Refunding and extending bonds.—Any drainage district now or hereafter created or organized under any general or special law heretofore or hereafter enacted by the state may, whenever in the judgment of the governing board thereof it is advisable and for the best interests of the land owners in the district, refund any or all of the then outstanding bonded indebtedness of such district by taking up and canceling any or all of its outstanding bonds as and when they become due, or before they are due, if the holders thereof will surrender them, and issuing in lieu thereof new bonds of such district payable in such longer time, not to exceed fifty years from their date, as said governing board may determine; such refunding bonds shall not exceed in the aggregate the amount of the bonds refunded thereby, and shall bear interest at a rate not exceeding six per cent per annum, payable semiannually, and may be exchanged for the outstanding bonds at par or sold for not less than ninety-five cents on the dollar and accrued interest, and the proceeds used solely in the payment of outstanding bonds. Any discount or expense of such sale of the refunding bonds shall be paid out of the maintenance fund of the district, if any, or out of surplus in the sinking fund, if any. Any land owner shall have the right at any time within thirty days after the adoption of the resolution providing for the issuance of the refunding bonds, to pay the full amount of uncollected principal or assessment charge-

able to his land for the payment of the bonds proposed to be refunded, and his lands shall thereby be released from any tax or assessment for the payment of said bonds; provided, however, his land shall remain liable, subject to the limitations prescribed in the law under which the original bonds were issued and the original or revised benefits assessed against said land, for any additional tax which may be required to pay said bonds by reason of other lands in the district not paying the tax or assessment. Unless and until refunding bonds shall have been authorized and issued, the governing board shall continue the levy of annual taxes sufficient to pay the outstanding bonds and interest thereon as they fall due. When any bonds of such district are refunded pursuant to the authority hereby conferred, the collection of corresponding installments of tax or assessment shall likewise be deferred. The governing board shall make proper provision for the payment of the principal and interest of said refunding bonds in like manner as was required in the case of the issuance of original bonds by the law under which such district is or may have been incorporated; and the holders of such refunding bonds shall have the same rights as are given the holders of bonds under the law under which such district is or may have been incorporated. Any landowner failing to avail himself of the privilege conferred by this section of paying in full the unpaid principal tax or assessment against his land shall not be heard to complain by reason of additional interest to be collected from his lands by reason of the extension of the bonds. Taxes or assessments levied for the payment of refunding bonds and the interest thereon shall be secured by the same lien as other taxes of such district levied for the payment of the original bonds, and the additional interest which will accrue on account of such refunding bonds shall be included and added to the original drainage tax and shall be secured by the same lien; but the interest to accrue shall not be considered as a part of the cost of construction in determining whether the tax exceeds the benefits assessed. No proceedings shall be required for the issuance of refunding bonds other than those provided by this section; provided, however, that the validity of all bonds issued under this chapter and the validity of all proceedings had incident to and culminating in the issuance of such bonds shall, prior to the sale or delivery of such bonds, be determined and established in the manner now or hereafter provided by law for the validation of bonds issued by counties, municipalities, taxing districts or other political districts or subdivisions of this state.

Levies of such tax, including the valuations upon which they are to be made, may if necessary be made by or under the order of any court having jurisdiction to enforce the payment of said bonds or of any judgment thereon against the district. Service in any action or proceeding against the district in relation to such bonds may be made upon any member of the governing board of such district as now or hereafter constituted, or if such governing board is composed of state officers acting ex officio, upon any executive officer of the state performing any of the duties of any such officer, who is now or may hereafter be ex officio a member of said board.

Said maintenance tax shall be apportioned upon the basis of the net assessments of benefits assessed as accruing for original construction, shall not exceed ten per cent thereof in any one year, and shall be certified to the collector of each county in which lands of said district are situate in the same book and in like manner and at same time as the annual installment of tax is certified, but in a separate column under the heading "maintenance tax." Said collector shall demand and collect the maintenance tax and make return thereof, and shall receive the same compensation therefor, and be liable for the same penalties for failure or neglect so to do, as is provided herein for the annual installment of taxes.

Upon the hearing of said petition, if said court shall find that there has been a material change in the values of the lands in said district since the last previous assessment of benefits, the court shall order that there be made a readjustment of the assessment of benefits for the purpose of providing a basis upon which to levy the maintenance tax of said district. Thereupon, the court shall appoint three commissioners, possessing the qualifications of commissioners appointed under §298.30, to make such readjustment of assessment in the manner provided in §298.32; and said commissioners shall make their report, and the same proceedings shall be had thereon, as nearly as may be, as are provided for the assessment of benefits accruing for original construction; provided, that in making the readjustment of the assessment of benefits said commissioners shall not be limited to the aggregate amount of the original or any previous assessment of benefits, and that after the making of such readjustment the limitation of ten per cent of the annual maintenance tax which may be levied shall apply to the amount of benefits as readjusted; and, provided further, that there shall be no such readjustment of benefits oftener than once in five years.

Such notice shall describe the lands involved and the respective principal amounts sought to be recovered in such suit for taxes on such respective parcels of land, and requiring all such parties to file their answers with the clerk of the circuit court and to serve a copy thereof upon plaintiff's attorney, whose name and address shall appear in, or be annexed to, said notice, not later than the date fixed in said notice, which date shall be not less than twenty-eight nor more than sixty days after the first publication of the notice. (2) All persons interested in any land involved in a suit in chancery to enforce liens for delinquent drainage taxes shall be deemed to take notice of the levy, assessment and delinquency of such taxes and of suits to enforce the same; and they shall, upon the entry of the final decree therein and the execution of

the master's deed, be fully and completely barred and foreclosed of all equity of redemption in and to all of such land whether they were or were not named as defendants or served with process, unless such persons who were not made parties or were not served with process shall petition the court within the time, under the conditions and on the grounds herein provided to vacate the final decree and the master's deed.

(3) If any person shall, within the time herein allowed, show by petition to the court that he is interested in certain land involved in a drainage tax foreclosure suit, describing it; and further show that the delinquent drainage taxes against said land claimed in the suit were paid previous to the entry of the final decree and that the final decree for that reason was erroneously entered, or shall show that he wants to redeem said land from foreclosure sale and pay the delinquent drainage taxes thereon as claimed in the complaint and tenders into the court with his petition the amount necessary for that purpose; and further shows that he was not made a party defendant to said suit or was not served with process and for that reason had no opportunity to redeem said land from sale or had no opportunity to bring to the attention of the court the fact of previous payment of the delinquent drainage taxes, as the case may be; the court may, if satisfied with the truth of the petition, vacate the final decree and master's deed as to the land described in the petition; but, in no case shall the final decree or master's deed be vacated, except on the petition of some person who has not had his day in court, and on no ground except to permit the payment of the taxes claimed, or on the ground that the taxes were paid at the time of the entry of the final decree and that the decree for that reason was erroneously entered; provided, however, any person interested in the land, including defendants to the suit who were legally served with process, may by petition, within the time herein provided, bring to the attention of the court a jurisdictional question such as the disqualification of the circuit judge entering the final decree, and have the final decree vacated on such jurisdictional grounds by offering to redeem and tendering into court the amount of delinquent taxes necessary for that purpose.

(4) The time limit for petitioning the court to vacate the final decree or master's deed, as provided herein, and as permitted hereby, shall be one year from the entry of the final decree in all cases where the final decree may be entered subsequent to June 16, 1941; and shall be one year from said date in all cases where the final decree was entered prior to said date.

(5) Where a final decree has been entered, or whenever one may hereafter be entered, in any drainage tax foreclosure suit and a master's deed consequent thereon has been or may be issued and recorded, and the time herein allowed for vacating said decree and said master's deed has elapsed and no petition to vacate the same has been filed or presented within the time allowed; then, thereafter all persons interested in

the involved land shall be conclusively deemed to have consented to the final decree, and sale and master's deed, the title shall be vested in the grantee of the master's deed, his heirs and assigns, in fee simple forever, and his title shall be paramount and superior to all other titles, liens and claims, and its validity shall never be questioned in any court at law or equity.

(6) Nothing in this section contained shall, or is intended to, enlarge or extend the rights of any person who was regularly and duly made a party to any such foreclosure suit and was regularly and duly served with process and who has had his day in court.

(7) This section shall apply only to drainage districts organized, created and existing under the general drainage laws of the state as such drainage laws are brought forward as chapter 298.

(8) This section shall apply to all land which has been, or which may hereafter be, involved in a drainage foreclosure suit which has gone or may go to final decree, whether such foreclosure suit was either brought, conducted or concluded before or after or partly before and partly after June 16, 1941.

298.77 Assessments; readjustment, procedure, notice, hearings, etc.—

(1) Whenever the board of supervisors or the owners of twenty-five per cent or more of the acreage of the land of any drainage district situated wholly in a single county existing under the general drainage laws of Florida, now chapter 298, joined by the holders of not less than ninety-five per cent of the indebtedness outstanding against said district, shall file a petition with the clerk of the circuit court organizing such district, stating that there has been a material change in the value of the property in the district since the last previous assessment of benefits, contributed to by the drainage system; that a relatively large portion or portions of said district have become nontaxable for the purpose of paying the indebtedness of such district; that a named person, corporation or agency has purchased the obligations of said district at a discount and under circumstances whereby the district is expected to pay in discharge of its obligations a sum greatly less than the par value of said obligations; that improvements within such district made possible or practicable by the drainage effected have been such as to enhance values in a portion or portions thereof more than in other portions of the district; and that developments in all parts of such district are believed to have been retarded by the inability of property owners to pay assessments and discharge individual properties from the lien of the drainage tax; and praying for readjustment of the assessment of benefits for the purpose of making a more equitable basis for the levy of taxes to pay the indebtedness of such district and to maintain its drainage system, the said clerk shall give notice of the filing and hearing of said petition in the manner and for the time provided for in §298.02.

(2) Such notice may be in the following form:

NOTICE IS HEREBY GIVEN to all persons interested in the lands included within the _____ Drainage District that a petition has been filed in the office of the Clerk of the Circuit Court of _____ County, Florida, praying for a readjustment of the assessment of benefits for the purpose of making a more equitable basis for the levy of taxes against the various pieces and parcels of land in said district to pay its indebtedness and maintain its drainage system, and

that said petition will be heard by the said circuit court on the _____ day of _____, 19____.

Dated _____, 19____.

Clerk of the Circuit Court of _____ County.

(3) Any interested person may file answer to said petition before the return day and, if so, shall be duly heard, but if not, the cause shall proceed ex parte. Upon the hearing of said petition, if said court shall find that there has been a material change in the values of the lands in said district since the last previous assessment of benefits, contributed to by the drainage system, and that the other material allegations of the petition herein required to be set forth are substantially true, the court shall order that there be made a readjustment of the assessment of benefits for the purpose of providing a basis upon which to levy further and future taxes for the payment of the obligations of, and maintaining the drainage system in, said district. Thereupon the court shall appoint three commissioners possessing the qualifications of commissioners appointed under §298.30, to make such readjustment of assessment of benefits to each piece or parcel of land which has accrued or will accrue as a result of the drainage system in the manner provided in §298.32, and said commissioners shall make their report, and said proceeding shall be had thereupon as nearly as may be as provided for the assessment of benefits accruing for original construction; provided, that in making the readjustment of the assessment of benefits, said commissioners shall not increase the existing assessment, or unpaid portion thereof, on any piece or parcel of land; provided, further, that after the making of such readjustment, the limitation of ten per cent of the annual maintenance tax which may be levied shall apply to the amount of benefits as readjusted.

History.—§1, ch. 22103, 1943.

298.78 Lien; release.—Any landowner shall have right at any time within ninety days after the date of said decree, or at any time thereafter with consent of holders of not less than ninety-five per cent of bonds, to obtain a full release of his lands from the lien and liability of the assessment by the payment of an amount to be stated in the decree, which shall include the proportionate amount of the indebtedness chargeable against said piece or parcel of land, together with an additional amount estimated to be required to pay the bonds by reason of the failure of other pieces or parcels to pay the indebtedness so charged against them, said amounts to be approved by holders of not less than ninety-five per cent of bonds.

298.79 Pending suits unaffected.—Nothing in this law contained shall operate to abate or otherwise affect any suit pending in any state or federal court of this state on June 14, 1943, wherein the validity of the taxes or assessments or the validity of the bonds of such drainage district is being contested, unless the parties to such suit by their attorneys of record so stipulate and the court in such suit so orders.

History.—§3, ch. 22103, 1943.

298.80 Drainage districts; foreclosures by; amount of bid at foreclosure sale.—In any action by any drainage district created or organized under chapter 6458, acts of 1913, or acts amendatory thereof or supplemental thereto (Chapter 298), for the foreclosure of liens in favor of such district, the maximum amount required to be paid on behalf of such district by the board of supervisors at any sale therein decreed, for the lands so ordered sold, shall not be in excess of the value of the interest to be acquired at such sale by the purchaser of the lands sold, as such value shall be ascertained and determined by the board of supervisors of such district.

History.—§1, ch. 22799, 1945.

298.81 Drainage liens; foreclosures; period for redemption.—

(2) Nothing contained in this section shall require, in any suit of the character referred to in subsection (1), the immediate confirmation of any sale and the issuance thereupon to the purchaser of a deed of conveyance for the premises so sold, but in every such suit the court in its discretion may direct the master to deliver to the purchaser at the sale, or to the board of supervisors in case the property be bid in in the name of the district, a certificate showing such purchase, in which event there shall be allowed a period of twelve months for the redemption from such sale as provided for under existing provisions of law prior to the confirmation of the sale and the issuance of a deed to the purchaser.

CHAPTER 309

PROTECTION OF PORTS AND HARBORS

309.01 Deposit of material in tide water regulated.

309.02 Deposit on wharf, etc., regulated.

309.01 Deposit of material in tide water regulated.—

(1) It is not lawful for any person to discharge or cause to be discharged, deposit or cause to be deposited, in the tide or salt waters of any bay, port, harbor or river of this state any ballast or material of any kind other than clear stone or rock free from gravel or pebbles, which said clear stone or rock shall be deposited or discharged only in the construction or enclosures in connection with wharves, piers, quays, jetties, or in the construction of permanent bulkheads connecting the solid and permanent portion of wharves. It is lawful to construct three characters of bulkheads for retention of material in solid wharves. First, clear stone or rock enclosures, or bulkheads, may be built upon all sides to a height not less than two and one-half feet above high water mark, and after the said enclosures have been made so solid, tight and permanent as to prevent any sand, mud or gravel, or other material that may be discharged or deposited in them, from drifting or escaping through such enclosure, any kind of ballast may be discharged or deposited within same. The aforesaid enclosures may be constructed of wood, stone and rock combined, the stone and rocks to be placed on the outside of the wood to a height not less at any point than two and one-half feet above high water mark. Second, a bulkhead may be built by a permanent wharf consisting of thoroughly creosoted piles not less than twelve inches in diameter at the butt end, to be driven close together and to be capped with timber not less than ten or fourteen inches drift, bolted to each pile, and one or more longitudinal stringers to be placed on the outside of the bulkhead and securely anchored by means of iron rods to piles driven within the bulkheads, clear rock to be on the inside of the bulkhead, to a height of not less than two and a half feet above high water; and after this is done, ballast or other material may be deposited within the permanent enclosure so constructed. Third, a bulkhead may be constructed to consist of creosoted piles, as described herein, driven not exceeding four feet apart from center to center, inside of which two or more longitudinal stringers may be placed, and securely bolted to the piles. Inside of these longitudinal pieces two thicknesses of creosoted sheet piling are to be driven, each course of the sheet piling to make a joint with the other so as to form an impenetrable wharf, and within this permanent bulkhead so constructed, any ballast or other material may be deposited. No such enclosure, piers, quays or jetties shall be begun until the point whereat it is to be built shall have been connected by a substantial wharf with a shore or with a permanent wharf; provided, that the owners

of wharves may at any time, with the consent of the board of pilot commissioners of the port or harbor in which such wharves are situated, build wharves of clear stone or rock, or creosoted walls as hereinafter provided, on each side of their wharves from the shore to a point at which the water is not more than fifteen feet deep, and when such walls have attained a height of two and one-half feet above high water mark, and have been securely closed at the deepwater end by stone or creosoted walls of the same height, any kind of ballast may be deposited in them. The pilot commissioners of the different ports and harbors of this state shall designate by ordinance the depth of water at which enclosures, piers, quays, jetties and bulkheads may be built without obstruction to navigation within the bays, ports, rivers and harbors over which they respectively have jurisdiction. Nothing contained in this section shall interfere with any rights or privileges now enjoyed by riparian owners. While this section empowers those who desire to construct the several characters of wharves, piers, quays, jetties and bulkheads, provided for and described herein, nothing in this section shall be so construed as to require any person not desiring to construct a permanent wharf by filling up with ballast, stone or other material, to construct under the specifications contained herein; and nothing in this chapter shall be so construed as to prevent any person from constructing any wharf or placing any pilings, logs or lumber in any waters where he would have heretofore had the right so to do.

(2) This section shall not prohibit Escambia county from placing in Pensacola bay, on the Escambia county side, beside the old Pensacola bay bridge, certain materials, as recommended by the salt water division of the department of conservation, to increase the number of fish available for persons fishing from the old Pensacola bay bridge.

(3) This section shall not prohibit Manatee county from placing in the Manatee county portions of Sarasota bay and Tampa bay and in the Manatee river, certain materials, as recommended by the salt water division of the department of conservation to increase the number of fish available for persons fishing in the above areas.

309.02 Deposit on wharf, etc., regulated.—

It is not lawful for any person to deposit or cause to be deposited on any wharf or quay, any ballast, stone, earth, or like material, except such wharf or quay may be so secured as to prevent such ballast or other material from washing into the waters of the harbor.

History.—§3, ch. 3142, 1879; RS 937; GS 1291; RGS 2461; CGL 3870.

that in the event a vacancy occurs while an apprentice is serving his apprenticeship, he shall have prior consideration over other applicants for the position; but such apprentice shall be entitled to act as pilot on complying with the law, notwithstanding the fact that the total number of pilots may exceed the limit herein provided and the said board shall require from each pilot satisfactory bond for the faithful performance of his duty; provided, however, that the provisions of this law shall in no way affect or apply to pilots who are now duly licensed and qualified pilots, or alter, amend, repeal or change any local or special law pertaining to appointment, qualification or number of pilots for any ports in the state.

Any municipality located in a county authorized by law to operate port facilities or in which there is a port district or a port authority shall exercise any powers granted by this law only if the governing body of such county, port district or port authority shall by resolution determine that the best interests of the county will be served thereby and consent thereto. The State of Florida hereby consents to the exercise of any and all powers granted by this law without further authorization or approval thereof by any of its agencies or instrumentalities, except as may be required from the trustees of the internal improvement fund as to the use of any state lands lying under water which are necessary for the accomplishment of the purposes of this law.

History.—§4, ch. 59-411.

315.05 Port facilities bonds.—The governing body is hereby authorized to provide by resolution, at one time or from time to time, for the issuance of bonds of a unit for the purpose of paying all or a part of the cost of any one or more port facilities. The bonds of each issue or series shall be dated, shall bear interest at such rate or rates not exceeding six per cent per annum, shall mature at such time or times not exceeding forty years from their date or dates, as may be determined by the governing body, and may be made redeemable before maturity, at the option of the unit, at such price or prices and under such terms and conditions as may be fixed by the governing body prior to the issuance of the bonds. The governing body shall determine the form of the bonds including any interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix the denomination or denominations of the bonds, and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the state. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery, and any bond may bear the facsimile signature of, or may be signed by, such persons as at the actual time of the execution of such bond shall be the proper officers to sign such bond although at the date of such bond such persons may not have been such officers. Notwithstanding any other provisions of this law or any recitals in any bonds issued under the provisions of this law, all such bonds shall be deemed to be negotiable instruments under the laws of Florida. The bonds may be issued in coupon or in registered form, or both, as the governing body may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and inter-

est, for the reconversion into coupon bonds of any bonds registered as to both principal and interest, and for the interchange of coupon and registered bonds. The issuance of such bonds shall not be subject to any limitations or conditions contained in any other law, and any bonds issued by a unit under this law shall not be considered in computing the amount of indebtedness which the unit may incur under any other law. The governing body may sell such bonds in such manner, either at public or private sale and for such price, as it may determine to be for the best interests of the unit, but no such sale shall be made at a price so low as to require the payment of interest on the money received therefor at more than six per cent per annum computed with relation to the absolute maturity of the bonds in accordance with standard tables of bond values, excluding, however, from such computation the amount of any premium to be paid on redemption of any bonds prior to maturity. Prior to the delivery of definitive bonds, the unit may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds have been executed and are available for delivery. The governing body may also provide for the replacement of any bonds which shall become mutilated or be destroyed or lost. Bonds may be issued under the provisions of this law without obtaining the consent of any commission, board, bureau or agency of the state, and without any other proceeding or the happening of any other condition or thing than those proceedings, conditions or things which are specifically required by this law.

History.—§5, ch. 59-411.

315.06 Sources of payment and security for bonds.—The governing body may provide that bonds issued under the provisions of this law shall be payable from and secured by a pledge of any one or more of the following sources:

(1) Revenues of any one or more port facilities now owned or hereafter acquired or constructed by the unit;

(2) Proceeds of the sale or lease of all or any part of any port facilities now or hereafter owned by the unit as such facilities may be extended, enlarged or improved, or of any property of the municipality improved, created, extended or enlarged or prepared for sale or lease under the authority of this law;

(3) Any money received by the unit from the United States or any agency or instrumentality thereof in connection with any port facilities or in repayment of any advances made by the unit for all or any part of the cost of any port facilities.

The governing body may provide that such bonds shall be general obligations of the unit for which the full faith, credit and taxing power of the unit shall be additionally secured by a pledge of revenues, sale or lease proceeds or money received by the unit from the United States or any agency or instrumentality there-

of as herein authorized. The governing body of such unit may provide that such bonds shall be payable as to principal and interest in the first instance from such revenues, sale or lease proceeds or money received by the unit from the United States or any agency or instrumentality. The governing body of any unit may additionally secure any such bonds by a mortgage or other encumbrance, subject to such terms and conditions as it shall provide, upon all or any part of any port facilities now or hereafter owned by the unit, as such facilities may be extended, enlarged or improved, or of any property of the unit improved, created, extended or enlarged or prepared for sale or lease under the authority of this law, and the governing body is hereby authorized to sell at public or private sale or lease any of such port facilities or property, subject to such terms and conditions and for such price, payable at one time or from time to time in installments as the governing body may provide, and to apply the proceeds of any such sale or lease, after paying all costs in connection therewith, to payment of the cost of any port facilities financed under the provisions of this law or to the payment of the principal of or the interest or redemption premiums on any bonds issued hereunder or to the payment of any other obligation or obligations herein authorized.

History.—§8, ch. 59-411.

315.07 Contracts for borrowing of money.

The governing body may contract with any person, firm, corporation or public body or with the United States or any agency or instrumentality thereof for the borrowing of money for paying all or any part of the cost of any one or more port facilities, and any such contract may contain such terms, conditions or provisions as the governing body may determine not in conflict with the provisions of this law. The provisions of §315.06 applicable to bonds shall be applicable also to contracts entered into under the above provisions of this section. Any such contract may be hypothecated by the unit, and the unit may borrow money under such terms and conditions as it shall determine in anticipation of the receipt of funds under such contract.

History.—§7, ch. 59-411.

315.08 Trust agreement or resolution.—In the discretion of the governing body, any bonds issued under the provisions of this law may be secured by a trust agreement by and between the unit and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the state. Such trust agreement or the resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the unit in relation to the acquisition of property and the acquisition, construction, improvement, maintenance, repair, lease, opera-

tion and insurance of any port facilities in connection with which such bonds shall have been authorized, the custody, safeguarding or application of all moneys, and conditions or limitations with respect to the issuance of additional bonds. It shall be lawful for any bank or trust company incorporated under the laws of Florida which may act as depository of the proceeds of bonds or of revenue or other funds to furnish such indemnifying bonds or to pledge such securities as may be required by the governing body. Any such trust agreement or resolution may set forth the rights and remedies of the bondholders and of the trustee under any such trust agreement, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the governing body may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution shall be treated as a part of the cost of the operation of the port facilities.

History.—§8, ch. 59-411.

315.09 Remedies.—Any holder of bonds issued under the provisions of this law or any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein given may be restricted by such trust agreement or the resolution authorizing the issuance of such bonds, may, either at law or in equity, by suit, action, mandamus or other proceedings, protect and enforce any and all rights under the laws of the state or granted hereunder or under such trust agreement or resolution, and may enforce and compel the performance of all duties required by this law or by such trust agreement or resolution to be performed by the unit or by any officer thereof, including the fixing, charging and collecting of rates, rentals and other charges.

History.—§9, ch. 59-411.

315.10 Refunding bonds.—The governing body is hereby authorized to provide by resolution for the issuance of refunding bonds of the unit for the purpose of refunding any bonds then outstanding which shall have been issued under the provisions of this law or which shall have been issued to provide funds for the payment of the cost of any port facilities under the provisions of any other law, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds, and, if deemed advisable by the governing body, for the additional purpose of acquiring or constructing additional port facilities. The issuance of such bonds, the maturities and other details thereof, the rights of the holders thereof, and the rights, duties and obligations of the unit in respect of the same, shall be governed by the provisions of this law insofar as the same may be applicable.

History.—§10, ch. 59-411.

(5) **AUTHORIZED EMERGENCY VEHICLES.**—

(a) The driver of an authorized emergency vehicle, when responding to an emergency call or when in the pursuit of an actual or suspected violator of the law or when responding to but not upon returning from a fire alarm, may exercise the privileges set forth in this section, but subject to the conditions herein stated.

(b) The driver of an authorized emergency vehicle, except when otherwise directed by a police officer, may:

1. Park or stand, irrespective of the provisions of this chapter;

2. Proceed past a red or stop signal or stop sign, but only after slowing down as may be necessary for safe operation;

3. Exceed the maximum speed limits so long as he does not endanger life or property;

4. Disregard regulations governing direction of movement or turning in specified directions, so long as he does not endanger life or property.

(2) No provisions of this chapter for which signs are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official sign is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular section does not state that signs are required, such section shall be effective even though no signs are erected or in place.

(3) Whenever official traffic-control devices are placed in position approximately conforming to the requirements of this chapter, such devices shall be presumed to have been so placed by the official act or direction of lawful authority, unless the contrary shall be established by competent evidence.

Traffic lights presently in operation shall comply with this section prior to June 30, 1965.

(1) **GREEN INDICATION.**—

(a) Vehicular traffic facing a circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right of way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

(b) Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow, or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right of way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(b) Unless otherwise directed by a pedestrian-control signal as provided in §317.062,

pedestrians facing a steady red signal shall not enter the roadway.

(4) In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

(5) No traffic-control signal device shall be used which does not exhibit a yellow or "caution" light between the green or "go" signal and the red or "stop" signal.

No traffic-control signal device shall display other than the color red at the top of said vertical signal, nor shall it display other than the color red at the extreme left of said horizontal signal.

(b) **Flashing yellow (caution signal).** When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

(2) This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad grade crossings shall be

(2) No vehicle shall be driven from a direct course in any lane on any highway until the driver shall have determined that the vehicle is not being approached or passed by any other vehicle in the lane or on the side to which the driver desires to move, that the move can be completely made with safety and without interfering with the safe operation of any vehicle approaching from the same direction.

(3) The driver of any vehicle overtaking or

(2) Upon a roadway which is divided into three lanes and provides for two-way movement of traffic, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle traveling in the same direction when such center lane is clear of traffic within a safe distance, or in preparation for making a left turn or where such center lane is at the time allocated exclusively to traffic moving in the same direction that the vehicle is proceeding and such allocation is designated by official traffic-control devices.

(3) Official signs may be erected, directing specified traffic to use a designated lane, or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway; and drivers of vehicles shall obey the directions of every such sign.

317.801 Weight and load unlawful; inspection; penalty; review.—

(1) Any officer or agent of the motor vehicle department, state department of public safety or the Florida public utilities commission, having reason to believe that the weight of a vehicle and load is unlawful is authorized to require the driver to stop and submit to a weighing of the same either by means of portable or stationary scales and may require that such vehicle be driven to the nearest public scales, provided such public scales are within two miles.

(2) Whenever an officer upon weighing a vehicle or combination of vehicles with load, determines that the axle weight or gross weight is unlawful, such officer may require the driver to stop the vehicle in a suitable place and remain standing until a determination can be made as to the amount of weight thereon, and if overloaded the amount of penalty to be assessed as provided herein, provided, however, that any and all gross weight over and beyond six thousand pounds beyond the maximum herein set shall be unloaded and all material so unloaded shall be cared for by the owner or operator of such vehicle at the risk of such owner or operator; provided, that for enforcement purposes all scaled weights of the gross or axle weight of vehicles and combinations of vehicles shall be deemed to be not closer than ten per cent to the true gross weight.

(3) Any person who violates the overloading provisions of this chapter shall be conclusively presumed to have damaged the highways of this state by reason of such overload-

ing, which damage is hereby fixed as follows:

(a) When the excess weight is one hundred pounds or less than the maximum herein provided the penalty shall be \$5.00;

(b) Five cents per pound for each pound of weight in excess of the maximum herein provided when the excess weight exceeds one hundred pounds.

(4) Whenever any person violates the provisions of this chapter and becomes indebted to the state because of such violation in the amounts aforesaid and refuses to pay the said penalty, such penalty shall become a lien upon said overloaded motor vehicle, and the same may be foreclosed by the state in a court of equity and it shall be presumed that the owner of the overloaded motor vehicle is liable for said sum, provided that any person, firm or corporation claiming an interest in said seized motor vehicle may at any time after the state's lien attaches to said motor vehicle obtain possession of the seized vehicle by filing a good and sufficient forthcoming bond with the officer having possession of the said vehicle, payable to the governor of the state in twice the amount of the state's lien, with a corporate surety duly authorized to transact business in this state as surety, conditioned to have said motor vehicle or combination of vehicles forthcoming to abide the result of any suit for the foreclosure of said lien, and it shall be presumed that the owner of the overloaded motor vehicle is liable for the penalty imposed under this section. The lien of the state against the motor vehicle aforesaid shall be foreclosed in equity and the ordinary rules of court relative to proceedings in equity shall control. If it shall appear that the seized vehicle has been released to the defendant upon his forthcoming bond, the state shall take judgment of foreclosure against the property itself, and judgment against the defendant and the sureties on said bond for the amount of the lien including cost of proceedings. After the rendition of the decree, the state may at its option proceed to sue out execution against the defendant and his sureties for the amount recovered as aforesaid or direct the sale of the vehicle under foreclosure.

(5) Any officer collecting the penalty herein imposed shall give to the owner or driver of the overloaded vehicle an official receipt for all penalties collected; such officers or agents of the state departments shall co-operate with the owners or drivers of motor vehicles so as not to unduly delay said vehicles. All penalties imposed and collected under this section by any state agency having jurisdiction, shall be paid to the treasurer of the state, who shall credit the total amount thereof to the state roads trust fund which shall be used to repair and maintain the roads of this state, and to enforce chapter 317, relating to weights of vehicles.

in such advertisement or publication that such motor vehicle which is so advertised, has been previously titled, registered or used as a taxicab, u-drive-it, police car, long-term leased vehicle, or for-hire vehicle, as the case may be as to such use. A current model vehicle is one which has been formally introduced by its manufacturer in a national announcement and continues as such until such time as the same manufacturer announces a subsequent model. Publication of any such advertisement without including such statement shall constitute a violation of this law, and the person, firm or corporation causing such advertisement or publication to be made shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be subject to the penalties provided in subsection (5). Each such publication shall be deemed a separate offense and subject to such penalties.

(4) The provision of subsections (1) and (2) providing for the certificate of title to be stamped to show the use to which said vehicle has previously been used and the notice required to be affixed to the windshield stating the use to which said vehicle has previously been used shall not apply to u-drive-it or long-term leased vehicles after such vehicles have ceased to be current model vehicles as defined in this section. At any time after any u-drive-it or long-term lease vehicle shall cease to be a current model, each year after the manufacturers national announcement and introduction of a subsequent model, the motor vehicle commissioner on request of the owner of the vehicle as shown in said certificate shall issue a new corrected certificate of title and remove from the certificate the notation as to its previous use. Nothing in this subsection shall apply to taxicabs or police cars or other for-hire vehicles and all of the provisions of subsections (1) and (2) shall continue to apply to such motor vehicles.

(5) Any person, firm or corporation who knowingly sells or exchanges or offers to sell or exchange a motor vehicle contrary to the provisions of this section, and every officer, agent or employee of any person, firm or corporation and every person who shall authorize, direct, aid in, or consent to the sale or exchange or offer for sale or exchange a motor vehicle contrary to the provisions of this section or who violates the provisions of subsection (3) of this section shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than one thousand dollars or by imprisonment in the county jail not to exceed six months, or by both such fine and imprisonment.

319.15 Notice of lien on motor vehicles; recording.—No liens for purchase money or as security for a debt in the form of retain title contract, conditional bill of sale or chattel mortgage, or otherwise, on a motor vehicle, as

now or may hereafter be defined by law, shall be enforceable in any of the courts of this state, against creditors or subsequent purchasers for a valuable consideration and without notice, unless a sworn notice of such lien, showing the following information, viz:

(1) Name and address of the registered owner;

(2) Date and amount of lien;

(3) Description of the motor vehicle; particularly showing make, type, motor and serial number; and

(4) Name and address of lien holder; shall be recorded in the office of the motor vehicle commissioner of the state, which filing is in lieu of all filing and recording now required or authorized by law, and shall be effective as constructive notice when filed; provided, however, that this law shall not apply or be effective as to any retain title contract, conditional bill of sale, chattel mortgage or other like instrument executed prior to August 1, 1941, nor to any retain title contract, conditional bill of sale, chattel mortgage or other like instrument covering any new or used motor vehicle floor plan stock of any motor vehicle dealer.

History.—§ 1, ch. 20917, 1941.
cf.—§ 28.22 Record books to be kept.

319.151 Title certificate to accompany notice of lien.—The motor vehicle commissioner shall not enter any lien upon his lien records, whether it be a first lien or a subordinate lien, unless the official certificate of title issued for the vehicle is furnished with the notice of lien, so that the record of lien, whether original or subordinate, may be noted upon the face thereof.

History.—§ 9, ch. 28184, 1953.

319.16 Satisfaction of lien.—Upon the payment of any such lien the debtor, or the registered owner of such motor vehicle, shall be entitled to demand and receive from the lien holder a satisfaction of such lien which shall likewise be filed in the office of such motor vehicle commissioner.

History.—§ 2, ch. 20917, 1941.

319.161 Methods of proof.—The motor vehicle commissioner under precautionary rules and regulations to be promulgated by him may permit the use, in substitution of the formal satisfaction of lien, of other methods of satisfaction, such as perforation, appropriate stamp, or otherwise, as he deems reasonable and adequate.

History.—§ 10, ch. 28184, 1953.

319.17 Rules and regulations; public record.—The motor vehicle commissioner shall make such rules and regulations as he deems necessary or proper for the effective administration of this law and shall prepare the forms of such notice of lien and satisfactions thereof, to be supplied, at not to exceed fifty per cent more than cost to any applicant, for recording such liens or satisfactions and shall keep a permanent record of such notice of liens and satisfactions in a book in his office open to the inspection of

the public at all reasonable times. The said commissioner is hereby authorized to furnish certified copies of such notices or satisfactions for a fee of one dollar; which certified copies shall be admissible in evidence in all courts of this state under same conditions and to same effect as certified copies of other public records.

History.—§3, ch. 20917, 1941.
cf.—§319.08 Deputy motor vehicle commissioner; funds collected; title indexes.

319.18 Fees for recording.—The motor vehicle commissioner shall be entitled to a fee of fifty cents for the recording of each notice of lien and each satisfaction thereof, to be paid at the time of the recording thereof. All of the fees collected shall be paid into the general revenue fund.

History.—§4, ch. 20917, 1941; §41, ch. 26869, 1951.

319.19 Failure to furnish satisfaction.—Should any person, firm or corporation holding such lien, which has been recorded in the office of such motor vehicle commissioner, upon payment of such lien and on demand, fail or refuse, within thirty days after such payment and demand, to furnish the debtor or the registered owner of such motor vehicle a satisfaction thereof, then, in that event, he, it or they, shall be held liable for all costs, damages, and expenses, including reasonable attorney's fees, lawfully incurred by the debtor or the registered owner of such vehicle in any suit which may be brought in the courts of this state for the cancellation of such lien.

History.—§5, ch. 20917, 1941.

319.20 Application of law; definitions.—The provisions of this law shall apply exclusively, except as otherwise specifically provided, to motor vehicles required to be registered and licensed under the provisions of chapter 320. For the purposes of this law the term "Motor Vehicle" shall also include a commercial trailer of one ton or more and a tractor-trailer combination and trailer-coach. For the purposes of this law "person" includes a natural person, firm, co-partnership, association or corporation; "Trailer-Coach" means any trailer or semi-trailer so designed and equipped as to provide living and/or sleeping facilities and drawn by a motor vehicle; and "Commissioner" means the motor vehicle commissioner of Florida.

History.—§1, ch. 23658, 1947.

319.21 Necessity of manufacturer's statement of origin and certificate of title.—

(1) No manufacturer, distributor, dealer or other person shall sell or otherwise dispose of a new motor vehicle to a distributor, dealer or other person without delivering to such distributor, dealer or other person a manufacturer's statement of origin duly executed and with such assignments thereon as may be necessary to show title in the purchaser thereof, on forms approved by the commissioner; nor shall any distributor, dealer or other person purchase, acquire or bring into the state, except for temporary use and not for sale, a new motor vehicle without obtaining from the seller thereof such manufacturer's statement of origin.

Such statement of origin shall be in the English language. In addition to the assignments stated herein, such manufacturer's statement of origin shall contain thereon a certification of the identification and description of the motor vehicle delivered and the name and address of the distributor, dealer or other person to whom said motor vehicle was originally sold, over the signature of an authorized official of the manufacturer who made the original delivery; provided however, that no statement of origin shall be required as to any new motor vehicle purchased from a person other than a manufacturer or a representative of a manufacturer in a state which does not require such statement of origin. Prior to the issuance of a certificate of title for any such new motor vehicle, the holder of any security interest therein may demand and receive from the owner thereof the manufacturer's statement of origin and may hold the same so long as he holds such security interest.

(2) No person hereafter shall sell or otherwise dispose of a motor vehicle without delivering to the purchaser or transferee thereof a certificate of title with such assignment thereon as may be necessary to show title in the purchaser, nor purchase or otherwise acquire, or bring into the state a motor vehicle, except for temporary use, unless such person shall obtain a certificate of title for same in his, her or its name in accordance with the provisions of this law; provided that any dealer holding current dealer license plates issued by this state may, in lieu of having a certificate of title issued in the name of such dealer, reassign any existing certificate of title issued in this state or, if no certificate of title exists on such motor vehicle in this state and if the motor vehicle is not a new motor vehicle requiring a manufacturer's statement of origin under the provisions of this section, such dealer shall, over his signature, briefly note such fact of nonexistence and show the name and address of the party from whom the vehicle was obtained, on the face of the separate application for initial certificate of title which is made by the purchaser or transferee. It shall not be necessary for any licensed automobile dealer in Florida to obtain a certificate of title on any new motor vehicle which he is selling or which he acquires for sale if he obtains a manufacturer's statement of origin as provided in subsection (1) hereof, but such dealer shall attach the manufacturer's statement of origin to and certify on the face of the separate application for initial certificate of title which is made by the purchaser that said motor vehicle is a new motor vehicle, and shall also disclose the name and address of the manufacturer, distributor, or other person from whom he acquired said new motor vehicle.

(3) Notwithstanding the provisions of other laws of this state, no motor vehicle shall be eligible for initial registration in this state on and after August 1, 1961, unless the provisions of this section have been complied with insofar as said motor vehicle is concerned.

History.—§2, ch. 23658, 1947; §1, ch. 25150, 1949; §1, ch. 61-296.

319.22 Transfer of title.—

(1) Except as provided in §§319.21 and 319.28, no person acquiring a motor vehicle from the owner thereof, whether such owner be a dealer or otherwise, hereafter shall acquire a marketable title in or to said motor vehicle until he, she, or it shall have had issued to him, her or it a certificate of title to said motor vehicle; nor shall any waiver or estoppel operate in favor of such person against a person having possession of such certificate of title or an assignment of such certificate for said motor vehicle for a valuable consideration. Except as otherwise provided herein, no court in any case at law or in equity shall recognize the right, title, claim or interest of any person in or to any such motor vehicle, hereafter sold or disposed of, or mortgaged or encumbered, unless evidenced by and on a certificate of title duly issued, in accordance with the provisions of this law.

(2) An owner who has made a bona fide sale or transfer of a motor vehicle and has delivered possession thereof to a purchaser shall not by reason of any of the provisions of this law, be deemed the owner of such vehicle so as to be subject to civil liability for the operation of such vehicle thereafter by another when such owner has fulfilled either of the following requirements:

(a) When such owner has made proper endorsement and delivery of the certificate of title as provided by this law.

(b) When such owner has delivered to the commissioner, or placed in the United States mail, addressed to the commissioner, either certificate of title properly endorsed, or the following notice:

319.23 Application for, and issuance of certificate.—

(1) Application for a certificate of title shall be made upon a form to be prescribed by the commissioner and shall be sworn to before a notary public or other officer empowered to administer oaths; and shall be filed with the commissioner and shall be accompanied by the fee prescribed in this law; and if a certificate of title has previously been issued for such motor vehicle in this state, shall be accompanied by said certificate of title duly assigned, or assigned and reassigned, unless otherwise provided for in this law; and if the motor vehicle for which application for a certificate of title is made is a new motor vehicle for

which a manufacturer's statement of origin is required by the provisions of §319.21 (1), the application for a certificate of title shall be accompanied by such manufacturer's statement of origin.

(2) If a certificate of title has not previously been issued for such motor vehicle in this state, said application, unless otherwise provided for in this law, shall be accompanied by a proper bill of sale or sworn statement of ownership, or a duly certified copy thereof, or by a certificate of title, bill of sale or other evidence of ownership required by the law of another state from which such motor vehicle was brought into this state. The said application shall also be accompanied by a sworn statement that the applicant has made a physical examination of said motor vehicle and that the motor and serial numbers are identical with the motor and serial numbers shown in said application.

(3) Upon application for certificate of title of a vehicle previously titled or registered outside of this state, the application shall show on its face such fact and the time and place of the last issuance of certificate of title, or registration, of such vehicle outside this state, and the name and address of the governmental officer, agency, or authority making such registration, together with such further information relative to its previous registration, as may reasonably be required by the commissioner, including the time and place of original registration, if known, and if different from such last foreign registration. The applicant shall surrender to the commissioner all certificates, registration cards, or other evidence of foreign registration as may be in his possession or under his control.

(4) The certificate of title issued by the commissioner for a vehicle previously registered outside this state shall give the name of the state or country in which such vehicle was last previously registered outside this state. The commissioner shall retain the evidence of title presented by the applicant and on which the certificate of title is issued. The commissioner shall use reasonable diligence in ascertaining whether or not the facts in said application are true by checking the application and documents accompanying same with the records of motor vehicles in his office, or otherwise as he may decide; and if satisfied that the applicant is the owner of such motor vehicle and that the application is in the proper form, he shall issue a certificate of title over his signature, but not otherwise.

(5) In the case of the sale of a motor vehicle by a dealer to a general purchaser or user, the certificate of title shall be obtained in the name of the purchaser by the dealer upon application signed by the purchaser, and in all other cases such certificate shall be obtained by the purchaser. In all cases of transfers of motor vehicles, the application for certificate of title, or corrected certificate, or assignment or reassignment, shall be filed within ten days from the delivery of such motor vehicle. An appli-

cant shall be required to pay an extra fee of one dollar, in addition to all other fees and penalties required by law for failing to file such application within said ten days. Licensed dealers need not apply for certificates of title for such motor vehicles in stock or where such are acquired for stock purposes, but upon transfer of same shall either give transferee a re-assignment of the certificate of title on such motor vehicle or shall make notation on the face of the application by transferee as provided in §319.21.

History.—§4, ch. 23658, 1947; §3, ch. 25150, 1949; (2) §1, ch. 28184, 1953; (1) §2, ch. 61-296.
cf.—§319.32 Fees for memorandum certificate.

319.24 Issuance in duplicate; delivery; liens and encumbrances.—

(1) The commissioner shall issue the certificate of title and all corrected certificates in duplicate. One copy shall be retained by him and filed in his office.

(2) The commissioner or his duly authorized deputy shall sign the original certificate of title and all corrected certificates, and, if there are no liens or encumbrances on said motor vehicle, as shown in his records or as shown in the application, shall deliver said certificate to the applicant, or as directed by the applicant, or person, agent or attorney submitting such application. If there are one or more liens or encumbrances on said motor vehicle, said certificate and a form to be subsequently used by the lien holder as a satisfaction shall be delivered or mailed to the holder of the first lien as shown by the records in the office of the commissioner as soon as possible. If the application for certificate shows the name of a first lien holder different from the name of the first lien holder as shown by the records in the office of the commissioner, the certificate shall not be issued to any person until after all parties who appear to hold a lien or liens and the applicant for the certificate have been notified in writing by the commissioner of the conflict. If the parties do not amicably clear up the conflict within ten days from the date of the sending of such notice, then the commissioner shall serve notice in writing by registered mail on all persons appearing to hold liens on that particular vehicle, including the applicant for the certificate, to show cause within ten days from the date the notice is mailed why he should not issue and deliver the certificate to the lien holder whose name appears in the application as the first lien holder without showing any lien or liens as outstanding other than those appearing in the application, or which may have been filed subsequent to the filing of the application for the certificate. If any person other than the lien holder shown in the application or a party filing a subsequent lien should in answer to said notice to show cause appear in person, or by a representative, or in writing, and file a statement in writing under oath that his lien or liens on that particular vehicle is still outstanding with the amount unpaid, then the commissioner shall not issue the certificate to anyone until after such conflict has been settled

by the lien claimants involved or by a court of competent jurisdiction. If not settled amicably, the complaining party shall have ten days to obtain a ruling, or a stay order, from a court of competent jurisdiction, and if no ruling or stay order is issued and served on the commissioner within said ten days, he shall issue the certificate to the original applicant showing no liens except those shown in the application and thereafter. All duplicate certificates and corrected certificates shall only show such lien or liens as was shown in said application and subsequently filed liens that may be outstanding.

(3) The certificate of title shall be retained by the first lien holder until the entire amount of such first lien is fully paid.

(4) If the owner of the motor vehicle desires to place a second or subsequent lien or encumbrance against said motor vehicle, upon written request of the owner as shown by the certificate of title, to the first lien holder by registered mail, such first lien holder shall forward the certificate to the commissioner for such endorsement or endorsements, and the commissioner shall return the certificate to the first lien holder after endorsing such lien on the certificate and on his duplicate. The commissioner shall make the same notation on the memorandum certificate, if one accompanied the notice of lien, and return same to the owner. If the first lien holder should fail, neglect or refuse to forward the certificate of title to the motor vehicle commissioner at the request of the owner within ten days from the date of such request, then the motor vehicle commissioner, on the written request of the subsequent lien holder or an assignee thereof, shall demand of the first lien holder the return of said certificate for the notation of the second or subsequent lien or encumbrance.

(5) If there is a subsequent lien or encumbrance on said motor vehicle, the certificate shall be delivered to the person holding the next lien or encumbrance upon said motor vehicle and be retained by such person until the entire amount of such lien or encumbrance is fully paid.

(6) (a) Upon final payment of any first lien or encumbrance, a satisfaction thereof shall be endorsed in the space provided on the face of the certificate of title and if there are no subsequent liens shown thereon said certificate shall be delivered to the owner, person, firm or corporation paying off said lien or encumbrance and an executed satisfaction on a form to be provided by the commissioner shall be forwarded within ten days to the motor vehicle commissioner by the lien holder who has received payment.

(b) In the event the certificate of title shows a subsequent lien or liens not then being discharged, an executed satisfaction of the first lien, shall be delivered to the person, firm or corporation paying off said lien and the certificate of title showing satisfaction of the first lien shall be forwarded to the commissioner within ten days.

(c) If there are no subsequent liens or encumbrances upon said motor vehicle, the motor vehicle commissioner shall upon receipt of certificate of title showing satisfaction of the first lien, forward to the owner a corrected certificate showing no liens or encumbrances. If there is a subsequent lien not being discharged, the certificate of title shall be delivered to the subsequent lien holder as provided in subsection (5).

(7) When the original certificate of title cannot be returned and evidence satisfactory to the commissioner is produced that all liens or encumbrances have been satisfied, upon application by the owner for a duplicate copy of the certificate upon the form prescribed by the commissioner, accompanied by the fee prescribed in this law, a duplicate copy of the certificate of title, without statement of liens or encumbrances, shall be issued by the commissioner and delivered to the owner.

(8) Any person failing to forward to the motor vehicle commissioner upon written demand of the commissioner such satisfaction of lien and the certificate of title, as required by this section, shall upon conviction, for a first offense, be sentenced to pay a fine of ten dollars and costs of prosecution, and, in default of the payment thereof, shall be imprisoned for not more than five days, and for every subsequent failure to deliver upon demand such satisfaction and the certificate of title be sentenced to pay a fine of twenty-five dollars, and costs of prosecution, and, in default of the payment thereof, shall be imprisoned for not more than ten days.

(9) Any person failing to return to the commissioner a certificate of title, when there are subsequent liens or encumbrances to be noted, or for correction and delivery of corrected certificate as provided by this law, shall upon conviction be sentenced to pay a fine of ten dollars and costs of prosecution, and in default of the payment thereof be imprisoned for not more than five days, and for every subsequent failure to return such certificate of title shall be sentenced to pay a fine of twenty-five dollars and costs of prosecution, and, in default of the payment thereof, shall be imprisoned for not more than ten days; provided, that no person shall be deemed guilty of a violation of this section if he shall forward the certificate of title to the commissioner within ten days of the demand by the commissioner together with the satisfaction of any lien or encumbrance paid to him.

(10) The commissioner shall assign a number for each certificate of title and shall maintain in his office indices for such certificate of title. The commissioner shall not be required to retain on file any bill of sale or duplicate thereof, or notice of lien, or satisfaction of lien, covering any motor vehicle for a period longer than seven years after the date of the filing thereof and thereafter the same may be destroyed.

(11) The commissioner shall in the sending of any notice only be required to use the last known address as shown by the records in his office.

History.—§5, ch. 23658, 1947; §4, ch. 25150, 1949; §§2-5, ch. 28184, 1953; (2) and (6) §1, ch. 59-189; (2) §1, ch. 61-510; (6) (a), (b) §1, ch. 61-450.
cf.—§1.01(13) defines registered mail to include certified mail with return receipt requested.

319.241 Removal of lien from records.—If the owner of a motor vehicle upon which a lien has been filed in the office of the motor vehicle commissioner or noted upon a certificate of title for a period of five years, applies to the commissioner in writing for such lien to be removed from the commissioner's files or from the certificate of title and accompanies said application with evidence satisfactory to the commissioner that the applicant has notified the lien holder by registered mail, not less than twenty days prior to the date of said application, of his intention to apply to the commissioner for removal of said lien, ten days after receipt of the said application, the commissioner may remove said lien from his office files or from the certificate of title, as the case may be, provided, no statement in writing protesting removal of said lien is received by the commissioner from the lien holder within the said ten days period. If, however, the lien holder should file with the commissioner within the said ten days period, a written statement that the said lien is still outstanding with the amount unpaid, the commissioner shall not remove said lien until such time as the lien holder presents a satisfaction thereof to the commissioner.

History.—§1, ch. 59-479.

319.25 Rules and regulations; forms; cancellation of certificates; lists and searches; fees.—

(1) The commissioner may adopt such reasonable rules and regulations as he may deem necessary to insure uniform and orderly operation of this law. The commissioner shall provide and furnish the forms required by this law.

(2) If it appears that a certificate of title has been improperly issued, the commissioner shall have the power and it shall be his duty to cancel same. Upon cancellation of any certificate of title the commissioner shall notify the person to whom such certificate of title was issued as well as any lien holders appearing thereon of said cancellation and shall demand the surrender of such certificate of title, but said cancellation shall not affect the validity of any lien noted thereon. The holder of such certificate of title shall return same to the commissioner forthwith. If a certificate of registration has been issued to the holder of a certificate of title so cancelled, the commissioner shall immediately cancel same and demand the return of such certificate of registration and license plates or tags, and the holder of such certificate of registration and license plates or tags shall return the same to the commissioner forthwith.

(3) The commissioner shall keep on hand a sufficient supply of blank forms, which, except

certificate of title and memorandum certificate forms, shall be furnished and distributed without charge to all persons residing within the state.

(4) The commissioner is authorized, upon application of any person and payment of the proper fees, to prepare and furnish lists containing title information in such form and subject to such territorial division and/or other classification as the commissioner may authorize; to search the records of the bureau and make reports thereof, and to make photographic copies of the bureau records and attestations thereof.

(5) Fees therefor shall be charged and collected as follows:

(a) For lists of title for the entire state, or any part or parts thereof, divided according to counties, a sum computed at the rate of not over five cents per item.

(b) For photographic copies of records and attestations thereof, under the signature and seal of the commissioner, one dollar a copy. Such copy or copies shall be taken as prima facie evidence of the fact therein stated, in any court of the state.

(c) For information relating to the registration and title of a motor vehicle, fifty cents, provided, licensed dealers or individuals, firms or corporations who own or represent a person having an interest in or who hold a recorded lien may obtain without charge oral or written information upon such vehicles up to and including five vehicles in any one day and not more than fifty in any one month.

History.—§6, ch. 23658, 1947; §5, ch. 25150, 1949; (5) §6, ch. 28184, 1953; (5) (c), (d) n. §1, ch. 59-157.

319.26 Theft or conversion of motor vehicles.—

(1) It shall be the duty of the department of public safety, every sheriff, chief of police, constable, or designated officer of the motor vehicle department, having knowledge of a stolen motor vehicle, immediately to furnish the commissioner with full information in connection therewith.

(2) It shall be the duty of the commissioner whenever he may receive a report of the theft or conversion of a motor vehicle, whether the same has been registered or not, and whether owned in this or any other state, together with the make and manufacturer's serial number or motor number thereof, to make a distinctive record thereof and file same in the numerical order of the manufacturer's serial number or motor number with the index records of the vehicles of such make. Such index shall be known as the "Stolen and Recovered Motor Vehicle Index". The commissioner shall prepare a report listing motor vehicles stolen and recovered as disclosed by the reports submitted

to him, to be distributed as he may deem advisable.

(3) The commissioner shall publish once a month a list of all motor vehicles stolen or recovered during the previous month and forward a copy of the same to the director of public safety, a copy to every sheriff and all police departments in Florida. The published list shall not include the converted cars. Such list shall also be forwarded to the secretary of state, or other proper official, in each state of the United States. Before issuing a certificate of title, or corrected certificate, or duplicate, or memorandum certificate, as heretofore provided, the said commissioner shall check the motor, chassis and serial number on the motor vehicle to be registered against the stolen and recovered motor vehicle index.

(4) In the event of the recovery of a stolen or converted motor vehicle it shall be the duty of the owner immediately to notify the commissioner who shall cause the record of the theft or conversion to be removed from his index.

History.—§7, ch. 23658, 1947.

319.27 Application of existing laws; rights of mortgagees, lien holders, etc.; notation on certificate.—

(1) The provisions of §§28.22 and 319.15 shall never be construed to apply to or to permit or require the notice of lien, deposit, filing or other record whatsoever of a chattel mortgage, conveyance intended to operate as a mortgage, trust receipt, conditional sales contract, or similar instrument, or any copy of the same, made hereafter and covering a motor vehicle.

(2) Any mortgage, conveyance intended to operate as a mortgage, trust receipt, conditional sales contract, or other similar instrument made after August 1, 1949, and covering a motor vehicle required to be registered, if a notation of the lien or encumbrance has been made by the commissioner on the face of the certificate of title for such vehicle, shall be valid as against the creditors of the mortgagor whether armed with process or not and subsequent purchasers, mortgagees and other lien holders or claimants, but otherwise shall not be valid against them. All liens, mortgages and encumbrances noted upon a certificate of title shall take priority according to the order of time in which the same are noted thereon by the commissioner. Provided, however, that the lien shown on the application for original certificate of title shall take priority over all liens or encumbrances filed subsequent to the date shown on such application. Exposure for sale of any motor vehicle by the owner thereof, with the knowledge or with the knowledge and consent of the holder of any duly noted lien, mortgage or encumbrance thereon, shall not render the same void or ineffective as against the creditors of such owner, or holder of subsequent liens, mortgages or encumbrances upon such motor vehicle.

(3) (a) The holder of a chattel mortgage, trust receipt, conditional sales contract or similar instrument covering a motor vehicle, upon presentation of the certificate of title issued in

this state, and the surrender of the memorandum certificate previously issued to the owner, if one is available, together with a sworn notice of lien on a form to be provided by the commissioner and showing the following information: (a) date and amount of lien, (b) kind of lien, (c) name and address of registered owner, (d) description of motor vehicle, showing make, type, motor and serial number, and (e) name and address of lien holder; may have notation of such lien made on the face of such certificate of title. Should the original lien holder sell and assign his lien to some other person and such assignee desires to have his name substituted on the certificate of title as the holder of such lien, he may on delivering the original certificate of title to the commissioner and a sworn statement of such assignment, have his name substituted as such lien holder.

(b) Any person, firm or corporation holding a lien for purchase money or as security for a debt in the form of a chattel mortgage, trust receipt, conditional sales contract or similar instrument covering a motor vehicle upon which no certificate of title has been issued in this state, may use the facilities of the office of the motor vehicle commissioner for the recording of such lien as constructive notice of such lien to creditors and purchasers of said motor vehicle in Florida, provided such lien holder files a sworn notice of such lien, in the office of the motor vehicle commissioner, showing the following information, viz: (a) name and address of the owner on the date lien was created, (b) date and amount of lien, (c) description of the motor vehicle, particularly showing make, type, motor and serial number, and (d) name and address of lien holder. Upon the filing of such notice of lien it shall be recorded in the office of the motor vehicle commissioner, and provided further, this section shall not apply to any retain title contract, conditional bill of sale, chattel mortgage, trust receipt or other like instrument covering any new or used motor vehicle floor plan stock of any motor vehicle dealer.

(c) When a Florida certificate of title is first issued on such vehicle the lien information shall be noted on the Florida certificate of title as is now provided for the noting of liens on motor vehicles registered and titled in Florida.

(d) Upon payment of any such lien the debtor, or the registered owner of such motor vehicle, at the time or subsequent to the time a Florida certificate of title is issued on said motor vehicle, shall be entitled to file in the office of such motor vehicle commissioner a satisfaction of such lien.

(e) The motor vehicle commissioner shall be entitled to a fee of one dollar for the recording of each notice of lien and a fee of fifty cents for each satisfaction thereof, both to be paid at the time of the recording of the lien.

(f) Any person, firm or corporation purchasing a motor vehicle upon which no certificate of title has been issued in Florida shall be deemed to be an innocent purchaser for

value, without notice, of any retain title contract, conditional bill of sale or chattel mortgage, provided such purchaser: 1. procures from the person selling such vehicle a sworn statement showing: a. that no lien does exist, b. name and address of owner on the date the current tag on such vehicle was acquired; c. county and state where current tag on such vehicle was acquired; 2. attaches to such sworn statement the certificate of title, if one has been issued. If a certificate of title has not been issued, procures from the seller an oath that no certificate of title has ever been issued, and 3. obtains a telegram or statement in writing from the motor vehicle commissioner, or like officer, in the state of the current tag, to the effect that no lien does exist on said motor vehicle. If facilities do not exist in that office for the recording of liens, then the purchaser shall obtain a telegram or statement in writing from the recording officer of the city or county and state of the residence of the seller as shown by the sworn statement, that no lien against said motor vehicle is of record in such county.

If the law of such state does not require retain title contract, conditional bill of sale or chattel mortgage to be recorded in the office of the motor vehicle commissioner, or like officer in said state, or elsewhere in said state, or noted as a lien on a motor vehicle registration certificate, in order to be enforceable against subsequent purchasers or lienors in said state, then it shall be unnecessary for said purchaser of said motor vehicle to obtain such telegram or statement in writing and, unless said purchaser has actual knowledge of such retain title contract, conditional bill of sale or chattel mortgage, said purchaser shall be deemed to be an innocent purchaser for value, without notice, if said purchaser has otherwise complied with the provisions of this subsection.

(g) Except for the recording of liens upon motor vehicles upon which no title certificate has been issued in this state, the office of the motor vehicle commissioner shall not be a recording office for liens on motor vehicles, and all liens, mortgages and encumbrances, on motor vehicles titled in Florida, shall be noted upon the face of the certificate of title as and when issued in Florida or on a duplicate or corrected copy thereof, as is now provided by law.

(4) The provisions of §§28.22 and 319.15 shall continue to apply to the notice of lien, deposit, filing, refiling, or other record whatsoever of a chattel mortgage, conveyance intended to operate as a mortgage, trust receipt, conditional sales contract, or other similar instrument or any copy of same, made prior to August 1, 1949, and covering a motor vehicle, unless and until the indebtedness evidenced by such chattel mortgage, conveyance intended to operate as a mortgage, trust receipt, conditional sales contract, or other similar instrument, or any copy of same, has been noted

by the motor vehicle commissioner on the certificate of title provided for by this law.

History.—§8, ch. 23658, 1947; §6, ch. 25150, 1949; (3) §10, ch. 26484, 1951; (3) §7, ch. 28184, 1953; (3) §1, ch. 59-340.

319.28 Transfer of ownership by operation of law.—

(1) In the event of the transfer of ownership of a motor vehicle by operation of law as upon inheritance, devise or bequest, order in bankruptcy, insolvency, replevin, attachment, execution or other judicial sale or whenever the engine of a motor vehicle is replaced by another engine, or whenever a motor vehicle is sold to satisfy storage or repair charges, or repossession is had upon default in performance of the terms of a chattel mortgage, conditional sales contract, trust receipt or other like agreement, the commissioner, upon the surrender of the prior certificate of title, or when that is not possible, upon presentation of satisfactory proof to the said commissioner of ownership and right of possession to such motor vehicle, and upon payment of the fee prescribed by law, and presentation of an application for certificate of title, may issue to the applicant a certificate of title thereto. If the application is predicated upon a chattel mortgage, conditional sales contract, trust receipt or other like agreement, the original or a certified copy of the original of such instrument shall accompany the application provided that if the owner under a chattel mortgage voluntarily surrenders possession of such motor vehicle the original of the chattel mortgage shall accompany the application for a certificate of title and it shall not be necessary to institute proceedings in any court to foreclose such mortgage.

When the application for a certificate of title is made by an heir or heirs of a previous owner who died intestate it shall not be necessary to accompany the application with an order of a probate court, provided the applicant files with the motor vehicle commissioner an affidavit that the estate is not indebted and the surviving spouse, if any, and the heirs, if any, have amicably agreed among themselves upon a division of the estate. If the previous owner died testate the application shall be accompanied by a certified copy of the will, if probated and an affidavit that the estate is solvent with sufficient assets to pay all just claims, and if the will is not being probated then by sworn copy of the will and an affidavit that the estate is not indebted.

(2) Only an affidavit by the person, or agent of the person to whom possession of such motor vehicle has so passed, setting forth facts entitling him to such possession and ownership, together with a copy of the journal entry, court order or instrument upon which such claim of possession and ownership is founded, shall be considered satisfactory proof of ownership and right of possession. If the applicant cannot produce such proof of ownership he may submit such evidence as he may have, and the commissioner may thereupon, if he finds the evidence sufficient, issue a certificate of title.

(3) If, from the records in the office of said commissioner, there appears to be any other lien or liens on said motor vehicle, such certificate of title shall contain a statement of said liens, unless such application is either accompanied by proper evidence of their satisfaction or extinction, or contains a statement reciting that at least five days' registered mail notice of intention to seek repossessed certificate of title has been given each lien or encumbrance holder noted as subsequent on the last issued certificate of title. If such notice is given and no written protest to the commissioner is presented within ten days from the date of the giving of the registered notice by any subsequent lien holder, then the certificate of title shall be issued showing no liens. If the former owner or any subsequent lien holder should file within the said ten days a written protest, under oath, then the commissioner shall not issue the repossessed certificate for ten days thereafter. If within said ten days no injunction or other order of a court of competent jurisdiction has been served on the commissioner commanding him not to deliver the certificate, then he shall deliver the repossessed certificate to the applicant or as may otherwise be directed in the application showing no other liens than those shown in the application.

History.—§9, ch. 23658, § 1, 2, ch. 23723, 1947; §7, ch. 25150, 1949; (1) §8, ch. 28184, 1953; (1) §1, ch. 61-446. **cf.**—§1.01(13) defines registered mail to include certified mail with return receipt requested.

319.29 Lost or destroyed certificates; memorandum certificates.—

(1) In the event of a lost or destroyed certificate of title, application shall be made to the commissioner by the owner of said motor vehicle or the holder of a lien thereon for a duplicate copy of same upon a prescribed form and under regulations issued by the commissioner and accompanied by a fee prescribed by this law. Such application shall be signed and sworn to by the person making the same. Thereupon the commissioner shall issue a duplicate copy of said certificate of title to the person entitled to receive the certificate of title under the provisions of this law. Said duplicate copy and all subsequent certificates of title issued in the chain of title originated by said duplicate copy shall be plainly marked across their faces "duplicate copy," and any subsequent purchaser of said motor vehicle in the chain of title originating through such duplicate copy shall acquire only such rights in such motor vehicle as the original holder of said duplicate copy himself had.

(2) Any purchaser of such motor vehicle may at the time of such purchase require the seller of same to indemnify him and all subsequent purchasers of said motor vehicle against any loss which he or they may suffer by reason of any claim or claims presented upon the original certificate. In the event of the recovery of the original certificate of title by said owner he shall forthwith surrender same to the commissioner for cancellation.

(3) The owner of a motor vehicle shown by

the certificate of title may at any time make application to the commissioner for a memorandum certificate, which application shall be made upon a form to be prescribed by the motor vehicle commissioner and signed and sworn to by such applicant. Upon receipt of such application, if the same appears to be regular, together with the fee prescribed by this law, the commissioner shall issue to such applicant a memorandum certificate for said motor vehicle. Whenever the original certificate is delivered to a lien holder, the commissioner shall furnish to the owner a memorandum certificate without application and without any further fees. If the application is made at the time of application for a certificate of title no fee shall be required for the memorandum certificate. In the event such memorandum certificate is lost or destroyed, the holder thereof may obtain a duplicate copy of the same upon the filing of an application therefor with said commissioner on a prescribed form and accompanied by the fee prescribed in this law. In the event of the recovery of the original memorandum certificate by said owner he shall forthwith surrender same to the commissioner for cancellation. Such memorandum certificate shall be effective only for the purpose of obtaining a certificate of registration, is not assignable, and constitutes no evidence of title or of right to transfer or encumber the motor vehicle described therein.

History.—§10, ch. 23658, 1947; §8, ch. 25150, 1949; §11, ch. 25035, 1949.

319.30 Dismantling, destruction, change of identity of vehicle; motor vehicle declared salvage.—

(1) Each owner of a motor vehicle and each person mentioned as owner in the last certificate of title, when such motor vehicle is dismantled, destroyed, or changed in such manner that it is not the motor vehicle described in the certificate of title, shall surrender his certificate of title to the commissioner and thereupon said commissioner shall with the consent of any holders of any liens noted thereon, enter a cancellation upon his records. Upon cancellation of a certificate of title in the manner prescribed by this section, the commissioner may cancel and destroy all certificates and all memorandum certificates in that chain of title.

(2) When the frame or engine is removed from a motor vehicle and not immediately replaced by another frame or engine, or when an insurance company has paid out money as compensation for total loss of motor vehicle, such motor vehicle shall be considered to be salvage. The owner of every motor vehicle model 1955 and those produced thereafter which have been declared salvage shall, within seventy-two hours after such vehicle has been declared salvage, forward to the motor vehicle commissioner the title to the motor vehicle along with the vehicle's serial plate, whereupon the commis-

sioner shall process the title and plate in the manner set forth in subsection one.

History.—§11, ch. 23658, 1947; §9, ch. 25150, 1949; §1, ch. 59-341.

319.31 Requisites of certificates; forms.—

A certificate of title shall be printed upon a special watermarked paper to be selected by the commissioner. The commissioner may by regulation require additional information and may alter, change or modify the following forms shown in this section. He may prescribe such additional forms as may be needed in the administration of this law.

(1) An "autorama" is hereby defined as a place where any antique automobiles manufactured more than twenty years prior to the current year are displayed or exhibited.

(2) That all antique automobiles displayed and exhibited in an autorama located in this state, or used for publicity purposes in connection therewith on the roads and highways of the state, and the owner of said autorama, complying with the state motor vehicle laws relating to registration and licensing of motor vehicles and upon the payment of the regular license fee for tags, as prescribed under §320.08, and the payment of an additional fee of one dollar for each license plate, shall be issued by the state motor vehicle commissioner a distinctive license plate with such letters and numerals as shall be selected by said autorama.

in lieu of the regular license plate. In addition to the payment of all other fees required by law, the applicant shall pay such fee for the issuance of the special license plate as may be prescribed by the state motor vehicle commissioner commensurate with the cost of manufacture. 320.087 Intercity buses operated in interstate commerce; tax.—All intercity motor buses owned or operated by residents or nonresidents of Florida in interstate commerce or combined interstate and intrastate commerce as a result of which operation such motor buses operate both within and without Florida under the authority of the interstate commerce commission, shall be subject to motor vehicle license and registration taxes on a basis commensurate with the use of Florida highways. The state motor vehicle commissioner shall require the registration in Florida of that percentage of intercity motor buses operating in interstate commerce or combined interstate-intrastate commerce, into or through Florida, which the mileage of those intercity buses actually operated in Florida bears to the total mileage all such intercity motor buses are operated both within and without Florida. Such percentage figure, so determined, shall be the Florida mileage factor. In determining the Florida license and registration tax to be paid on the buses actually operated in Florida, under the foregoing method, the state motor vehicle commissioner shall first compute the amount that the Florida license tax would be if all of such buses were in fact subject to Florida tax, and then apply to said amount the Florida mileage factor above referred to. Vehicles exempt under this provision must be equipped with proper plates showing such exempt status.

When a dealer in motor vehicles shall choose to register any motor vehicle he has for sale and secure a regular motor vehicle license tag therefor, he may, upon sale thereof, have the registration and license tag issued for such motor vehicle transferred to the purchaser by making application to the state motor vehicle commissioner and remitting twenty-five cents for each such transfer.

320.131 Temporary tags.—

(1) The motor vehicle commissioner is hereby authorized and empowered to design, issue and regulate the use of temporary tags to be designated "temporary tags" for use in cases where dealer tags may not be lawfully used. No such temporary tag shall be valid for more than five days after it is affixed to a motor vehicle.

(2) The motor vehicle commissioner is hereby authorized and empowered to sell to any franchised dealer, licensed used car dealer, trailer coach dealer or certificated common carrier said "temporary tags" for one dollar each and the proceeds shall be deposited in the general revenue fund.

Such credit will not be valid for use after February 20 of the next year following date of issue.

and assessed on the basis of the foregoing schedule, and the same shall be collected upon the registration of the vehicle as an advance payment on the compensation entitled to be received by the state for the use of the state's highway system, but the person so registering or re-registering said vehicle shall be entitled to a refund of the entire amount collected with legal interest thereon upon making payment to the state for the mileage actually traveled by the vehicle in its use of the state's highway system, to be paid for at the rate of four cents per mile each way, which rate of four cents per mile each way is determined and declared to be a reasonable and just compensation to be charged and collected for the use of the improved highway system provided by the state and its several counties, districts and municipalities for the use of motor vehicles. Proof of the mileage traveled shall be made to the state motor vehicle commissioner, who shall ascertain and determine the number of miles actually traveled by the vehicle, which mileage would be subject to the charge of a mileage tax under this chapter, and the findings of said commissioner when made after full hearing shall be deemed and held to be prima facie just and correct, but subject to judicial review in appropriate proceedings brought for that purpose by the claimant against the state motor vehicle commissioner to enforce such refund.

No such determination when made by the state motor vehicle commissioner shall be disregarded or set aside in any court, except when clearly shown to be unwarranted in law or in fact.

320.27 License required of secondhand dealers; bond.—

***(1) SECONDHAND DEALERS LICENSE.**—No person, firm or corporation shall carry on or conduct in this state the business of buying, selling or dealing in used motor vehicles, unless and until he or it shall have received a license from the motor vehicle commission authorizing the carrying on or conducting of such business; provided, however, that this section shall not apply to any individual isolated transaction, but it shall be assumed that any person, firm or corporation who engages in three or more transactions during any twelve months period is carrying on or conducting said business and shall have such license. However, this section shall not apply to

the sale by banks and finance companies of motor vehicles acquired as an incident to their regular business, nor shall it apply to motor vehicle rental companies who sell motor vehicles to licensed motor vehicle dealers. Such license shall be furnished annually by the motor vehicle commissioner and shall run from January 1.

***(2) APPLICATION AND FEE.**—The application for said license shall be in such form as may be prescribed by the motor vehicle commissioner and subject to such rules and regulations with respect thereto as may be so prescribed by him. Such application shall be verified by oath or affirmation and shall contain a full statement of the name or names of the person or persons applying therefor, the name of the firm or copartnership with the names and places of residence of all members thereof, if such applicant be a firm or copartnership, the name and residence of the principal officers, if the applicant be a body corporate or other artificial body, the name of the state under whose laws the corporation is organized, the former place or places of residence of said applicant and prior business or businesses in which said applicant has been engaged and its location. Such application shall describe the exact location of the place of business. The application shall state whether the place of business is owned in fee simple by the applicant and when acquired or, if leased, a true copy of the lease is to be attached to the application. The applicant shall certify that the location is a permanent one, and is not the residence of the applicant, nor is it a tent nor a temporary stand or other temporary quarters, and that the location affords sufficient unoccupied space upon and within which to adequately store all motor vehicles offered and displayed for sale, and is a suitable place where applicant can in good faith carry on said business and keep and maintain books, records and files necessary to conduct the said business which will be available at all reasonable hours to inspection by the motor vehicle commissioner or any of his inspectors or other employees. Said applicant shall further certify that the business of buying, selling and dealing in motor vehicles is the principal business which shall be conducted at the said location, provided, however, that the foregoing certification shall not apply to any applicant who holds a current license as a secondhand dealer on January 1, 1964. Such application shall contain such other relevant information as may be required by the motor vehicle commissioner. It shall be accompanied by a sworn statement of two reputable persons of the community in which the principal place of business is to be located, certifying to the good moral character of the person or persons applying for such license and certifying that the facts set forth in the application are true. Upon making such application the person applying therefor shall pay to the motor vehicle commissioner a fee of five dollars in addition to any other fees now re-

quired by law. Said commissioner shall if he deems it necessary cause an investigation to be made to ascertain if the facts set forth in said application are true and shall not issue license to said applicant until he is satisfied that the facts set forth in said application are true.

(3) LICENSE CERTIFICATE.—A license certificate shall be issued by the motor vehicle commissioner in accordance with such application when the same shall be regular in form and in compliance with the provisions of this section, and such license, when so issued, shall entitle the licensee to carry on and conduct the business of buying and selling and dealing in used motor vehicles for a period of one year from the first day of January of the current year only at the location set forth in said license.

(4) SUPPLEMENTAL LICENSE.—Any person conducting the business of buying, selling or dealing in used motor vehicles and having received a license therefor, shall obtain a supplemental license for each additional place or places of business not contiguous to the premises for which original license is issued, on a form to be furnished by the commissioner, and upon payment of a fee of five dollars for each such additional location. Only one licensed dealer shall operate at the same place of business.

(5) RECORDS TO BE KEPT BY LICENSEE.—Every such licensee shall keep a book or record in such form as may be prescribed or approved by the motor vehicle commissioner, in which he shall keep a record of the purchase, sale or exchange or receipt for the purpose of sale, of any secondhand motor vehicle, a description of such vehicle, together with the name and address of the seller, of the purchaser, and of the alleged owner or other person from whom such vehicle was purchased or received, or to whom it was sold or delivered as the case may be. Such description shall also include the identification or engine number, maker's number, if any, chassis number, if any, and such other numbers or identification marks as may be thereon and shall also include a statement that a number has been obliterated, defaced or changed, if such is the fact.

(6) CERTIFICATE OF TITLE REQUIRED.—He shall also have in his possession a duly assigned certificate of title from the owner of said motor vehicle in accordance with the provisions of chapter 319 or any other law or parts of laws providing for the issuance of certificates of title, from the time when the motor vehicle is delivered to him until it has been disposed of by him.

(7) PENALTY.—Any person found guilty of violating any of the provisions of this section shall be deemed guilty of a misdemeanor and shall be punished by a fine of not less than \$250.00 nor more than \$1,000.00, or by imprisonment in the county jail for not less than 30 nor more than 90 days, or both, as the court may decree.

(8) EXTENSION OF LICENSE.—The current license held by any secondhand dealer

shall entitle such dealer to engage in such business until December 31, 1957.

(9) The motor vehicle commissioner may suspend or revoke any license issued under the provisions of this section for the violation by the licensee of any of its provisions or any other law of this state having to do with dealing in used motor vehicles or for perpetrating a fraud upon any person as a result of said dealing in used motor vehicles; provided, however, that at least ten days' notice of the intention to revoke such license shall be served by registered mail upon the licensee, fixing time and place of a hearing upon the cause of such revocation and giving to such licensee an opportunity to appear and be heard in defense of such charge and to produce such witnesses as he may deem necessary, and the right to be represented by counsel in such hearing.

(10) BOND.—

(a) Annually before any license shall be issued to a dealer in used motor vehicles, the applicant dealer must deliver to the commissioner a good and sufficient surety bond, executed by the applicant as principal and by a surety company qualified to do business in the state as surety in the sum of three thousand dollars. Such bond shall be in a form to be approved by the motor vehicle commissioner, and shall be conditioned upon compliance with the conditions of any contract in writing made by the dealer relative to the sale or exchange of any vehicle, and to the fulfillment of any written warranty with any purchaser.

(b) Such bond shall be to the motor vehicle commissioner and to his successors in office, and in favor of any purchaser of a motor vehicle, and against any dealer in motor vehicles licensed under this law, or an agent of such dealer, when such purchaser shall suffer any loss or damage as a result of any breach of contract on the part of the dealer or his agent; provided, however, that the aggregate liability of the surety to all such purchasers shall, in no event, exceed the sum of such bond.

(c) Any franchised dealer in new motor vehicles has the option of either delivering to the commissioner the bond above provided for, or in lieu thereof, filing with the commissioner a certified statement of net worth, under oath, signed by the dealer and his bookkeeper reflecting a net worth as of December 31 of the preceding year of not less than fifteen thousand dollars.

Any such retired member who shall fail to return to duty following such order shall forfeit all rights and claims under this law.

(2) The department may, in its discretion, issue a temporary driver's permit to an applicant for an operator's license permitting him to operate a motor vehicle while the department is completing its investigation and determination of all facts relative to such applicant's right to receive an operator's license. Upon the inability of the applicant to furnish such certified copy, a certificate from the public school authorities as to the age of the applicant upon entering school as required by §232.03, or the school authorities of the state where applicant enrolled in school, shall be submitted. Upon inability of applicant to establish a birth date as above provided, then the same may be established in the order of preference as provided by said §232.03.

Such application, and the persons receiving and accepting operator's licenses thereunder, shall be subject to all applicable regulations and restrictions contained in this chapter.

(3) Any negligence or willful misconduct of a minor under the age of eighteen years when driving a motor vehicle upon a highway shall be imputed to the person or head of a family who has signed the application of such minor for a permit or license, which person shall be jointly and severally liable with such minor for any damages caused by such negligence or willful misconduct.

(1) Both parents, if living and having custody of said applicant;

(2) Either parent, if said parent has exclusive custody of said applicant;

(3) The guardian or person having such custody, if neither parent is living.

All such examination fees shall be collected by the department at the time of said examination. The department shall issue proper receipts for said examination fees and shall promptly transmit all funds received by it to the state treasurer for deposit in the general revenue fund.

Such examination shall be held in the county where the applicant resides within not more than ten days from the date application is made. (1) The department, upon issuing an operator's or chauffeur's license, shall have authority whenever good cause appears, to impose restrictions suitable to the licensee's driving ability with respect to the type or special mechanical control devices required on a motor vehicle which the licensee may operate, or such other restrictions applicable to the licensee as the department may determine to be appropriate to assure the safe operation of a motor vehicle by the licensee.

The department may further impose other suitable restrictions on use of the license with respect to time and purpose of use or impose any other condition or restriction deemed necessary towards driver improvement, safety or control of operators and chauffeurs of motor vehicles in this state.

(2) The department may issue a special restricted license or may set forth such restrictions upon the usual license form or the department may issue a restrictive license to operate a motor driven cycle as defined; provided, in no instance shall a restricted license be issued to a minor under sixteen years of age, except on condition that such minor when operating a motor vehicle, except motorcycles, motor scooters or motor bikes, shall be accompanied at all times by a licensed operator or chauffeur who is not less than eighteen years of age and who is actually occupying the front seat beside such minor.

(3) The department may, upon receiving satisfactory evidence of any violation of the restriction of such license, suspend or revoke the same, but the licensee shall be entitled to a hearing as upon a suspension or revocation under this chapter.

(4) It shall be unlawful for any individual, firm, partnership or corporation to act as a sub-agent for the sale and issuance of drivers' licenses or to handle in any manner drivers' licenses for a fee or compensation of any kind in such counties unless they have been appointed as a sub-agent by the county judge as prescribed in this section.

(5) Any individual, firm, partnership or corporation who shall willfully violate any of the provisions of this law shall be guilty of a misdemeanor, and upon a conviction therefor, be fined not less than one hundred dollars for each violation.

(3) Upon the conclusion of such examination or re-examination the department shall take action as may be appropriate and may suspend or revoke the license of such person or permit him to retain such license, or may issue a license subject to restrictions as per-

(b) Has been convicted of a violation of any traffic law which resulted in an accident that caused the death or personal injury of another or property damage in excess of fifty dollars; or,

(c) Is incompetent to drive a motor vehicle; or,

(d) Has permitted an unlawful or fraudulent use of such license or has knowingly been a party to the obtaining of a license by fraud or misrepresentation;

(e) Has committed an offense in another state which if committed in this state would be grounds for suspension or revocation.

(2) There is established a point system for evaluation of convictions of violations of motor vehicle laws or ordinances for the determination of the continuing qualification of any person to operate a motor vehicle. The department of public safety is authorized to suspend the license of any operator or chauffeur upon showing of its records or other good and sufficient evidence that the licensee has been convicted of violation of motor vehicle laws or ordinances amounting to twelve or more points as determined by the point system. The suspension shall be for a period of not more than one year.

(a) When a licensee accumulates twelve points within a twelve month period the period of suspension shall be for not more than thirty days.

(b) When a licensee accumulates eighteen points within an eighteen month period the suspension shall be for a period of not more than three months.

(c) When a licensee accumulates twenty-four points within a thirty-six month period the suspension shall be for a period of not more than one year.

(d) The point system shall have as its basic element a graduated scale of points assigning relative value to conviction of the following violations:

1. Reckless driving wilful and wanton 4 points
2. Leaving the scene of an accident resulting in property damage of more than \$50.00 6 points
3. Unlawful speed resulting in an accident 6 points
4. Passing a stopped school bus 4 points
5. Unlawful speed 3 points

8. Any such moving violation covered above resulting in an accident 4 points

(e) In computing the total number of points, any conviction which occurred more than thirty-six months preceding the last conviction shall not be considered, provided that any point computed at half value at the time this act takes effect shall not be affected.

(f) A conviction in another state of a violation therein which, if committed in this state, would be a violation of the traffic laws of this state except a violation of §322.26, may be

recorded against a driver on the basis of one-half the number of points received had the conviction been made in a court of this state.

(g) In computing the total number of points, when the licensee reaches the danger zone, the department is authorized to send the licensee a warning letter advising that any further convictions may result in suspension of his driving privilege.

(h) The department shall administer and enforce the provisions of this law and may make rules and regulations necessary for its administration not inconsistent with this law.

Upon such hearing a duly authorized agent of the department may administer oaths and may issue subpoenas for the attendance of witnesses and the production of relevant books, papers, and may require a re-examination of the licensee.

(2) Upon such hearing the person whose license has been suspended, cancelled or revoked, may show that such cancellation, suspension or revocation of his license causes a serious hardship and precludes his carrying out his normal business occupation, trade, or employment, and that the use of his license in the normal course of his business is necessary to the proper support of himself or his family. The department may require letters of recommendation from respected business men in the community, law enforcement officers or judicial officers in determining whether such person should be permitted to operate a motor vehicle on a restricted basis for business use only and in determining whether such person can be trusted to so operate a motor vehicle.

(3) Upon such hearing the department shall either suspend, affirm or modify its order and may restore to the licensee the privilege of driving on a limited or restricted basis, for business or employment use only.

(2) In prosecutions for the offense of driving a motor vehicle while under the influence of intoxicating liquor, the following provisions shall apply:

The driver may, within thirty days of such revocation by the department, petition the court for further hearing on the period of revocation and the court shall be authorized in such case at its discretion to reopen the case and to determine the period of revocation within the limits specified in said subsection (2)(a).

(c) Any person having his license revoked or suspended by the department of public safety may during the period of said revocation or suspension apply to the department of public safety for review of said revocation or suspension and restoration of his driving privileges. Upon receipt of said application the department of public safety shall provide for a hearing after notice to said applicant within thirty days and may after said hearing and such investigation as may be made, restore the driving privileges subject to such conditions and restrictions as the department may deem proper which shall not extend beyond the original period of revocation or suspension.

(d) The forfeiture of bail bond, not vacated within ten days, in any prosecution for the offense of driving while under the influence of intoxicating liquor to the extent of depriving the defendant of his or her normal faculties, shall be deemed equivalent to a conviction for the purposes of this paragraph and the department shall forthwith revoke the defendant's driver's license or privilege for the maximum period applicable under subsection (2)(a); provided, if the defendant shall subsequently be convicted of said charge, the period of revocation for such conviction shall not exceed the difference between the applicable maximum under subsection (2)(a) and the period imposed under this subsection that shall have actually expired.

(2) **HEARING AND NOTICES.**—Upon filing of said application and payment of said fee, the commission shall fix a time for hearing said application, which shall not be less than twenty days nor more than sixty days subsequent to the filing of said application, and no application shall be granted or certificate of convenience and necessity issued without a hearing by the commission. 323.041 Transfer of certificate; modification, etc.—

(1) No certificate of public convenience and necessity authorizing common carriage or contract carriage, may be sold, assigned, or transferred by the holder to another, until the same has been approved by the commission as herein provided. This section shall apply with like effect to the transfer of control of a corporate certificate holder through transfer of stock ownership or otherwise.

(2) When any such certificate is proposed to be sold, assigned or transferred, or when stock of a corporate certificate holder is proposed to be assigned, sold, transferred or purchased and such will effect a transfer of control of the corporation, all of the parties, nominal and actual, to such transaction shall jointly file an application with the commission, upon forms, and according to rules governing form and substance thereof adopted by such commission. Such application shall set forth the details of the transaction, specifying the consideration and method of payment, the date such assignment, sale or transfer is desired to be consummated, the financial statement of the transferee, the certificate authority, if any, held by the transferee from any regulatory commission of this state, of the United States, or of any state or district of the United States, and any other pertinent facts. Such application shall be accompanied by payment of the same charge or filing fee as is required upon the filing of an application for a new or original certificate. In such application the proposed transferee shall agree to pay all taxes, assessments and obligations which may be due or owing to this state

by the transferror to the date of the entry of the order by the commission approving such transfer, as a condition precedent to such approval. Upon the filing of such petition, the commission shall issue and serve upon all railroads and all certificate holders operating under certificates of the commission authorizing transportation in the territory involved of any commodities included in the certificate sought to be assigned or transferred, a written notice which notice shall contain the general pertinent facts of such application. Said notice shall require any objections or protests to such transfer to be filed in writing with the commission by a date to be fixed in such notice. Any objection or protest filed shall state fully the basis therefor. In the event no such written protest is filed with the commission within the time fixed in such notice, then and in that event, the commission may consider said petition and act upon the same as an ex parte matter without the necessity of public hearing, and for the purpose of such consideration, the commission may require either or both of the parties to such proposed transfer to appear before it for the purpose of giving testimony, or to produce any such records or information as the commission may direct and find necessary to consider in passing upon said petition.

(3) In the event one or more written protests stating grounds therefor are filed with the commission as herein provided within the time fixed in said notice, then the commission shall cause a public hearing to be held, and shall issue and serve upon the applicants and all persons who have filed such protests a notice of such hearing, containing the general pertinent facts of such application, the date of such hearing to be not less than fifteen days following the date of such notice. At such public hearing, persons who have filed written protests as aforesaid shall have the right to appear and be heard, and to offer testimony and evidence in support of or in protest to the granting of such application. Following such hearing, if the commission finds and determines that such sale, assignment, or transfer, is not contrary to the public interest, and that the certificate has not been dormant for more than six months, it shall enter an appropriate order in the premises. The commission shall have no power or authority, directly or indirectly, to grant or issue any temporary or interim approval of a sale, assignment, or transfer as aforesaid, but shall have power only to approve or disapprove same, finally, and after hearing if protests are filed as aforesaid and hearing is requested.

(4) A certificate may be divided as to route or territories, and part thereof transferred, sold, or assigned, provided the commission finds that such routes or territories are clearly severable and the division thereof does not permit the creation of duplicate operating rights. No division of certificate rights, by sale, transfer or assignment based upon the class or classes of property authorized to be transported shall be approved, unless it appears to the satisfaction of the commission that the part of the operat-

ing rights sought to be transferred, sold or assigned is, because of a difference in the nature or type of the service rendered, considering the type of vehicle and characteristics of the customers served, clearly distinguishable and severable from the remaining operating rights; provided, however, certificates which authorize transportation of general freight or of a specified general class of freight which class would include other classes as an integral part thereof may not be severed as to any commodity or class falling within such overall general class specified in the certificate.

(5) When the transfer of any certificate, or the sale of capital stock of a corporate certificate holder, as herein provided, is approved by the commission, the commission is hereby empowered to reasonably alter, restrict or modify the terms and provisions of such certificate, or impose restrictions on such transfer where the public interest may be best served thereby, or the existing transportation facilities within the territory or on the route involved may be safeguarded or improved in the public interest.

(6) The order of the commission approving any sale, assignment, or transfer shall direct immediate cancellation of the certificate and reissuance thereof to the transferee unless alterations, restrictions or modifications of the terms and provisions of such certificate are imposed in conjunction with such approval. In such latter event the commission order of approval shall require the transferee to notify it in writing within a period of time fixed by the commission whether or not it will accept the certificate as so altered or restricted. If such notification is not given, or if given in the negative, the commission shall enter its order canceling and revoking its approval, otherwise the commission shall thereafter cancel the certificate and reissue it to the transferee.

(7) Notwithstanding any of the provisions hereof, any executor, administrator, receiver, trustee in bankruptcy or in reorganization, or other court officer, shall be entitled, as judicial assignee, to operate the business of the certificate holder, without the approval of the commission, upon filing with the commission a certified copy of this order of appointment, but any sale, transfer, or assignment by any such judicial officer shall be subject to the terms and conditions hereof.

History.—§1, ch. 57-260.

323.042 Multiple transportation authority prohibited.—No motor carrier shall acquire or hold a common carrier certificate and a contract carrier certificate or a for hire permit at the same time, or a contract carrier certificate and a for hire permit at the same time, unless the commission shall first find after a public hearing that such dual authority or multiple authority is not contrary to the public interest; provided, however, that this prohibition shall not apply to motor carriers holding such dual or multiple authority on May 26, 1959.

History.—§1, ch. 59-146; §1, ch. 63-496.

***323.05 Permit to operate motor vehicle for hire.—**

(1) No motor carrier shall operate any for hire motor vehicle on any public highway in this state in the transportation of persons or property for compensation without first having obtained from the commission a permit, which permit shall issue as a matter of right and of course when the provisions of this chapter and the laws of the state touching such motor vehicle operation have been complied with by the applicant.

(2) The permit so issued shall subject the applicant to the rules and regulations of the commission respecting the operation of such motor vehicle over state highways for compensation, and it shall also subject such applicant to the mileage tax imposed by this chapter, which mileage tax shall be collected by the state comptroller and distributed by him in the same manner and for the same purposes as motor vehicle auto license taxes are distributed. Provided, however, in lieu of such mileage tax, all motor carriers operating taxicabs under this chapter shall procure a permit therefor from the commission and shall pay to said commission at the time application is made for said permit a tax of twenty-five dollars per annum. Said permit shall entitle such motor carrier to which it is issued to register any number of taxicabs for operation under this chapter upon the payment of an annual tax to said commission of five dollars for each such taxicab so registered. For hire permits and registrations thereunder for the operation of taxicabs shall expire on June 30, annually, but may be renewed upon proper application and the payment of the annual tax provided for herein. In the event any application is denied the annual tax accompanying said application may be refunded. Provided, further, that the term taxicab as used herein shall be construed to include every motor vehicle of nine passenger capacity or less, including the driver, subject to municipal regulation, engaged in the general transportation of persons for hire, not on regular schedule or between fixed termini or over regular routes, but over the streets generally of said municipality, with occasional unsolicited trips beyond the boundaries thereof. Any and all annual taxes so collected shall be paid to the state treasurer to the credit of the general revenue fund. Such taxes shall be deemed to be compensatory for the use of the public highways of this state just as mileage taxes under §323.25.

(3) No such permit shall be required in respect to the operation of for hire motor vehicles wholly within the limits of any incorporated city or town and the suburban territory immediately adjacent thereto, when such for hire carriage is regulated by the legislative body of such city or town. The ordinances, rules or regulations adopted by the legislative body of such

city or town shall be applicable to for hire motor vehicles within the suburban territory immediately adjacent thereto and such cities and towns shall have police power to enforce such ordinances, rules or regulations in such suburban territory immediately adjacent thereto, over the roads and highways in such territory to the same extent as if the territory was within the corporate limits of such towns or cities. No such permit shall be required in respect to the private carriage or distribution of his own goods, wares or merchandise over public highways by any person using his own motor vehicles in such carriage.

(4) For hire carriage of passengers shall not be permitted or authorized by the commission under this section or under this chapter in motor vehicles of a greater passenger-carrying capacity than nine, including the driver, and all for hire permits in passenger carriage issued by the commission hereunder shall specifically limit the authority so granted to such motor vehicles. In the interest of safety on the highways and safety of the traveling public, all carriage of passengers over public highways, for compensation, in groups of more than eight and in charter carriage as defined in this chapter, in a single motor vehicle, shall be deemed to be charter carriage and shall be authorized and permitted only in motor buses and as a part of the common carrier service of common carriers of passengers operating under certificates of public convenience and necessity issued under the provisions of this chapter and the rules and regulations of the commission applicable to common carriers of passengers.

(5) Application by a motor carrier for a permit to operate for hire over the public highways of this state shall be in writing verified by the applicant and shall specify among other things the following matters:

(a) The name and address of the applicant and the names and addresses of its officers, if any.

(b) A brief description of each vehicle which the applicant proposes to operate and the for hire license tag therefor issued or to be issued as to such vehicles.

(c) An agreement on the part of the applicant to keep such records as may be prescribed by the commission, and to abide by the terms of the permit issued and by the rules and regulations of the commission as to type and size of equipment, safety appliances and devices, and regulations as to load which may be reasonably prescribed by the commission from time to time, within the limits prescribed by law as to such motor vehicles.

(6) Upon the filing of such application for permit the commission shall issue the same as of course and without notice of public hearing; provided, the commission may prescribe such reasonable rules, regulations and restrictions in such permit as it may deem necessary for the safety and conservation of the highways and the protection and preservation of transportation facilities as a whole in the territory involved. In its consideration of such questions

*This section shall not affect the validity of any permit specifically authorizing for hire or charter carriage approved for issuance or issued by the commission prior to May 15, 1949, but any such permit so issued may not hereafter be extended or expanded beyond its original terms and limitations except in accordance with the provisions of §§323.01, 323.05, 323.14.

the commission may require public hearing on the application and in such hearing may consider questions of public convenience and necessity and the effect of the proposed service or carriage, if granted, on existing transportation facilities and on transportation as a whole within the territory proposed to be served and may deny or restrict or modify the proposed service if the same is found to be contrary to the public interest. Such permit shall be subject to suspension or revocation at any time by the commission upon hearing when it shall appear that the holder thereof has failed to keep records as prescribed by the commission, and to comply with the laws of the state touching motor vehicle operations or with the rules and regulations of the commission as to the operation of such vehicles over public highways.

(1) A motor carrier may apply for a for hire permit to transport for compensation road building and construction aggregates between all points within a single county, which permit shall issue as a matter of right and of course when the provisions of this chapter and laws of the state touching such motor vehicle operation have been complied with by the applicant.

(2) The permit so issued shall subject the applicant to the rules and regulations of the commission respecting operations of such motor vehicle, over state highways for compensation, except that said motor carrier shall pay a permit fee of one hundred dollars and an annual road tax of fifty dollars on each vehicle in lieu of any mileage tax imposed by §323.15, and with the same immunity from paying any additional taxes as provided in §323.031.

(3) The permit so issued shall restrict the applicant's equipment used in transporting road building and construction aggregates between all points within one county named in the permit.

(4) The permit shall require that each piece of equipment registered by the permit holder shall carry an auto license plate with the county designation on the license plate the same as the county in which the permit holder is authorized to operate, except as may be provided by the rules of the commission in event of purchase of second hand equipment with a different county license plate.

(5) Any motor carrier holding a for hire permit under this section for single county operations shall not be granted any other permit for any other county, and shall not be allowed to use its equipment in any other county, except by lease to a limited common carrier of road building and construction aggregates provided that on such vehicle so leased there shall be paid one hundred dollars per vehicle, so as

to comply with the road tax herein imposed on vehicles of limited common carriers.

(6) All motor vehicles and trailers of holders of for hire permits authorizing a single county operation shall have the name and address, including the county of the permit holder, lettered on the sides of the aforesaid equipment, under appropriate rules of the commission.

(7) This section shall not apply to motor vehicles having a load capacity of ten tons or less.

323.06 Bond required; conditions; insurance policy may be substituted; self-insurance may be furnished when authorized.—

(1) The commission shall, at the time of granting a certificate or permit to any motor carrier for transporting persons or property, fix and determine the amount of the bond to be given by the applicant for the protection, in case of passenger vehicle, of the passengers and baggage carried in said vehicle and of the public against injury caused by negligence of the person or corporation operating the said vehicle, and in case of the vehicle transporting freight, for the protection of the said freight so carried if in common carriage, and of the public against injuries received through negligence of the person or corporation operating said freight-carrying vehicle; the applicant shall procure and file with the commission the said bond for liability and property damage, including loss of baggage when same has been checked in accordance with the rules prescribed by the commission, giving the said bond or bonds in a surety company authorized to do business in the state, or deposit, in lieu of said surety, bonds of the United States government or of any city or county in the state approved by the said commission.

(2) The said bonds shall be conditioned to indemnify passengers and the public receiving personal injuries by any act of negligence, and for damages to property of any person other than the assured; and such bonds shall contain such conditions, provisions and limitations as the commission may prescribe, and said bonds shall be payable to the governor of the state, or his successor in office, and shall be for the benefit of and subject to action thereon by any person or persons who shall have sustained an actionable injury protected thereby, notwithstanding any provisions in said bond to the contrary, and every bond or insurance policy given shall be conclusively presumed to have been given according to and to contain all of the provisions of this chapter.

(3) And no certificate or permit shall be valid until such bond has been filed and approved, and no such bond so accepted shall be canceled by the company issuing the same except upon thirty days notice to the commission; and upon such notice being given by the company issuing said bond or bonds, the certificate or permit of the person or corporation giving bond shall be revoked, unless a new bond shall be filed and accepted before the date for the cancellation of the said bond; provided, how-

ever, that the applicant may, in the discretion of the commission, be allowed to file in lieu of bond an insurance policy, which shall be approved by the commission, with some casualty or insurance company authorized to do business in the state; and provided, further, that no motor carrier shall be required to file a bond or insurance policy under this section if such company shall be found by the commission in its reasonable discretion to be qualified to act as self insurer under rules and regulations prescribed by the commission permitting motor carriers to become self insurers on a showing of continued net worth sufficient to reasonably protect the public against loss or damage for which the company may be liable.

323.07 Commission given authority to regulate motor carriers, and to adopt rules and regulations.—The commission may supervise and regulate every motor carrier in the state operating under the authority of this chapter, fix or approve the rates, fares, charges, classifications, rules and regulations for such motor carriers, regulate the service and safety of operations of each such motor carrier, prescribe a uniform system and classification of accounts to be used, which among other things, shall set up adequate depreciation charges; require the filing of annual and other reports and all other data by said motor carriers; and supervise and regulate motor carriers in all other matters affecting the relationship between such companies and the traveling and shipping public. The commission may by order adopt rules and regulations applicable to any and all such motor carriers, provide for the taking of testimony by depositions, prescribe rules of procedure and exercise all judicial powers, issue all writs and do all things necessary or convenient to the full and complete exercise of its jurisdiction or the enforcement of its orders and requirements. The commission may prescribe qualifications for the appointment of hearing examiners and the procedure before hearing examiners, provided, however, that the commission shall not be bound by the findings of fact or conclusions of law of such hearing examiners, and shall have authority to take additional testimony and evidence, and to grant and hear oral arguments and rehearings in all cases. Hearings may be held before the commission, a commissioner designated by the commission or a hearing examiner of the commission at its offices in Tallahassee or at any other point in the state. The commission, in the exercise of the jurisdiction conferred upon it by this chapter, may make orders and prescribe rules and regulations affecting such motor carriers, notwithstanding the provisions of any ordinance or permit of any incorporated city or town, city and county, or county, or village, and in case of conflict between any such order, rule or regulation, and such ordinance or permit, the order, rule or regulation of the commission

shall in each instance prevail. No municipality shall have the right to require any such motor carrier to furnish any bond or insurance policy, or pay any license, fee or tax except as herein provided.

323.08 Filing of rates and charges; subsequent changes and variations thereof; exclusion of armored car services.—

(1) Every motor carrier holding a certificate of public convenience and necessity for common carriage shall maintain on file with the commission a schedule of the rates, fares, charges and classifications, if any, and a time schedule, if any, of all motor vehicles operated under such certificate. The commission shall require each such motor carrier to keep open for public inspection at designated offices so much of said schedules, rates, fares, charges and classifications, if any, as well as time schedules, as it deems necessary for the public information.

(2) Whenever such rates or fares or time schedules are found to be unreasonable, the commission, upon its own motion, or upon complaint, shall upon hearing as herein provided, prescribe reasonable rates and time schedules to take the place of those found unreasonable, and such new rates shall be filed in place of the rates and schedules superseded. No rates or time schedules filed with the commission shall be changed by any such motor carrier without an order of the commission sanctioning the same. It is unlawful for any motor carrier to collect or receive a greater or less rate or charges for any service rendered by it than the transportation charge shown in the schedules on file with the commission, and no new rates shall take effect until the date named by the commission.

(3) The provisions of subsections (1) and (2) of this section and §323.19, shall not be applicable to common carrier armored car services now or hereafter holding certificates of public convenience and necessity authorizing the transportation of money, securities, and other valuables; and such carriers, because their transportation is more or less incidental to the protective services afforded, require separate negotiation with each person desiring to make use of their services, shall be termed limited common carriers, and such carriers shall not be restricted with requirements for domiciling equipment, when their equipment is used in transportation that is under the jurisdiction of the commission.

(4) Because of the unusual conditions under which deliveries are sometimes required to be made, which may require separate negotiations with each person desiring to make use of their services, the provisions of subsections (1), (2) of this section, and §323.19(1) and (2), shall not be applicable to common carriers of road building and construction aggregates, now or hereafter holding certificates of public convenience and necessity or for hire permits in

one designated county authorizing the transportation of any of such aggregates, and such carrier shall not be required to file a tariff and holders of limited common carrier certificates shall not be restricted with any requirements for domiciling equipment. This subsection shall not apply to motor vehicles having a load capacity of ten tons or less.

323.09 Carrier may be fined, permit or certificate revoked, etc.—

(1) Whenever any motor carrier is found to be violating the provisions of this chapter or any of the rules or regulations prescribed by the commission, or any of the laws of the state touching motor vehicle operation over the public highways, the commission may, upon complaint or upon its own motion, issue its orders to the said motor carrier notifying it to appear before the commission at a fixed time and place at which time and place the commission shall investigate such violations, and if it shall be satisfied after such hearing that said motor carrier has violated or refused to observe the laws of this state touching motor vehicle operations or any of the terms of the certificate or permit issued to such motor carrier, or any of the commission's orders, rules or regulations, the commission may suspend, revoke, alter or amend any certificate or permit issued to such motor carrier, or said commission may in its discretion, impose a penalty for each such offense of not more than \$5,000.00; provided, either one or more of such impositions may be imposed alternately or cumulatively, which penalty shall constitute a lien upon real and personal property of said motor carrier, prior to all other liens except those for taxes due the state, enforceable by the commission as statutory liens under chapter 86, the proceeds of which shall be deposited to the credit of the commission to be used in the administration of this chapter; provided, that the holder of said certificate or permit shall have the right of review by the supreme court upon filing therewith a petition for issuance of a writ of certiorari in the manner and within the time prescribed by the Florida appellate rules.

(2) If the commission shall determine that the holder of any such certificate or permit has failed to keep correct mileage books and records, or to make correct mileage reports of the mileage traveled over public highways in carriage authorized by its certificate or permit, or to pay mileage taxes as hereinafter provided, the commission shall forthwith issue citation against such motor carrier requiring it to appear before the commission at a fixed time and place and show cause, if any, why it should not have penalty imposed against it or its certificate or permit revoked or suspended for a fixed period, as hereinbefore provided, in the discretion of the commission.

323.10 Dormant certificates and rights; revocation of certificates.—

(1) Whenever it shall appear that any motor carrier, holding a certificate of public convenience and necessity for the transportation of persons or property on fixed schedules, or over regular routes, has failed to operate, without prior formal approval of suspension by order of the commission, over any route or schedule, or to any point or terminal for a period of six months, such certificate is hereby declared to be dormant and abandoned, and the commission, upon its own motion, or upon the petition of any existing certificate holder, shall, not less than twenty days after mailing notice to the certificate holder by registered or certified mail, return receipt requested, at his last address shown by the commission files, enter an order confirming the cancellation and revocation of such certificate, or the part thereof covering the route, territory or terminals involved.

(2) Whenever it shall appear that any motor carrier holding a certificate of public convenience and necessity or permit issued under any provision of this chapter has failed to operate without prior formal approval of suspension by order of the commission, for a period of six months, such certificate or permit is hereby declared to be dormant and abandoned, and the commission, upon its own motion, or upon the petition of any existing certificate holder, shall, not less than twenty days after mailing notice to the certificate holder by registered or certified mail, return receipt requested, at his last address shown by the commission files, enter an order confirming the cancellation and revocation of such certificate.

(3) The failure of the certificate holder to report and pay the mileage tax levied and prescribed for such operation for such period of six months shall be deemed prima facie evidence of the failure of said certificate holder to operate over such route or schedule or to such terminals for such period; provided, however, that the payment of such mileage tax shall not create any presumption of actual operation, and the burden of proof shall always be upon the certificate holder, when challenged hereunder, to establish by records and testimony the continuity of bona fide service during the period in question.

(4) Upon the entry of such foregoing order, the commission shall send a copy of same by registered or certified mail, return receipt requested, to the certificate holder at his last address shown by the commission files and said certificate holder may file a formal written petition with the commission requesting a hearing upon such order, but no such petition may be filed or request made after the expiration of ninety days immediately subsequent to the date of mailing of such order.

(5) Before the commission shall have jurisdiction to consider such petition, it shall require the petitioning certificate holder to pay to it the sum of one hundred dollars toward the costs of the public hearing hereinafter pro-

vided. Upon the filing of such petition, the commission shall cause a public hearing to be held and shall cause written notice of such hearing to be mailed in the usual manner to all holders of certificates of public convenience and necessity issued by the commission, at least fifteen days prior to the date of such hearing. Following such hearing the commission may reinstate such certificate if good and sufficient cause be shown, or shall affirm its order of revocation.

(2) Suitable side and rear lights on all trailers or semitrailers clearly marking the dimensions of such trailers.

(3) Suitable coupling devices on all trailers authorized for use under its certificates or permits assuring accurate following trackage on the part of such trailer and deviation of not more than three inches, as hereinbefore provided. Such coupling devices to be so designed with safety chains that the pendle bar, if detached while the vehicle is in motion, will remain suspended and the trailer remain coupled.

(4) Driver vision mirrors so adjusted as to

afford the driver ready view of all traffic approaching from the rear without load interference.

(5) The name and city or town address of the certificate or permit holder, as well as the number of such certificate or permit in readily visible and readable form.

323.15 Mileage tax; advance deposits; lien for taxes; enforcement of lien; records; statements, etc.—

(1) There shall be collected from every motor carrier as herein defined to which has been granted a certificate of public convenience and necessity or a permit authorizing it to engage in the transportation of passengers or freight, or both, and from every such motor carrier to which no such certificate or permit has been granted but whose transportation operations are not exempt from the provisions of this chapter, a mileage tax of one-half cent per mile on all buses with a capacity of ten passengers or less and mileage tax of three-fourths cent per mile on all buses with a capacity of not more than twenty passengers nor less than ten passengers, and a mileage tax of one cent per mile on all buses of the capacity of more than twenty passengers nor less than ten passengers and a mileage tax of one cent per mile on all buses of the capacity of more than twenty passengers; and a mileage tax of one-half cent per mile on all trucks or trailers with a factory rated load capacity of less than five thousand five hundred pounds, and a tax of one cent per mile on all trucks or trailers with a factory rated load capacity of five thousand five hundred pounds or more, coming within the terms of this chapter, for every mile traveled for compensa-

tion by the motor vehicles of such motor carrier over the public highways of this state; and a mileage tax of one-half cent per mile on any tractor-semitrailer combination, for each mile traveled for compensation over the public highways of the state; provided, however, that at the time of issuing any permit hereunder, the commission may prescribe a reasonable deposit to be paid in advance to apply as an advance payment upon the mileage tax herein levied; which said amount shall be credited to said holder of such permit and the difference between the said amount and the correct amount of said tax shall be adjusted with the said holder of such permit. The mileage tax herein provided shall constitute a lien upon the real and personal property of said motor carrier prior to all other liens except those for taxes due the state, enforceable by the state as statutory liens under chapter 86.

(2) In order to ascertain the bus mileage of every passenger bus and the truck mileage of every freight truck traveled by the holders of certificates or permits, the commission shall prescribe the records to be kept by said holder of such certificate or permit and within thirty days of the end of each current month the said holder of a certificate or permit shall file with the commission a statement verified by an officer, if the holder of such certificate or permit is a corporation, or if the holder of such certificate or permit is a person, then by such person, showing the mileage made by said holder of such certificate or permit during the said month and shall at the time of filing such report pay to the commission the tax reflected by such report. The mileage tax provided for in this section shall be in lieu of all other taxes and fees of every kind, character and description, state, county or municipal, including excise and license taxes levied or imposed against such motor carriers, or the operation of such business and facilities thereof, or their property, except ad valorem taxes levied upon the property other than motor vehicles of such motor carriers and except the gasoline tax and motor vehicle fuel tax, and except the motor vehicle license tax now or hereafter provided for by law.

(a) Limited common carrier certificate fee, five hundred dollars;

(b) For hire permit, single county operation fee, one hundred dollars; provided, however, that the amount so paid as a certificate tax or permit fee shall be refunded if the certificate or permit is not granted.

The certificate or permit, if issued, shall entitle such motor carrier to which it is issued to register any number of motor vehicles for operation under this chapter, upon the payment of an annual road tax to the commission of one hundred dollars for each vehicle so registered. The registration thereunder for the operation of the motor vehicles shall expire on June 30 of each year, but may be renewed upon proper application and the payment of the annual road tax provided herein. Any and all annual road taxes so collected shall be paid to the commission and shall be distributed in the same manner and for the same purposes as for the mileage tax collected under §323.15. Such road taxes shall be deemed to be compensatory for the use of the public highways of this state just as mileage taxes under §323.25, and in lieu of such mileage tax.

(2) The road tax provided for in this section shall be in lieu of all other taxes and fees of every kind, character and description, state, county or municipal, including excise and license taxes levied or imposed against such motor carriers, or the operation of such business and facilities thereof, or their property, except ad valorem taxes levied upon the property other than motor vehicles of such motor carriers and except the gasoline tax and motor vehicle fuel tax, and except the motor vehicle license tax now or hereafter provided for by law.

(3) Any motor carrier may lease to another motor carrier any of its motor vehicles registered under this chapter without the issuance of a new or additional permit for any such motor vehicle; however, the motor carriers shall abide by other laws and all rules of the commission with respect to such leasing.

(4) This section shall not apply to motor vehicles having a load capacity of ten tons or less.

323.16 Disposition of moneys collected.—The commission shall keep a separate account of all moneys collected under this chapter. Twenty-five per cent of such funds shall be deposited in the general revenue fund. Sufficient moneys for the administration of the provisions of this chapter shall be included in the biennial appropriations act. All the balances shall be distributed as follows:

(1) Twenty-five dollars annually from each

certificate holder to all incorporated cities and towns where any such motor carriers maintain depots, warehouses, stations or agencies in such city or town.

(2) The remainder of such fund shall be placed in the state treasury to the credit of the state roads distribution trust fund and shall then be paid over monthly by the commission to the state board of administration and credited among the several counties, each county being credited with the same percentage of the whole fund that it received for the year 1944, to be used by the said state board of administration in the same manner and for the same purpose as gasoline tax monies are used by said board under §16, Art. IX of the state constitution; provided, however, if the foregoing distribution of said tax, or any part thereof, should be held unconstitutional, then and in that event said mileage tax shall be paid into the general revenue fund of the state.

In conformity with accepted standards of safety in relation to the effect of fatigue upon a driver's ability to operate his vehicle safely, the commission may, as deemed necessary or advisable, classify and adjust the maximum number of hours of duty of a driver or chauffeur with relation to the intervals and extent of periods of rest taken between or during duty periods, conditions under which rest is taken during duty periods, number of drivers used during a given period, actual driving time as distinguished from time spent performing other duties, condition, type, and equipment of vehicles driven, time of day in which driving is done, conditions of highways, weather, traffic, and other matters or conditions of a similar nature.

323.21 Clerks, investigators, etc.; employment and powers.—The commission shall employ such necessary clerks, investigators, auditors, attorneys, hearing examiners, and other employees, on such terms and conditions as it

shall deem advisable and necessary to carry out the provisions of this chapter. All investigators employed by the commission are vested with the powers of deputy sheriffs in all counties of the state and authorized to stop any motor vehicle on the highways and to check and inspect any such motor vehicle, including any trailer or semitrailer attached thereto, and to inspect any documents on or pertaining to such motor vehicle, trailer or semitrailer, or their use, and to inspect any bills of lading, manifests or any other shipping documents relating to the contents of such motor vehicle, trailer or semitrailer, for violation of this chapter or any motor vehicle operating under a certificate or permit issued by the commission, for violation of a rule of said commission or the laws touching motor vehicle operation, or use, and to make arrests for any such violation in the same manner as such arrest could be made by deputy sheriffs of the several counties of the state. Said investigators are also authorized to issue citation under rules and regulations of the commission to a motor carrier operating under the commission's jurisdiction or such company's agent directing said company to appear before the commission at a time and place named in said citation in answer to a charge of violation of a statute of the state, rule or order of the commission. Any such identifying device prescribed and furnished by the commission shall be conspicuously displayed at all times upon each motor vehicle authorized for operation under this chapter in such manner as may be prescribed from time to time by the commission. Transfers of any such identifying devices from one vehicle to another are hereby prohibited. The fees derived from the issuance of such identifying devices shall be paid into the state treasury to the credit of the general revenue fund.

323.24 Unlawful operation may be enjoined.

—Any motor carrier which operates upon the highways of this state or any transportation broker who operates within this state, without first having obtained from the public utilities commission a certificate, a permit, or a license as prescribed by this chapter, or who so operates after such certificate, permit, or license is cancelled, or who violates any of the provisions of this chapter, or any order, decision, rule or regulation, direction, demand or requirement, of the commission in relation thereto or any part or provision thereof, may be enjoined by the courts of this state, from any such violation or such unlawful or unauthorized operation within this state, at the instance of the commission or any citizen or taxpayer of this state. Provided further, that in said injunction proceedings the court may order and require such motor carrier to render an account showing the amount of mileage taxes which it should have paid the state for the operations sought to be enjoined, and the court shall have power and jurisdiction to enter appropriate judgment to enforce or compel the payment of any mileage taxes found to be due, including the entry of a money judgment for the amount of such taxes.

323.25 Taxes deemed compensatory.—All mileage taxes prescribed by this chapter and all such taxes imposed on motor carriers using the public highways in the transportation of persons or property for compensation shall be deemed to be compensatory for the use of the public highways of this state by motor carriers taxed under the provisions of this chapter and as a fair contribution to the cost of constructing and maintaining the public highways of this state and the administration and enforcement of this chapter and all regulations and restrictions imposed hereby and authorized to be imposed by the commission are declared to

be for the purpose of conservation of the state's property and in the interest of safety in the use of its highways.

323.26 Railroad companies may operate motor vehicles under this chapter.—Railroad companies, their receivers or trustees, operating in this state may operate motor vehicles for hire upon the highways of this state, provided they obtain from the commission a certificate under this chapter; and provided further, that they shall be, as to said motor vehicles, motor carriers under this chapter and subject to all the provisions of this chapter; and railroad companies, their receivers or trustees operating in this state may also own the whole or any part of the capital stock of a corporation or corporations organized or operating as a motor carrier.

Except as hereinafter provided, no railroad company, its receivers or trustees, nor any company whose stock is owned by a railroad company, its receivers or trustees, shall be granted a certificate of public convenience and necessity without proof such as would be required by an independent motor carrier; provided, however, that upon the making of proper application therefor, by any such railroad company, its receivers or trustees, or by any company other than a railroad company, the majority of whose stock is owned by any such railroad company, its receivers or trustees, the commission shall, as a matter of right and without a hearing, grant a certificate of public convenience and necessity to any such railroad company, or to the receivers or trustees of such company, or to any such company other than a railroad company, the majority of whose stock is owned by any such railroad company, its receivers or trustees, to operate for the transportation of freight, express or United States mail over the highways and public roads of this state, using only the most practicable route located nearest to its rail lines and which is generally used between the communities served by its rail lines, said route as herein defined to be determined by the commission, motor vehicles between and within communities which are connected by and served by the rail lines of any such railroad company, but not elsewhere. The rates and charges for transportation by motor vehicles, as in this section provided, shall be the same as those which any such railroad company, its receivers or trustees may be authorized to charge if such transportation had been solely by rail; and said railroad company, its receiver or trustees, and any company in which such railroad company, its receivers or trustees, may own a majority of the stock, engaged in such operation, shall, to the extent of such operation, be liable for the same fees and taxes as are prescribed for other certificated motor carriers.

Any certificate granted by the commission

as a matter of right under the foregoing proviso shall be granted subject to the following conditions, viz: when any application under this proviso is filed with the commission the applicant shall attach thereto the schedules upon which it proposes to operate trucks, and such schedules once being filed shall not be changed or enlarged without the authority of the commission after first making application to it and having such hearing thereon as the said commission may require.

No rate or classification applicable to the service applied for in force and effect as prescribed or allowed by the commission when such application is made, shall be lowered below the rate or classification of any competing truck lines over the route sought to be served by the applicant without the public utilities commission first having heard an application so to do, upon due notice as is now or may hereafter be required of any other certificated truck line.

When a certificate granted by the commission under the provisions of this section to a company in which a railroad company may own a majority of the stock has been cancelled or revoked by the commission for violation of law or any lawful order, rule or regulation of the commission, no certificate shall be granted to any other company in which said railroad company may own a majority of the stock to operate over that portion of the route as to which the certificate may have been cancelled.

323.28 Law inapplicable to interstate commerce; certificate of registration.—

(1) Neither this chapter nor any provisions hereof shall apply or be construed to apply to commerce with foreign nations or commerce among the several states of the union except insofar as the same may be permitted under the provisions of the constitution of the United States and the acts of congress.

(2) It shall be unlawful for any motor carrier transporting for compensation in interstate commerce in Florida for which a certificate of public convenience and necessity or a permit is required from the interstate commerce commission to operate over the public highways of this state without first having filed a certified copy of such interstate commerce commission authority with the Florida public utilities commission and having obtained from said commission a certificate of registration. It shall also be unlawful for any such companies transporting for compensation under exemptions provided by the interstate commerce act to operate in Florida without first having obtained

such a certificate of registration. Said certificate of registration shall be granted as a matter of right without public hearing.

(3) Applications for certificates of registration when properly filed on forms provided by the commission will be granted as a matter of course, and continued supervision of interstate carriers will be limited to the control of routes traveled, type, weight, size and method of operation of motor vehicles, proper accounting and payment of the compensatory mileage tax required by law and the giving of a bond or insurance to provide for protection of third parties from injuries due to negligence of interstate operators in the use of the highways and other police regulations required by law and rules and regulations of the commission. No cargo insurance will be required. Proof that bond or insurance is filed with the interstate commerce commission adequate to protect the operation on the highways of this state together with a description of such bond or insurance will be accepted in lieu of said bond.

(4) No motor vehicle shall be used in such service unless said vehicle has first been registered with and its use has been authorized by the commission. Common carriers of passengers holding a certificate of public convenience and necessity or a permit issued by the interstate commerce commission authorizing such service, will be authorized to make occasional charter trips in the state in interstate commerce upon compliance with the following requirements:

(a) Comply with the terms of subsection (3) of this section;

(b) Advise the commission in advance of the date of the proposed trip and the routes to be traveled;

(c) Make payment to the state comptroller of compensatory mileage tax required by law;

(d) Agree not to pick up any passengers for intrastate transportation in Florida; and

(e) Furnish satisfactory evidence of payment to the state motor vehicle commissioner of the required registration fees for each vehicle to be used in this state.

(5) The commission, in the exercise of the jurisdiction conferred upon it by this chapter, may make such orders and prescribe such rules and regulations affecting such interstate motor carriers as it deems necessary for the safety of the public highways.

(6) Each interstate motor carrier registered under the provisions of this chapter shall designate a resident agent.

(7) In the event Florida has entered into a reciprocal agreement with another state under the terms of §320.39, waiving certain of its laws pertaining to interstate transportation for compensation, such reciprocal agreement will be controlling as to such laws of Florida as are thereby waived.

323.29 Exemptions from provisions of this chapter.—

(1) Recognizing and declaring that the transportation exempted in this section is casual, seasonal and not on regular routes or schedules, is slow moving, frequently in special equipment, and for comparatively short distances over the improved highways of the state, there shall be exempted from the provisions of this chapter, and from commission jurisdiction and control, motor vehicles, other than those engaged in common carrier service, used exclusively in transporting children to and from schools; transportation companies engaged in taxicab service, or the operation of hotel buses to or from depots and hotels, serving the same town or city; and motor vehicles while engaged exclusively in transporting goods, wares, merchandise, horticultural, agricultural, or logs, lumber or other forest products, fish, oysters and shrimp, and dairy products, from the point of production to that point of primary manufacture, or from the point of production to the point of assembling the same, or from either such point of production, primary manufacture or assembling to a shipping point of either a rail, water or motor transportation company, usually and generally serving the territory in which said production, manufacture or assembling takes place. There also shall be exempted from the provisions of this chapter and from commission jurisdiction and control, persons operating motor vehicles within the corporate limits of any city or town or the adjoining suburban territory, or between cities and towns whose boundaries adjoin, where such business of carriage is regulated by the legislative body of such cities or towns. There shall be further exempted from the provisions of this chapter and from commission jurisdiction and control, persons operating motor vehicles for transportation of persons for compensation, but not motor vehicles for transportation of property for compensation, in that certain area of Duval county lying east of the range line dividing range twenty-six east and range twenty-seven east.

Nothing in this chapter contained shall be construed or applied to exempt from commission jurisdiction and control, persons operating motor vehicles transporting race-horses and polo ponies for compensation, unless both the point of origin and point of destination are within the corporate limits of the same city or town.

There shall be further exempted from the provisions of this chapter and from commission jurisdiction and control, motor vehicles used exclusively in transporting agricultural or horticultural products, supplies and materials, including fertilizers and sprays, when delivered direct to the growers or consumers or to an association of such growers or consumers.

Nothing in this chapter contained shall be construed or applied to require any private motor vehicle engaged in the transportation of

goods, wares or merchandise belonging to the owner or operator of such vehicles to secure a permit or a certificate of public convenience and necessity under the provisions of this chapter, or to become subject to regulations prescribed by this chapter or by the commission in respect to common, private contract or for hire carriage, or to pay the mileage tax provided by this chapter. Casual or irregular trips by motor vehicles not engaged in the business of for hire carriage but operated under private license shall not subject such motor vehicles to the provisions of this chapter so long as such motor vehicles may not lawfully be required to operate under for hire license tags.

(2) There shall be exempted from the provisions of this chapter, and from commission jurisdiction and control, persons operating motor vehicles upon that portion of Heckscher drive in Duval county, between the city of Jacksonville and Little Talbot island.

(3) There shall be exempted from the provisions of this chapter, and from commission jurisdiction and control:

(a) Motor vehicles used exclusively in transporting ice for use in the packing of agricultural or horticultural commodities for further shipment, and

(b) Dump trucks leased by a building construction or road building contractor from another such contractor with drivers for such vehicles furnished by the lessor contractor and used exclusively in transporting construction aggregates to a concrete or asphalt mixing plant or to a construction site.

(4) The following shall not be deemed as operating for compensation under this chapter, to wit: hearses and ambulances when operated by licensed embalmers and morticians, their agents and employees in this state; wreckers used to transport motor vehicles to garages and repair shops; dump trucks when used in transportation of mixed road building materials from a mixing plant to the construction site of a public highway; and motor vehicular transportation of United States mail.

323.31 Transportation brokers.—

(1) **LICENSE REQUIRED.**—No person, firm, company or association shall for compensation sell or offer for sale transportation of property subject to this chapter or which would be subject to this chapter except for the exemptions provided by §323.29 or shall make any contract, agreement, or arrangement to provide, procure, furnish, or arrange for such transportation or shall hold himself or itself out by advertisement, solicitation, or otherwise as one who sells, provides, procures, contracts, or arranges for such transportation, unless such person, firm, company or association holds a transportation broker's license in such transactions; provided, however, that no

such person, firm, company or association shall engage in transportation subject to this chapter unless he holds a certificate or permit as provided in this chapter. And provided further, that the provisions of this section shall not apply to any motor carrier or to bona fide employee or agent of such motor carrier, so far as concerns transportation to be furnished wholly by such carrier or jointly with other motor carriers or with a common carrier by railroad, express, or water.

(2) **ISSUANCE OF LICENSE; HEARING; PROTEST.**—A transportation brokerage license shall be issued to any applicant therefor, who is found to be qualified, as hereinafter provided, to perform the transportation brokerage services proposed in his application and who is found to have complied with the provisions of this section and the requirements, rules and regulations of the commission thereunder; otherwise, such application shall be denied. Upon the filing of the application and the payment of the fees hereinafter provided, the commission shall set a time for a public hearing and shall at the same time give written notice thereof to each transportation broker holding a license to do business anywhere in the state. At such public hearing the applicant will be required to establish by substantial evidence the statements made in his application as well as the fact that the issuance of a license to him would be consistent with the public interest.

(3) APPLICATION, FEES.—

(a) Application for such transportation brokerage license shall be in writing verified by the applicant and shall specify the name and address of applicant and the names and addresses of its officers or partners, if any, the locality or location within the state from which the applicant desires to operate and the kind of transportation which the applicant intends to sell, provide, procure, contract or arrange for. In addition, the application shall show that the applicant is qualified in the following particulars:

1. He has had a minimum of one year of experience in the office of a licensed transportation broker or one year of experience as a truck owner or driver in the field of motor transportation.

2. He has not been convicted of engaging in the business of transportation brokerage without a proper license in the past twelve months; and no legal proceedings are pending against him for violation of this section.

3. He has not been engaged as the owner, partner, officer, or director of a predecessor company operating as a transportation broker within the past twelve months which has become insolvent, been adjudged as bankrupt, or has unsatisfied judgments against it.

4. He has attached to his application as a part thereof a current financial statement prepared and signed by a certified public accountant showing a minimum net worth of five thou-

sand dollars and adequate financial means to operate successfully as a transportation broker.

(b) Each application shall be accompanied by a fee of five hundred dollars to be placed in the general revenue fund; provided, however, that four hundred dollars shall be refunded if the license is not issued. All licenses issued hereunder, including those licenses now in effect, shall be renewed annually by the payment of an annual license renewal fee of two hundred fifty dollars per license which shall be due on December 31 each year. If such fee is not paid in advance of such due date, it must be received by the commission on or before January 31 of the next year in order for the renewal of the license to be effective. All moneys received hereunder shall be deposited in the general revenue fund.

(c) Localities or locations from which the applicant desires to operate shall be stated as precisely as possible and if possible shall be stated by reference to a particular incorporated municipality. License shall be issued according to the localities or locations stated in the application therefor and shall authorize the applicant to do business only from the localities or locations stated. Nothing herein contained shall be interpreted as preventing any transportation broker from holding licenses to do business from more than one locality or location but a separate license shall be required for each locality or location from which business is done; provided, however, upon application to and approval by the commission, licensed transportation brokers engaged exclusively in procuring transportation for seasonal commodities, may, upon terminating seasonal operations in a given locality, move to another locality and continue such seasonal operations without procuring an additional license or licenses for such subsequent places of business.

(4) **SUSPENSION OF LICENSE AND REVOCATION.**—The public utilities commission may suspend a transportation broker's license if it finds that the licensee has either:

(a) Suffered a money judgment to be entered against him upon which execution has been returned unsatisfied; or

(b) Made false charges for services rendered by himself or by any motor carrier which he represents; or

(c) Failed to account properly and promptly, or to make settlement with any motor carrier; or

(d) Made any false or misleading statement as to services rendered by himself or by any motor carrier which he represents; or

(e) Been guilty of a fraud in the attempt to procure or the procurement of a license; or

(f) Arranged for transportation of property subject to this chapter and not exempt under the provisions of §323.29 with other than an authorized carrier; or

(g) Become not fit, willing and able properly to perform the service authorized by his

license, for any other good and sufficient reason.

(5) **HEARING BEFORE PUBLIC UTILITIES COMMISSION.**—Before the commission shall suspend or revoke a license, it shall fix a time and place for a public hearing and give the applicant or licensee notice thereof, by registered mail, placing in the notice the grounds upon which the proposed suspension or revocation is based. Such notice shall be mailed not more than sixty or less than twenty days prior to the date set for hearing. At such hearing the licensee shall be privileged to appear in person or by or with counsel and to produce witnesses.

(6) **ASSIGNMENT OF LICENSE.**—No transportation brokerage license issued under the provisions of this section may be assigned or transferred without the consent of the commission authorizing such transfer. Applications shall be filed jointly by the assignor and the assignee and shall be subject to the same provisions as to hearing and notice as original applications for licenses. The commission may reasonably alter, restrict or modify the terms and provisions of any such license or impose restrictions on such transfer where the public interest may be best served thereby.

(7) **RULES AND REGULATIONS; BOND OR OTHER SECURITY REQUIRED.**—The commission shall prescribe reasonable rules and regulations for the protection of shippers by motor vehicle and motor carriers, to be observed by any person, firm, company or association holding a transportation brokerage license. No such license shall be issued or remain in force unless such person, firm, company or association shall have furnished a bond or other security approved by the commission, in such form and amount as will insure financial responsibility. Such bond shall be conditioned upon the payment of all obligations to motor carriers or shippers, and the supplying of authorized transportation in accordance with all contracts, agreements, or arrangements with both motor carriers and shippers. In no event shall the total of all recoveries exceed the amount of such bond or security.

(8) **INSPECTION OF ACCOUNTS AND RECORDS.**—The commission and its clerks and inspectors shall have the same authority as to accounts, reports, and records, including inspection and preservation thereof, of any person, firm, company or association holding a transportation brokerage license under the provisions of this section, that they have under this chapter with respect to the motor carriers subject thereto.

(9) **EMERGENCY PERMITS.**—On a satisfactory showing of an emergency requiring transportation brokerage services in the movement of perishable commodities, the commission may grant a temporary transportation brokerage license pending a public hearing on application for a permanent license and said commission may also grant temporary authority to any licensed transportation broker in the state to furnish

such brokerage services in the emergency area during the pendency of such emergency.

323.35 Penalties.—Every officer, agent or employee of any corporation, and every other person who violates or fails to comply with, or who procures, aids or abets in the violation of any provisions of this chapter, or who fails to obey, observe or comply with any order, decision, rule or regulation, direction, demand or requirement, or any part or provision thereof, or who fails to observe any regulations as to maximum speed of operation or maximum weight of load, of the commission, or who procures, aids or abets any person in his failure to obey, observe or comply with any such order, maximum speed of operation, maximum weight of load, decision, rule, direction, demand, or regulation, or any part or provision thereof, is guilty of a misdemeanor and is punishable by a fine not exceeding \$500.00 or by imprisonment in the county jail not exceeding 1 year.

323.36 Carriers; unlawful agreements.—

(1) Any part of any agreement, arrangement or other device entered into shall be unlawful and void which as a condition to the transportation of property requires or permits a regulated for hire carrier of property, freight forwarder, private carrier or other carrier or shipper or association or group of shippers to pay a charge, allowance, assessment or compensation to any person or organization if such charge, allowance, assessment or compensation is dependent or contingent upon the use of another mode of transportation in addition to motor transportation for movement of such property.

(2) Should any person, firm, partnership, organization or association of persons violate any of the provisions of this section, they shall be guilty of a misdemeanor and upon conviction shall be punished by a fine of not less than \$100.00 nor more than \$500.00, or by imprisonment for not less than 30 days nor more than 90 days, or by both such fine and imprisonment. Each day of the violation of any of the provisions of this section shall constitute a separate offense.
